Your AEA Educator Access Card

Top 10 Questions Regarding Member Access Cards

1. What is the Access Card?

Simply put, the Access card is your education association membership card. It not only entitles you to all the benefits of being an association member but it also gives you the ability to save money at thousands of locations worldwide.

2. What kinds of discounts are available?

Your card saves you up to 50% on purchases you make every day: at restaurants, hotels, retail stores, golf courses, ski resorts, theme parks, and everywhere else in between. With discounts at over 100,000 locations worldwide, you'll be sure to find savings wherever you are – or plan to be!

3. How do I activate my card?

Activating your card is easy. Simply log on to the AEA website (www.arizonaaea.org) and follow the instructions on the back of your card. If you don't have internet access, simply call the customer service number listed on your card and our friendly staff will be happy to assist you.

4. How do I access the website?

It's easy. Simply activate your card by following these three easy steps:

- a) Log in to the AEA website at www.arizonaaea.org.
- b) Enter your member ID number located on the front of your card.
- c) Create your personal account by following the registration instructions.

5. How do I get my discounts?

Most merchants require that you present your membership card at the time of purchase. Occasionally, some merchants also require a coupon that you print from the website, so be sure to check the individual merchant page on the website for specific instructions.

6. How do I search for savings?

There are several ways to search for savings. To find participating merchants in your area, simply enter in your city name or zip code into the box marked "find discounts," select your category, and click "find." You can also refine your search results by clicking on "advanced search" on the left-hand side of your browser. This will allow you to search for several specific categories within a specific area.

7. What if I lost my card?

Don't worry. The process for obtaining a replacement card is easy. Call the MEA Office at 833-8400 to have a new card mailed to you.

8. What if a merchant I visited didn't recognize the program?

Every once in a while, a merchant will appear on the website whose employees are unaware of the discount program. If a participating location does not honor your discount, please contact our member services team at AEA immediately.

9. I don't have internet access. Can I get a printed directory?

Absolutely! Simply contact our member services team at AEA and for a nominal shipping fee, we'll send you a printed directory for your area. Since the printed directories are only updated once every quarter, it's possible that some recently added merchants will not appear in your directory. The website, on the other hand, is updated daily.

10. I don't see my favorite merchant in the program. What can I do?

We get some of our best leads from members like you. With our Refer-a-Merchant program, members identify businesses where they would most like to save. Once a location is submitted, our merchant recruitment team goes into action – contacting the business and encouraging it to join the Access Savings program. So be sure to check the website often to see if your "referred merchant" has been added to our program.

For bereavement leave and family critical illness purposes, family shall mean the employees' spouse, children, parents, parents-in-law, siblings, stepchildren, paternal and maternal grandparents of the employee, grandchild, brother-in-law, or sister-in-law, son-in-law, or daughter-in-law.

MESPA shall mean the Mesa Education Support Personnel Association.

Obligatory Transfer shall mean a mandatory change in assignment outside the employee's present school necessitated because of:

- A. Increases or decreases of enrollment in various grades and classes;
- B. Opening of new buildings or closing of old ones;
- C. Changes in organization of the school system;
- D. Addition or elimination of an educational service;
- E. Vacancies created by promotions, leaves of absence, death, retirement, transfer and the like; or
- F. Special circumstances which will enhance the District educational program.

Reprimand shall mean any written report of disciplinary action taken by supervisory personnel as a result of an employee violation or infraction of District policies, procedures, regulations, or administrative directives that is to be included in the employee's personnel file.

For teachers new to teaching (TNT), seniority shall be computed from the most recent date of employment, excluding any days of TNT training prior to the start of the school year.

When the District is filling part-time positions and all factors are considered equal by the unit administrator, an employee's seniority as a part-time employee shall be the determining factor in filling the vacancy.

Part-time employees have no guarantee of continued employment beyond that provided in statute.

Time spent out of the District on an authorized leave of absence shall neither add to nor interrupt an employee's seniority.

In the event two or more teachers began work on the same date, their seniority rank shall be determined by the date on which their employment contracts were ratified by the Board.

Voluntary Transfer shall mean a change in assignment from one school to another initiated at the request of the employee.

Article 3 -- Appointment of Teachers to Committees

Within twenty (20) working days of the request the MEA president will recommend names of individuals to the Superintendent for consideration of appointment for all classroom teacher positions on District committees which directly affect teachers. Failure to respond within this time limit will result in appointments being made by the Superintendent, unless an extension of the time limit is agreed to by both parties.

Any District employee or group of employees may submit names of employees to be considered for appointment to committees for consideration by the Superintendent. The Association will select one-half (1/2) of the committee membership unless committee membership is specifically identified in this article.

Each principal and director selection committee shall include at least one (1) teacher member appointed from a list of three (3) names submitted by the Association President.

The Superintendent agrees to inform the Association whenever a temporary committee is formed to review curriculum and the names of the individuals appointed to serve on each committee.

For the committees listed below, one member of each shall be designated to inform the Superintendent and the MEA president of the committee's meeting schedule and to transmit committee minutes to the Superintendent and the MEA president.

Professional Development, Testing, and Technology Committee

The MEA President and two (2) additional employees selected by the MEA President shall meet prior to October 1 each year with the Associate Superintendent, the Assistant Superintendent for Curriculum and Instruction, and the Director of Career Ladder/Incentive Programs for the purpose of reviewing and discussing issues related to professional development, testing, and technology. Any member of this committee may bring topics for the agenda. Additional meetings may be scheduled if the MEA President or the Associate Superintendent request them.

Textbook and Instructional Materials Selection Committees

Section A.

All committees charged with reviewing and selecting textbooks and/or instructional materials used in lieu of textbooks shall be composed of at least one-half (1/2) classroom teachers who are presently teaching at the grade level or in the department for which the texts or materials are being selected.

The president of the Association will submit names for the classroom teacher members of selection committees to the Superintendent for consideration of appointment to the committees.

After a review and selection committee has been appointed, the administration shall publicize the names of committee members to encourage teachers to discuss the selection with committee members.

Selection committees shall provide classroom teachers with an opportunity for oral and written input about texts and instructional materials under consideration before the committee's recommendations are finalized and forwarded to the Board.

Section B.

Following the completion of each adoption process, the selection committee shall be reconvened to recommend the instructional materials and supplies necessary to effectively implement that program.

Section C.

The District shall attempt to provide released time, if necessary, for teachers working on selection committees.

Student Retention and Growth Committee

Representatives of the Association, MESPA, School Administration, and the Superintendent shall meet at least one time each semester for the purpose of exploring initiatives which could enhance the maintenance and growth of student enrollment in the District. Guiding assumptions for the committee shall include: 1) A willingness to consider new and creative ideas, and 2) An understanding that employee participation and buy-in will improve the chances for success. The first meeting shall take place no later than November 1 of each year. The schedule, agendas, and participants for these meetings shall be mutually decided upon by the Superintendent, the MEA President, and the MESPA President.

