POLICY AREA	DELAWARE'S STRENGTHS	DELAWARE'S OPPORTUNITIES FOR GROWTH
AREA 1: GENERAL TEACHER PI	REPARATION	
Program Entry		The state should require that teacher preparation programs only admit students who do not have a 3.0 GPA if those students score in the top half of all college-going students, not just prospective teachers, on a test of academic proficiency.
Teacher Shortages and Surpluses		The state should publish data on teacher production that connect program completion, certification, and district hiring statistics, and also provide guidance regarding program acceptance numbers.
Program Performance Measures	The state connects program graduates' student growth data to their teacher preparation programs.	
Program Reporting Requirements	The state holds teacher preparation programs accountable for meeting performance standards and for the quality of teachers they produce.	
Student Teaching/ Clinical Practice	The state requires that cooperating teachers are selected based on evidence of effectiveness and that the clinical practice experience is at least 10 weeks, full time.	
AREA 2: ELEMENTARY TEACHE	R PREPARATION	
Content Knowledge	The state requires elementary teacher candidates to pass a content test with individually scored subtests in each of the core content areas.	
Teaching Mathematics	The state's elementary content test includes an independently scored math subtest.	
Teaching Reading		The state should require that elementary teacher candidates pass a science of reading test to ensure knowledge of effective reading instruction and candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
Licensure Deficiencies		The state should require early childhood education teachers who are eligible to teach elementary grades to pass an elementary content test with individually scored subtests in each of the core content areas, pass a science of reading test, and be fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
AREA 3: SECONDARY TEACHE	R PREPARATION	
Middle School Content Knowledge	The state requires middle school teachers to pass a rigorous single-subject content test.	
Middle School Licensure Deficiencies	The state does not allow middle school teachers to teach on a K-8 generalist license.	
Adolescent Literacy		The state should require that all middle school and secondary candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
Secondary Content Knowledge	The state requires all secondary teachers to pass a single-subject content test as a condition of initial licensure and to add an endorsement to an existing license.	
Secondary Licensure Deficiencies		The state should require secondary general science teachers and secondary social studies teacher to pass a single-subject content test for each discipline they are licensed to teach.
AREA 4: SPECIAL EDUCATION	TEACHER PREPARATION	
Content Knowledge	The state requires special education teachers to also earn a general education teaching certificate at either the elementary or secondary level.	

Teaching Reading		The state should require that all new special education teachers who teach elementary grades pass a rigorous elementary test of scientifically based reading instruction and be fully prepared to meet instructional shifts associated with college- and career-readiness standards.				
Licensure Deficiencies		The state should require elementary or secondary special education certification.				
AREA 5: ALTERNATE ROUTE TEACHER PREPARATION						
Program Entry		The state should increase alternate route admissions requirements by requiring a rigorous test or a GPA of 3.0.				
Preparation for the Classroom	The state's alternate route programs prepare new teachers for the classroom through manageable and relevant coursework, intensive mentoring and induction, and a supervised practice teaching experience.					
AREA 6: HIRING						
Requirements for Out-of-State Teachers	The state requires out-of-state teachers to provide evidence of effectiveness, undergo full criminal background checks, and be eligible for standard licenses without unnecessary requirements.					
Provisional and Emergency Licensure	State allows holders of an initial license to teach outside of their subject area.					
AREA 7: TEACHER AND PRINC	CIPAL EVALUATION					
Measures of Student Growth		The state should ensure objective evidence of student growth is the determinative factor in teacher evaluations.				
Measures of Professional Practice	The state requires that all teacher evaluations include observations, and be conducted by trained and certified evaluators.					
Frequency of Evaluation and Observation	The state requires that all teachers are evaluated annually, and that new teachers are given feedback early in the year.					
Linking Evaluation to Professional Growth	The state requires that teachers are supported with adequate evaluation feedback, aligned professional development, and improvement plans (for ineffective teachers), under a system with three rating categories.					
Data Systems Needed for Evaluation	The state adequately defines teacher of record, has a process in place for teacher roster verification, and has the capacity to link student-level data and teacher performance.					
Distributing Teacher Talent Equitably		The state should report school-level data about teacher performance to help support the equitable distribution of teacher talent.				
Principal Effectiveness	The state requires that principal effectiveness is determined, in part, by objective measures of student growth and teacher effectiveness/instructional leadership, and that ineffective principals participate in improvement planning.					
Principal Evaluation and Observation	The state requires all principals to be annually evaluated by trained and certified evaluators.					
AREA 8: TEACHER COMPENSA	ATION					
Performance		The state should give districts the flexibility to determine pay structures, and discourage districts from tying compensation to advanced degrees or experience.				
High-Need Schools and Subjects		The state should support additional pay for working in high-need schools and teaching in shortage subject areas.				
Prior Work		The state should encourage additional compensation for all new teachers with relevant prior work experience.				
AREA 9: RETAINING EFFECTIVE TEACHERS						
Licensure Advancement	The state bases licensure advancement on teacher effectiveness.					
Tenure	The state requires tenure decisions to be connected to evidence of teacher effectiveness.					
Leadership Opportunities		The state should support teacher leadership opportunities.				
Dismissal	The state enables ineffective classroom performance to be a basis for dismissal.					
Layoffs		The state should require districts to consider evidence of effectiveness when determining which teachers to lay off during reductions in force.