Article 4 -- Association Representation

The Board recognizes the Association as the representative of all classroom teachers, librarians/media specialists, subject matter specialists (i.e., basic skills specialists, science specialists, art specialists, etc.), psychologists, nurses, physical therapists, occupational therapists, and audiologists who are employed by the Mesa Unified School District.

Article 5 -- Association Rights

The Association and its recognized representatives are permitted to conduct Association business on school property. Permission for use of the facilities for this purpose must be obtained from the unit administrator and must not interfere with any scheduled school activities. Excess costs resulting from such use shall be borne by the Association.

Space on at least one bulletin board shall be made available in each school unit to the Association and its recognized representatives for the purpose of posting notices about Association matters and activities.

The Association may use teacher mailboxes for communications to teachers. The Association may communicate with employees via the school telephone and voice mail system.

Upon approval of the school principal, the Association may have time prior to the start of the morning or after the close of the afternoon faculty meetings for the purpose of making Association announcements and reports.

The Board agrees that within the provisions of District policy and the Arizona Revised Statutes it will furnish to the Association:

1. Financial documents which are appropriate to the meet-and-confer process;
2. Agendas to the Board meetings;
3. Minutes of the Board meetings;
4. Names and assignments of all certified employees in the District; and
5. A seniority list of all teachers in the District, which shows names and hire dates.

Cost of duplication of these materials shall be borne by the Association.

Each year by September 15, the Association shall provide to the District a list of current faculty representatives and executive officers. Additions or corrections to this roster shall be provided to the District monthly.

The unit administrator and the faculty representatives at each site shall meet at least one time each year, prior to October 1, for the purpose of discussing procedures and concerns related to the duties of the Association Representatives.

Article 6 -- Career Ladder

After determination by the Board of the funding process for Career Ladder, the following shall apply:

Section A.

The Career Ladder Program shall continue to be administered by a 15-member Implementation Committee. The president of the Association shall submit the names of ten (10) persons to serve on the committee to the Superintendent for his/her concurrence and appointment to the Committee.

Section B.

All meetings of the Career Ladder Implementation Committee shall be conducted in open session with the exception of discussion of personnel matters and/or advice from legal council and an agenda shall be posted twenty-four (24) hours prior to the meeting.

Section C.

The Career Ladder Implementation Committee shall implement a plan to provide for regular, on-going input from employees regarding the Career Ladder Plan, its requirements, its implementation, and any proposed modifications.

Section D.

The Career Ladder Implementation Committee shall take the appropriate steps to ensure that funds budgeted for the program are spent for teacher salaries, approved staff development activities, and/or approved administration of the program.

Section E.

The Career Ladder Implementation Committee shall cause a financial report to be published semi-annually stating the allocation of funds, how they are distributed and for what purposes.

Article 7 -- Changes in Grades and/or Report Cards

Section A

1. Classroom teachers are responsible for grading decisions. Teachers shall keep sufficient record of objective measures of each student's performance during the grading period to explain/justify/support the grade indicated on the report card.
2. Students or their parents/legal guardians have the right to question grading decisions.
3. Questions regarding grading decisions should initially be discussed with the teacher who made the decision.
4. Any questions regarding grading decisions not resolved through discussion with the teacher may be appealed to the school principal or designee within twenty (20) school days into the next grading period.

In an effort to resolve the matter, the school principal or designee shall discuss the grade with the classroom teacher and review (with the teacher) the teacher's record of objective measures of student performance during the grading period.

Administrators shall not substitute their professional judgment for that of the teacher.

5. Except as provided in section B, there is no process for review of a grading decision other than with the school principal or designee.

Section B

1. In the event that any question regarding a teacher's decision to promote or retain a student in a grade in an elementary school or to pass or fail a student in a course in a junior or senior high school cannot be resolved at the school level, the student or parent/legal guardian may request in writing that the Board review the decision. Any such request must be made within fifteen (15) days of the school principal or designee's review of the pass/fail or promote/retain decision.
2. The Board shall review the decision in executive session unless the parent/legal guardian or the emancipated student requests in writing that the review be conducted in an open meeting.

3. If the review is conducted in Executive Session, the Board shall notify the teacher and parent/legal guardian or emancipated student of the date, time and place of the review. The Board shall allow the parent/legal guardian or emancipated student and the teacher to be present at the review.
4. The Executive Session shall be tape recorded or minutes taken.
5. The parent/legal guardian or emancipated student may present to the Board written evidence to support the contention that the promotion/retention decision or the pass/fail decision should be overturned.
6. The teacher may also present written evidence to support his/her decision. If the teacher is not present at the review, the Board shall consult with the teacher, if possible, before making its decision.
7. If the course wherein the grade was reported is a course for which competency requirements have been prescribed, the Board shall base its decision on the prescribed competency requirements.
8. The Board shall put in writing its decision to accept or overturn the teacher's decision. The document shall include the basis for the Board's decision.
9. Any written request, the written evidence presented at the review and the written record of the review, including the decision of the Board to accept or overturn the teacher's decision, shall be retained by the Board as part of its permanent records.

Section C

When revisions in District report cards are necessitated, a joint committee shall be formed to review the changes. No more than one-half (1/2) of the committee shall be administrators. Except in order to comply with legislative mandates and/or established emergencies, any changes in report cards shall not be implemented during the current school year.

The MEA president will recommend names of teachers to the Superintendent for his/her concurrence and appointment to the committee.

Article 8 -- Class Size

The Board and the Association desire to work toward the reduction of class size. Future reductions, however, are dependent upon the financial resources of the District and the amount of classroom space available.

During the 2007-2008 school year, the District Administration shall attempt to staff schools with a student-teacher ratio at an average per school as follows:

Kindergarten	26 students
Primary (1-3)	26 students
Intermediate (4-6)	30 students
Junior High (7-9)	28 students
High School (10-12)	26 students

During the 2007-2008 contract year, inordinate class size which shall constitute grounds for a complaint is defined as student enrollment of ten percent (10%) above the aforementioned ratios. In order to maintain class loads as designated in the agreement, the Association accepts the concepts of combining two grade levels in a single class or transfer of a teacher after the school year is underway.

For special education classes, a complaint is defined as a case load exceeding the student-teacher ratio by ten percent (10%) as defined in the Administrative Regulation IHB-R, exclusive of contact hours. In the event that the student-teacher ratio exceeds the guidelines in the Administrative Regulation by more than ten percent (10%), the special education teacher/therapist will send a letter to his/her principal and special education regional director. If there has not been a resolution, within ten (10) school days from receipt of the letter, the special education teacher/therapist may proceed to initiate the complaint according to the approved dispute resolution procedure.

Because the Board recognizes and understands the importance of maintaining the lowest possible class loads, the Superintendent or his/her designee shall provide periodic analysis on the status of "class size." Such reports shall include specifics regarding which schools and which grade levels are experiencing class sizes above the limits listed above, and shall be made available to the Board and the MEA President no less than two (2) times per year, once each semester. These reports shall include specifics regarding special education case loads.

Faculty at alternative programs/sites will be consulted by the Administration in determining appropriate class size.

Article 9 -- Dispute Resolution Procedures

I. Purpose

The purpose of these dispute resolution procedures is to provide certificated employees with a fair means of resolving a claim. When possible, claims should be resolved quickly, informally, and confidentially. The procedures are not intended to hinder discussion concerning employment relations or problems between the administration and employees or employee groups.

II. Definitions

- A. "Assistant superintendent" means the assistant superintendent to whom the supervisor reports. If the supervisor is an assistant superintendent, the associate superintendent will serve as the assistant superintendent.
- B. "Association" means the Association.
- C. "Claim" means an assertion by an employee or group of employees who have been negatively affected by a decision of a supervisor that violates, misinterprets, or inequitably applies a law, policy, regulation, administrative decision or any provision of the Agreement between the Board and the Association or which endangers the complainant's health or safety.
- D. "Complainant" means the employee or group of employees who bring a complaint.
- E. "Complaint" means a written statement of a claim which describes:
 - 1. The action or decision of the supervisor;
 - 2. The provisions of the law, policy, regulation, administrative practice or agreement allegedly violated, misinterpreted, or inequitably applied;
 - 3. The negative effect suffered;
 - 4. The remedy sought; and
 - 5. The complainant's name, signature, and representative, if any.
- F. "Hearing officer" means the associate superintendent or a person selected by the associate superintendent from a list of at least five individuals who are acceptable to both the superintendent and the Association. The list of persons eligible for selection will be approved by the Board at a public meeting in January and will be used for the remainder of the calendar year. The hearing officer selected by the associate superintendent shall not be a person who supervises, directly or indirectly, the supervisor or complainant.
- G. Working day means a day District offices are open.
- H. "Representative" means a person that the complainant or supervisor designates to assist him/her during the dispute resolution process.
- I. "Supervisor" means the administrator or director upon whose action or decision the complaint is based or who could remedy the problem and with whom the complaint must be delivered to initiate the formal dispute resolution procedure.

III. Informal Procedure

A complainant must first arrange to meet with the supervisor in an effort to resolve the complaint informally. If the complainant is not satisfied with the outcome of the informal discussion of the complaint or the supervisor refuses to participate in informal discussions of the complaint, the complainant may proceed with the formal dispute resolution procedure.

IV. Formal Procedure

- A. The complainant must deliver a complaint to the supervisor within twenty (20) working days of the later of:
 - 1. The day when the complainant knew about or reasonably should have known about the action or decision upon which the complaint is based, or
 - 2. The day when remedial action agreed upon by the complainant and supervisor to resolve the complaint was expected to occur but failed to occur.

Upon delivery of the complaint, the complainant will request to schedule a time to meet with the supervisor to discuss the complaint. The complainant may also request that the appropriate assistant superintendent attend the meeting in an effort to facilitate a mutual resolution of the complaint. If the complainant fails to deliver a complaint within the twenty (20) working day period, the complaint will be considered untimely and the supervisor may decline to consider it.

- B. The supervisor will meet with the complainant within five (5) working days after the complaint is delivered. The supervisor will issue a written decision regarding the complaint within five (5) working days of the meeting with the complainant. The supervisor may seek the advice of the assistant superintendent prior to rendering the decision. If the supervisor fails to respond to the complaint within the five (5) working day period, the complainant will send to the associate superintendent the complaint, together with a letter explaining that the five (5) working day period for decision has lapsed.
- C. If the supervisor issues a decision and the complainant is not satisfied with it, the complainant may appeal the decision to the associate superintendent by delivering a copy of the complaint and the decision within five (5) working days after the complainant receives the decision. If the complainant fails to appeal the decision within the five (5) working day period, the supervisor's decision will become the final decision.
- D. Within five (5) working days after the associate superintendent receives an appeal of a supervisor's decision or a letter from the complainant advising that a supervisor has failed to respond to a complaint in a timely manner, the associate superintendent will inform the superintendent and conduct a hearing of the matter or appoint a hearing officer to conduct a hearing of the matter. The following provisions apply to the hearing:
 - 1. The hearing will be conducted within ten (10) working days after appointment of the hearing officer and in accordance with usual standards of administrative due process, including receiving testimony and argument from both sides and allowing cross-examination of witnesses.
 - 2. At least twenty-four (24) hours prior to the hearing, the complainant and supervisor (or their representatives) will exchange a list of witnesses and documents that will be presented at the hearing.
 - 3. The hearing will be closed to the public unless the parties mutually agree that it be open.
 - 4. The fees and expenses of the outside hearing officer (if any) will be borne equally by the District and the complainant.
 - 5. If the hearing concerns a complaint to which the supervisor allegedly failed to respond in a timely manner, the hearing officer will determine whether the supervisor failed to issue a written decision in a timely manner. If the hearing officer finds that the supervisor failed to issue a written decision in a timely manner, or if the parties agree that the complaint was delivered in a timely manner, the hearing officer will accept the complaint as valid and limit the recommendations to the question of what is an appropriate remedy or remedies. The hearing officer may recommend a remedy other than the remedy requested in the complaint and will not recommend financial compensation unless the hearing officer finds that there is a valid legal basis for the District to provide such compensation.
- E. Within five (5) working days after the hearing, the hearing officer will provide a written report to the complainant, the supervisor, and the associate superintendent. The report will include the findings of fact and a recommendation for resolution of the complaint.
- F. If the complainant or supervisor is not satisfied with the report, the complainant or supervisor may appeal the report to the Board by delivering a notice of appeal to the secretary of the Board within seven (7) working days after delivery of the report to the complainant. If the complainant or the supervisor fails to appeal the report within the seven (7) working day period, the recommendations in the report will become the final decision.
- G. The Board will hear the appeal of the report in executive session during a special meeting or during its next regular meeting. The Board may invite the complainant, supervisor and hearing officer to attend the executive session to discuss the matter. The Board will vote in public meeting to accept, modify or reject the report. The Board's decision will be the final decision and will be promptly communicated to the complainant and superintendent.

V. General Provisions

Article 20 -- Medical Leave Assistance

The District shall make the Medical Leave Assistance Program available to eligible employees in accordance with Administrative Regulation GBBD-R(2). The Medical Leave Assistance Program shall include the following components:

1. The program shall be available to employees who have depleted their accrued sick and personal leave as a result of their prolonged illness or injury. No employee is eligible for the Medical Leave Assistance Program after he/she qualifies for long-term disability coverage or, if the employee has not applied for long-term disability coverage, after he/she has been absent for 180 consecutive calendar days.
2. Employees who qualify for assistance may also request coverage for a specified number of days for intermittent treatment which is necessitated as a result of the qualifying prolonged illness or injury.
3. A donor employee may only donate sick leave if he/she has thirty (30) or more days of accumulated leave and the donor employee may donate no more than five (5) days of sick leave in any contract year.
4. Once approved, donated leave shall not be returned or reimbursed to the donor employee. All donated leave becomes the permanent property of the receiving employee unless said employee is released to return to work earlier than originally stated by his/her physician and has a balance in excess of ten (10) donated days. Days of leave, not the actual wage of the donor employee, will be donated. Donations will not be allowed to be made to the employee's immediate supervisor or evaluator.
5. Information regarding a donation shall be considered confidential. An employee will have the option of donating sick leave without the receiving employee being knowledgeable of the donor's name.

The Superintendent or his/her designee will inform all full-time teachers on continuing status who accept part-time teaching positions that, according to District policy, they retain continuing teacher status only on a part-time basis once they accept a part-time position. Beginning July 1, 1996 part-time teachers shall retain their District seniority relative to other certified employees in the District. Part-time teachers shall accrue seniority at a pro-rata basis

Full-time certificated employees requesting part-time status shall make their request of their immediate supervisor(s), providing rationale for the request. Immediate supervisors shall take into consideration this rationale and site and District needs, in approving or disapproving the request. The site administrator, in conjunction with at least three (3) non-administrative staff members whose incentive pay is in question, will submit a written appeal to the associate superintendent. If the associate superintendent and/or designee(s) grant the appeal, the site administrator will be notified and no further action will be taken. If the appeal is not granted, an appeals committee, consisting of members of the superintendency and/or their designees will review all written appeals. The site administrator and school representatives shall have an opportunity to meet directly with the appeals committee before a final decision is rendered.

Section D — Involvement

All schools and departments will have a process in place for staff involvement in planning and goal setting consistent with the District's Pay-For-Performance Plan.

Article 23 -- Paydays

In accord with the provisions of Arizona Revised Statutes/23-351. B.1 and/23-351.B.2, the Board shall establish a pay schedule that pays employees for work completed through the last working day of the pay period without withholding any salary earned as of the end of each individual pay period.

Article 24 -- Planning Time

All junior high and high school teachers who are employed on a full-time basis and who work a full working day shall have at least one (1) student period daily or the equivalent for planning and preparing teaching lessons. A secondary school shall not change the planning time schedule from the standard of one (1) student period daily unless the affected faculty at that school have been given the opportunity to participate in the development of the alternative scheduling plan. This may not be possible for teachers working at multiple sites.

Elementary principals shall arrange planning time in blocks of at least twenty (20) minutes when possible.

Planning and preparation time shall normally be free of other assigned duties. Planning and preparation activities are normally carried out at the school site.

When a teacher is requested by the site administrator to cover another teacher's class during preparation time because a substitute is not available, as determined by Human Resources, the teacher substituting in lieu of preparation time, shall be reimbursed one-fifth the daily substitute rate of pay. Reimbursement is dependent upon funding being available.

Alternative or nontraditional school sites or programs may change the provisions for planning time described above. Faculty at the alternative/nontraditional sites shall have the opportunity to participate in the development of the professional workday for that site. The total amount of planning time available to a teacher at an alternative/nontraditional school site in a work week shall be equivalent to the time available as specified in this article if at all possible.

If there is no faculty in place because a new alternative/nontraditional school and/or program is being planned, the Assistant Superintendent of Human Resources shall meet with the MEA President to discuss planning time. Employees who request and receive voluntary assignments to alternative/nontraditional sites accept that their planning time is affected in accordance with these provisions.

A school faculty may develop a proposal for an alternative planning time schedule. Any such plan must be approved by the appropriate Assistant Superintendent and the Association President before implementation. No plan may result in a net loss to any employee of planning time as specified in this article.

Article 25 -- Professional Day

The specific professional working hours for classroom teachers shall be determined by the unit administrator after consulting with staff members and concurrence of the Superintendent's designee.

In order to help schools establish a daily schedule, assure students of sufficient opportunity to confer with teachers, enable normal coordination for good building management, provide for an effective communication among students and staff, and provide a reasonable guideline to serve as a District standard, each school's professional working hours for classroom teachers shall normally commence at least thirty (30) minutes prior to the first class and continue at least thirty (30) minutes beyond the last regularly scheduled class period, not to be less than seven and one-half (7-1/2) hours on campus, excluding lunch.

Article 26 -- Professional Evaluation

If the District teacher evaluation criteria, instrument, or process is to be modified, teachers shall be involved in the planning process.

A joint committee, composed of an equal number of teachers and administrators, shall be appointed for this purpose.

The MEA President will recommend names of teachers to the Superintendent for his/her concurrence and appointment to the committee.

Article 27 -- Professional Leave

Professional Leave may be granted by the Superintendent to attend an educational conference, convention, seminar or workshop; to observe another classroom; or to participate in other professional activities as requested by the District. (Release time to serve on District curriculum committees and District personnel selection committees shall not be charged to a school's professional leave.)

Each school shall be granted professional leave days on the basis of one (1) day for each four (4) teachers (full-time equivalents). This number of days shall be the standard professional leave. A matching number of days shall be in existence as supplementary professional leave if the approving site administrator has funds available to pay for the cost of substitutes other than those funds coming from the District substitute budget. Employees desiring to use professional leave must obtain approval at least five (5) working days in advance of the activity.

Prior to September 15, of each year, the unit administrator and the Employee Involvement Committee described in Article 13 of this Agreement shall meet to mutually develop a plan for the allocation of professional leave days.

If an employee's request for professional leave is denied, the employee may, after notifying his/her principal, appeal to the Assistant Superintendent for Human Resources who will be authorized to approve such requests.

Article 28 -- Professional Travel Funds

Funds in the amount of \$90,000 shall be provided during this agreement for use by employees to cover registration fees, materials, travel expenses and other related costs incurred as a result of participation in an approved professional activity. Fifty percent (50%) of this amount (\$45,000) shall be used for professional activities in specific areas of District/Site need designated annually by the Superintendent.

Such funds may be used for an individual to attend a conference, convention, seminar, clinic, workshop, or study session approved by the Superintendent and when the activity occurs during the normal school day upon the granting of professional leave by the Superintendent.

Funds budgeted for professional travel shall be made available only to employees covered by this Agreement and shall not be used to cover expenses on student trips.

Requests for travel shall be administered as prescribed in District policies, state statutes and in accordance with District guidelines and procedures approved by the Superintendent. Prior to July 1, these guidelines shall be reviewed by a representative from the MEA and the Assistant Superintendent for Human Resources.

Funds budgeted for professional travel during the fiscal year which remain unspent at the conclusion of the fiscal year shall revert to the District's general fund.

There shall be no restrictions against the use of Professional Travel Funds on weekends, during school recesses, or while an employee is on Personal Leave.

Article 29 -- Re-Opener

- A. This agreement is contingent upon the school funding formula as prescribed in Chapter 9, Arizona Revised Statutes, Title 15, remaining unchanged for the 2007-2008 school year. Any changes in the funding formula which result in decreased revenue may require the Board and Association to examine needed modifications.
- B. A portion of the monies used to fund the salary schedule is from the Classroom Site Fund established under A.R.S. /15-977 (Fund). The monies allocated from the Fund that are reserved for certain maintenance and operations purposes must be allocated annually at the discretion of the Board after consultation with school principals. Consequently, the salary schedule may vary as a result of the Board's annual allocation of monies from the Fund.
- C. The portions of this agreement that are related to Classroom Site Fund funding are contingent upon the 2007-2008 Classroom Site Fund funding level being at least \$20,000,000.00 and teachers that are eligible under the base salary and performance pay components of Classroom Site Fund are included under the definition of teacher as provided in A.R.S. 15-501.2.

Regardless of the definition of teacher for Classroom Site Fund eligibility, it is the intention of the parties that the District will include all employees as defined in Article 2 of this Agreement in the base salary and pay-for—performance components of this Agreement.

- D. The Board and the Association agree to reconvene for one session to discuss salary provisions of this agreement in the event that new legislation causes the available budget limits applicable to the Maintenance and Operation Fund to increase or decrease subsequent to the adoption of this Agreement by the parties and/or the issuance and acceptance of individual employment contracts. A similar session shall be convened if state projections for Classroom Site Fund revenues increase or decrease subsequent to the adoption of this Agreement by the parties and/or the issuance and acceptance of individual employment contracts.
- E. The District shall share information regarding revenue projections with MEA prior to Meet and Confer. This information shall include the status of revenue collections during the current fiscal year.
- F. Beginning on or before February 15, 2008, either the Board or the Association may initiate the Meet and Confer process to modify this Agreement.

Article 30 -- Reductions In Personnel

If a reduction in the total number of certificated personnel becomes necessary because of declining enrollment, decreases in revenues, changes in state educational requirements or other reasons as provided in Arizona Revised Statutes/15-544, such reductions shall be made according to the following criteria:

1. With the following exceptions, the Board shall first retain those employees who have the longest continuing period of service with the District:
 - a. Those retained must be qualified to assume a similar position, e.g., teacher to teacher, nurse to nurse, psychologist to psychologist, in the areas and disciplines to be preserved;
 - b. After determining the number of personnel to be reduced, the Board may retain 25% of the total number (to be reduced) at the discretion of the Board in accordance with specified District needs.
2. "Qualified" is defined as an employee who has the following:
 - a. Proper certification, endorsement, and/or license for the assignment;
 - b. Academic preparation which meets the requirements of the certification/accreditation agency; and
 - c. Major-minor area required for the assignment.
3. Inasmuch as possible, normal attrition, to include voluntary early retirement, sabbatical leaves, and leaves of absence, will be used as a means to resolve reduction in force requirements; that is, employees who resign will not be replaced if there are qualified employees available in the District.
4. Every effort will be made to ensure that personnel to be separated may be placed in assignments within the District, dependent upon their certification and area of qualification.
5. Individuals not retained as a result of a reduction in personnel may notify Human Resources that they are interested in working as substitutes. Upon notification, these individuals shall be given priority in making substitute assignments.
6. An individual not retained in a full-time position who secures a part-time position within the District does not waive his/her right to recall to a full-time position.
7. Individuals separated will not lose their recall rights by securing employment outside the District during separation.
8. Individuals not retained will remain on the recall list for three (3) years after the effective day of the reduction in personnel unless the individual:
 - a. Waives recall rights in writing;
 - b. Resigns; or
 - c. Fails to accept recall to the position held immediately prior to the reduction in personnel or to three (3) recalls in substantially equivalent positions.
9. In the event of a reduction in personnel, individuals will be recalled in the reverse order of separation, dependent upon certification, endorsement, and/or license and area of qualification. In the event an individual

is recalled, he/she must report for duty within five (5) working days after having received notification of recall or within five (5) working days from the time the position becomes open, whichever is later. If an employee has secured temporary employment elsewhere, he/she will be allowed up to fourteen (14) calendar days before being required to report to work.

Notification shall be accomplished by certified or registered mail. The notified individual shall have ten (10) working days from the date notification was mailed in which to contact the Assistant Superintendent for Human Resources. If the individual is not able to report to work or if the individual is unable to be contacted because he/she has failed to maintain a current home address on file with the District, the next eligible individual will be recalled to fill the opening at the conclusion of the ten (10) working days.

It is the responsibility of the individual who has been separated as a result of a reduction in personnel to keep Human Resources informed of any changes in teaching certification and/or endorsements.

10. Upon return, a recalled individual shall receive no less base salary than he/she received in his/her last contract period and shall receive any "across the board" salary increases which have been granted to other employees which occurred during the period of separation. If, immediately prior to separation as a result of a reduction in personnel, the recalled individual was eligible to advance an experience step at the beginning of the ensuing contract year, then he/she shall receive that advancement upon being recalled and returning to the District.

The recalled individual will be given no experience credit for a separation of one semester or more as a result of a reduction in personnel. A recalled individual who returns to employment shall receive benefits in accordance with those in place for employees holding positions similar to the recalled individual. Unused accumulated sick leave, not reimbursed at the time of separation, shall be credited to the recalled individual upon return to active employment. A recalled individual will receive earned professional growth credit during the time of separation as a result of a reduction of personnel in accordance with established rules for such at the time of return to active employment to the District. This individual will be credited with the amount of seniority earned at the time of separation in accordance with established rules for such at the time of return to active employment.

Article 31 -- Reimbursement for Unused Sick Leave

Employees shall be reimbursed for unused sick leave days upon termination/interruption of service to the District by retirement, resignation, death, or reduction in force under the following provisions:

1. Employees who terminate by death or reduction in force and who have at least five (5) continuous years of service with the District at the conclusion of the individual's last year of employment shall be reimbursed at the rate of sixty-six and two-thirds percent (66 2/3%) of the substitute teacher's daily rate of pay for up to two hundred twenty (220) days. Total years of service are reduced by leaves of absence of a full semester or more.
2. Employees who terminate by resignation and who have at least five (5) continuous years of service with the District at the conclusion of the individual's last year of employment shall be reimbursed at thirty-three one-third percent (33 1/3%) of the substitute teacher's daily rate of pay for up to two hundred twenty (220) days. Total years of service are reduced by leaves of absence of a full semester or more.
3. Employees who terminate by resignation and who have at least seven (7) continuous years of service with the District at the conclusion of the individual's last year of employment shall be reimbursed at sixty-six and two-thirds percent (66 2/3%) of the substitute teacher's daily rate of pay for up to two hundred twenty (220) days. Total years of service are reduced by leaves of absence of a full semester or more.
4. Employees who terminate by retirement and notify the District no later than March 1, and who have at least five (5) continuous years of service with the District at the conclusion of the individual's last year of employment shall be reimbursed at sixty-six and two-thirds percent (66 2/3%) of the substitute teacher's daily rate of pay. Total years of service are reduced by leaves of absence of a full semester or more. Employees who notify the District of their retirement prior to the following deadlines shall be reimbursed for up to two hundred forty (240) days:
 - a.) Retire at the end of the contract term: Notify by March 1
 - b.) Retire at the end of the first semester: Notify by October 1

Employees who notify the District after the appropriate deadline shall be reimbursed for up to two hundred twenty (220) days.

All reimbursement shall be rounded to the nearest dollar and shall be based upon the substitute teacher's daily rate of pay in effect at the time of termination for each unused day of sick leave.

Employees who have accumulated in excess of 175 days of sick leave shall be entitled to sell up to eight (8) days a year back to the District at the level of reimbursement in effect at the time the days are sold back.

Employees desiring to sell back days of accumulated sick leave shall notify the District prior to April 1 of the year in which they wish to effect the sale. Reimbursement for unused sick leave shall be made prior to the end of the fiscal year.

If requests to sell back accumulated sick leave days exceed funds available, priority shall be given to those employees with the greatest number of accumulated sick leave days. However, employees whose request to sell back accumulated sick leave cannot be honored because of limited financial resources shall receive priority for reimbursement of those days and the additional permissible block in the ensuing fiscal year.

Employees who terminate and are eligible for sick leave reimbursement may have their reimbursement pro-rated over their remaining pays in the school year. Employees may request reimbursement for sick leave days in excess of five (5). Any balance remaining at the end of employment will be reimbursed in lump sum. Days sold back to the District will count toward the maximum reimbursement limits.

Article 32 -- Release Time for the MEA President

The President of the Association shall be granted one-half (1/2) release time daily. An alternative plan for this release could be arranged with mutual agreement between MEA and the District. The release time shall result in no additional cost to the District even though the President shall continue to receive his/her normal salary and fringe benefits from the District during his/her term as MEA President.

Article 33 -- Safety and Facilities Committee

A Safety and Facilities Committee shall be appointed at each school site in the District. The committee shall include at least four (4) members who shall meet monthly during the school year.

The committee, which shall include the unit administrator and one (1) MEA representative, shall be charged with advising the administration of concerns regarding safety, facilities, equipment, and materials. Committee members shall evaluate the on-site facilities to determine what changes need to be made and shall prepare recommendations for inclusion in the budget development process. The committee shall prepare a crisis response plan for the building, which shall be communicated to all faculty and staff at the worksite and submitted to the Directors of Employee Benefits/Risk Management and School Safety and Security. The plan must be approved by the Director of School Safety and Security or their designee.

The committee may request funds for equipment, materials, additional supervisory aide support, or other projects to alleviate potentially dangerous or unsafe conditions at a worksite. Application for use of these funds shall be directed to the Assistant Superintendent of Business and Support Services. A response to all requests shall be made within thirty (30) calendar days.

If the committee or any employee believes that the school is subject to a health risk for staff or students due to environmental conditions (such as degraded air or water quality), the committee or any employee shall report such a concern to the site administrator. This concern should be included in the monthly safety report submitted to Risk Management. If the employee or committee is not satisfied with the site administrator's response, the concern may be submitted to the Assistant Superintendent for Business and Support Services, who shall provide a written response in a timely manner. If the employee or committee is not satisfied with this written response, they may file a complaint. In this instance only, the Assistant Superintendent for Business and Support Services shall be considered the initial administrator.

Article 34 -- Salary Credit

The District may identify certain areas in which there is a shortage of qualified candidates. Teachers in those areas and teachers interested in retraining shall receive salary credit for all courses -- graduate and undergraduate level -- up to a maximum of thirty-six (36) hours, to include previously earned hours.

An exception may be made if the teacher is enrolled in an approved graduate degree program in the aforementioned area.

All courses must be approved through the normal channels. The employee must file an application for participation along with the appropriate information to include numbers and titles of courses to be taken prior to embarking on such a program.

Article 35 -- Salary Schedule For Extended Contracts

Salary computation for extended contracts shall be done at a pro-rata daily rate. That rate shall be determined by dividing the employee's current contractual salary (as per salary schedule), not to include career ladder monies, by the number of his/her contractual working days, to include holidays.

Article 36 -- Salary Schedule for Extra Factor

Section B.

Extra Factor pay for coaches shall be for the season of practice as defined by the Mesa Unified School District Number Four Athletic Rules and Regulations.

An additional compensation contract shall be issued to any coach whose season is extended by virtue of state championship competition earned through divisional qualification. Such contract shall be for one week paid on a weekly pro rata basis: one week’s pay will be provided for each five-day week that a team is involved in the tournament or play-off. The team must have five (5) days of practice/competition beyond the regional or divisional qualifying tournament.

The formula for determining the amount of pay is: Extra Factor Pay per sport divided by the weeks of the sport season equals the extra factor pay for each increment of five (5) days.

Section C.

In order for speech and debate to be considered for extra factor pay, the team must participate in six (6) invitationals and regionals. If they go to state, they receive an additional 1% of the base salary.

If the drama coach is involved in state competition, the extra factor compensation shall be increased by an additional 1% of the base salary.

If the Senior High Academic Team participates in national competition, the sponsor’s extra factor compensation shall be increased by an additional 1% of the base salary.

If the High School marching band is required to participate for the extended time for football state playoffs, the extra factor compensation for the extended season shall be computed in accord with Section B.

Section D.

Coaches should be assigned to AAPE with the exception of Golf and Archery coaches. Principals have the option of not assigning assistant coaches to an AAPE class based on constraints of the total educational program and availability of personnel.

Head coaches may request not being assigned to an AAPE class. This request must be approved by the principal.

Coaches who teach five (5) classes (full time teachers) and who coach on their preparation hour will receive their stipend plus an additional fifty percent (50%) of that stipend, as determined by the extra factor schedule. High school coaches who teach A hour as part of their five (5) class teaching schedule, will receive their

stipend plus an additional fifty percent (50%) of that stipend, as determined by the extra factor schedule. In no instance may an individual receive more than one 50% stipend per season.

Section E.

Except for years in which movement on the salary schedules is frozen, individuals on the Extra Factor Salary Schedule shall move one (1) column to the right for each year of experience except as provided herein.

Section F.

Out-of-District experience in similar or related activities may be allowed for on the Extra Factor Salary Schedule, but no more than two (2) steps may be allowed for experience during the previous two (2) years or more.

Section G.

Individuals who have previously received extra factor pay in the District and who have experienced a break of more than one (1) year in the same position may not be placed beyond the third (3rd) step of the Extra Factor Salary Schedule, but in that case only if the individual had at least two (2) years of continuous service. A break of five (5) years or more will be treated as no experience for placement on the Extra Factor Salary Schedule.

In moving from a head position to the assistant position or senior high to junior high position--in the same division, i.e., sports--the employee will not be reduced in steps, but he/she will be paid the lesser amount as prescribed in the new category.

Section H.

2. A new employee with no previous experience will begin at Step 1 and remain at that step for three (3) years. New employees will be allowed up to five (5) years of outside experience credit when they are hired.

5. Employees on this salary schedule shall be eligible for the District incentive bonus. The incentive bonus amounts for 2007-2008 are stated in the memorandum between MEA and the District dated June 27, 2007.

Article 40 -- Savings Clause

If any provision of this Agreement or any application of it to any employee or group of employees is held to be contrary to law, then such provision or application shall not be deemed valid and subsisting, except to the extent permitted by law. All other provisions or applications shall continue in full force and effect.

A formal legal opinion issued by the Office of the County Attorney, and concurred with by the Office of the Attorney General, shall have the force of law for the Board.

If any provision or application of this Agreement is so voided, the President of the Association and the Superintendent shall meet for the purpose of arriving at a satisfactory replacement for such provision or application.

Article 41 -- School Calendar

The Superintendent or designee will meet with representatives of the Association during the fall of each school year to obtain input on a school calendar for subsequent years. The recommendations from these representatives shall be considered when draft calendars are created for consideration by the Board when adopting new student calendars for future years.

Prior to the adoption of new student calendars, the Board will conduct two (2) public hearings with the intent of receiving individual teacher, staff, and community preferences. In addition, other communication options, including e-mail, and letters, will be accepted from individuals wishing to express opinions about calendar options.

The Board will adopt calendars only after the conclusion of the public hearings and consideration of written materials received. Copies of the materials received by the Board shall be available to the Association upon request and with the understanding that the Association will pay the cost of making the copies.

Article 42 -- Seniority List

Whenever the need for a reduction in personnel is identified within an individual school, a department or a grade level at an individual school, or the District at-large, the Assistant Superintendent for Human Resources will develop a seniority list among those teachers potentially affected by the proposed reduction in personnel. A copy of each seniority list shall be provided to the Association at the time it is provided to the unit administrator(s).

A District-wide seniority list shall be provided to the Association on October 1 and February 15 of each year.

Article 43-- Short Term Leave

Section I - Sick Leave

- A. Eleven (11) days sick leave shall be granted to all employees during each contract year. Employees who are on extended contracts shall earn additional sick leave at the rate of one (1) for each twenty (20) days worked beyond the normal contract year. Such days shall be cumulative. It is expected that employees will make every attempt to notify their supervisor or designee prior to any absence.

Sick leave may be used for the employee's own illness, illness involving a member of the employee's immediate household, preventive medical examination, family critical illness, bereavement leave and twelve week family medical leave (FMLA). Absences for the reasons stated above will be reported to the Payroll Department as sick leave.

B. Sick leave shall be accrued as follows:

1. Employee must be employed in an active status fifty-one percent (51%) of the workdays in any month to earn an accrual for that month. A long term illness (more than thirty [30] work days) will result in a cessation of advancement and accrual of sick leave days. If the 30th day occurs after the employee has been actively employed for fifty-one percent (51%) of the days in the month, the accrual will be given for that month. Upon returning to work accrual will be given the first month the employee has been actively employed for fifty-one (51%) percent of the month.
2. Accruals will occur on the final District work day of each month.
3. Eligible full time employees will be advanced five and one half (5.5) of the eleven (11) sick leave days in August. Advanced days for employees hired after August, and remaining accruals will follow the table listed below. Part-time employees will be advanced days and will accrue days based on the pro-rata amount of their contract.

Start Date during Month of	Accrual Master for Full Year (11.0 days)	Advanced Days for Late Start	Total Days Earned for Late Start
August	5.5	n/a	n/a
September	0	4.4	9.9
October	0	3.3	8.8
November	0	2.2	7.7
December	0	1.1	6.6
January	1.1	Accruals are the same as the Accrual Master for full year for second semester hires	5.5
February	1.1		4.4
March	1.1		3.3
April	1.1		2.2
May	1.1		1.1

- C. Employees who deplete their accumulated sick leave during the school year and who have all or a portion of their salary reduced because of additional absences excluding personal leave and/or requested off contract may request to be paid retroactively for sick leave days accumulated and not taken after the employee has returned to his/her job. This provision, however, is applicable only during the school year in which the employee's salary was reduced.
- D. Reports detailing individual employees' absences can be printed from Kronos at the sites on an as needed basis. Any employee's request to challenge the accuracy of the records on sick leave must be submitted in writing to the District Payroll Office. Records may be challenged for no more than fifteen (15) months prior to the date of the challenge.
- E. Employees shall receive copies of absence reports which are completed by the employee and which record the reasons for his/her absence.
- F. Employees who are absent because of an on-the-job injury resulting from an assault with intent to commit harm toward an employee shall not have such absence deducted from their sick leave for a maximum of twelve (12) months. At the time of occurrence, the employee must declare these circumstances to the immediate supervisor

who shall then inform Risk Management. The supervisor must then complete the “Supervisor’s Report of Industrial Injury and Treatment Authorization Form.” Each case shall be investigated by Risk Management staff who shall then make the determination of eligibility and inform the employee and appropriate sites as to the decision.

Section II—Personal Leave

A maximum of five (5) days per year may be granted each employee for the purpose of personal leave. Employees hired 2nd semester or later will be granted half the number of these days. The first two (2) days of personal leave shall be deducted from the employee's sick leave unless otherwise requested by the employee on the initial PARF or travel request. The remaining three (3) days of personal leave shall not be deducted from accumulated sick leave. These days shall be used only after the two (2) personal days deducted from sick leave have been used unless all sick leave has been exhausted or otherwise indicated. All full time employees and those part time employees on a contract greater than .5 using these additional personal leave days shall be charged an amount equal to one day of substitute pay. All employees on a contract of .5 or less shall be charged an amount equal to one-half (½) the daily substitute pay rate. These deductions shall be made on the next paycheck following the reporting of the absence.

The following conditions shall apply in the use of personal leave:

1. Prior approval from the immediate supervisor must be obtained by the employee. For purposes of uniformity, all requests are subject to review by a designee of the Superintendent.
2. It shall not be granted on an employee's first or last day of work during a contract year. (Appeal is available. The reason for the appeal must be clearly stated on the PARF or in a separate letter.)
3. It shall not be used immediately preceding or immediately following a regularly scheduled holiday and October break. (Appeal is available. The reason for the appeal must be clearly stated on the PARF or in a separate letter.)
4. When an employee is unable to appear for work because of circumstances beyond his/her control, the employee may use personal leave providing the employee:
 - a. Notifies his/her immediate supervisor prior to the time of absence; and
 - b. Was unable to make other arrangements to appear for work.
5. It shall not be cumulative.
6. It shall not be granted to a person who is on an extension of contract.

Employees who do not use personal leave days which are deducted from their sick leave during any contract year shall accrue one (1) additional day of sick leave at the conclusion of that contract year. Excluded from this provision are those employees who have exhausted all sick leave and/or those who have taken a long term leave for the entire school year.

Section III—Jury Duty Court Witness Leave

It is recognized that no employee is exempt from jury duty and that absences for such duty must be granted.

1. Any contract employee who is required to serve as a juror and who is absent from work, will be given a temporary leave of absence and will receive his/her normal daily rate of pay and benefits. Any employee excused from work to serve as a juror shall be given leave with no penalty for being absent.
2. Any remuneration received for service as a juror will be deducted from the employee’s base salary in order to prevent duplication of salary. This does not include reimbursement for mileage and expenses.
3. An employee who has completed jury duty must return to work if there are at least two (2) hours remaining in the work day. Employees who choose not to return must use one-half day of personal leave. If they have no personal leave, then they will be docked one-half day’s daily rate of pay.

An employee subpoenaed to be a witness in court shall lose no salary, sick leave, or other benefits. A copy of the court subpoena must accompany the employee’s absence report statement upon return to work. An employee required to appear in court due to a legal action involving the District, as verified by the Assistant Superintendent for Human Resources or designee, shall be considered to be on duty as an employee whether or not a subpoena was filed.

Section IV— Off Contract Days

No more than five (5) off contract days shall be approved per employee during one school year. Employees shall be docked their daily rate of pay for each off contract day taken. Employees may not go off contract prior to depleting all available accruals the employee is eligible to use.

All listed conditions which apply to personal leave (see Section II) also apply to the use of off contract days.

Section V — Consecutive Absences

Other than for an approved leave of absence, it is expected that employees not be absent using personal leave and/or off contract days for more than five (5) consecutive days during the school year.

Article 44 -- Student Teachers

Student teachers shall be assigned only to teachers on continuing status except on appeal in writing by a probationary teacher through the principal, or an appeal initiated by the Principal, to the Superintendent or his/her designee. Certificated employees who are not teachers, such as psychologists and nurses, who have reached their fourth (4th) year of employment in the District or through an appeal, are also eligible for the assignment of college/university students interns or the like.

Article 45 -- Substitutes

A substitute shall be provided for all teachers who meet regularly with students when the regular teacher is absent from his/her duties.

Article 46 -- Teacher Preparation Days

Section A.

Administrators shall schedule activities during the four (4) pre-school days in such a manner as to provide the equivalent of one (1) day for training and/or site planning and two (2) half-days to be used primarily for individual preparation. These two half-days shall be free of all required meetings. The focus for the day of training/planning shall be related to the school improvement plan for that site unless otherwise directed by the Superintendent.

Section B.

The employee work day scheduled between semesters shall be reserved primarily for individual preparation, including the preparation of grades and reports, and shall be free of all required meetings.

Section C

All students will be released early on or before the last school day of the first and third grading periods in order to provide teachers time to complete student records and reports to parents. Such release shall be made two (2) clock hours earlier than the normal scheduled student release time at each school. To the extent possible, this release time shall be free of all required meetings.

In addition, all elementary students will be released one hour early on the days designated by the District for grading District-designated student writing assessments samples at elementary schools. To the extent possible, this release time shall be free of all required meetings.

Article 47 -- Transfer Procedure

Definitions: Obligatory Transfer - a District-initiated transfer because of enrollment factors, organizational changes, or special circumstances.

Voluntary Transfer - A teacher-initiated request to be relocated to another site or job category.

Section A.

Individuals who are participating in the transfer process--obligatory or voluntary--shall be permitted to interview for available positions and have an opportunity to indicate position preferences. All vacancies funded by District monies of .5 contract or more in the District shall be considered to be available positions and shall be posted.

At the conclusion of the obligatory transfer process and continuing through the second Monday of June, the District shall post the vacant voluntary transfer positions weekly via Intranet and telephone voice mail. Copies of the posting shall be placed on at least one (1) bulletin board at each school site. For vacancies created after the

last teacher work day of the regular school year and through the second Monday of June, the vacancy posting shall be available in the Association Office, the Human Resources Office, and via Intranet and telephone voice mail.

In order to begin the voluntary transfer process as early as practicable, the District may post vacancies before the conclusion of the obligatory transfer process, if the category of positions posted does not include individuals designated for obligatory transfer. For example, the District may begin to post vacancies for high school math, even though the obligatory transfer process has not been concluded for elementary schools, as long as there are no obligatory designations among high school math teachers.

Section B. -- Obligatory Transfers

1. On or before April 15 of each school year, a meeting shall be conducted for individuals identified as obligatory transfers. The District shall attempt to begin to transfer certificated employees designated as obligatory transfers by April 15 of the current school year.
2. The unit administrator of a school which must designate teachers as "obligatory transfers" shall use seniority as the basis for so doing unless school needs justify not using a "seniority system." The seniority system would require placing a teacher at each affected department at that school with the least seniority in the District on the obligatory transfer list. At elementary schools, seniority shall be determined at kindergarten, primary, and intermediate.

In the special education department of a given school, seniority shall be established based on certification in the specialized area (i.e., emotionally handicapped, learning disabled, etc.). The person being considered for transfer must have the appropriate certification and must be qualified to teach in the position to which he/she is being transferred.

3. Every effort will be made to inform certificated employees who are declared obligatory transfers of their status, in a private meeting with the building level administrator. This meeting shall take place prior to the building-wide announcement of obligatory transfers and the request for volunteer obligatory transfers.
4. Teachers who have been notified that they are subject to administrative intervention procedures due to their classroom performance shall not be eligible to volunteer to be an obligatory transfer unless they are approved by the appropriate Assistant Superintendent(s) and the Assistant Superintendent of Human Resources. All voluntary obligatory transfers shall be reviewed by the appropriate Assistant Superintendent(s) and the Assistant Superintendent of Human Resources.
5. Anyone who is declared an obligatory transfer will be considered for any open position at their current worksite for which they are qualified. Such consideration shall take place prior to placement of obligatory transfers from outside the worksite.
6. At the informational meeting the Assistant Superintendent or designee shall provide each certificated employee who is designated as an obligatory transfer with a list of new and/or vacant positions (available at that time) for the ensuing school year.
7. Certificated employees who are placed on the obligatory transfer list shall be allowed the opportunity to designate the site and the position they prefer. In no event shall the denial of transfer be made without the requesting employee having the opportunity to interview for the position(s) he/she is seeking, unless the employee is not highly qualified and/or lacks appropriate certification, endorsement, and/or license.
8. The District reserves the right to deny the certificated employee's preference on the basis of District, school or program need, certification and/or qualification for the position.
9. All obligatory transfer employees shall be notified of their placement.
10. The District shall attempt to give placement notification to all certificated employees affected by an obligatory transfer by June 1 of the school year.
11. If a staff member is transferred to another site as the result of an obligatory transfer, the District shall transport his/her personal teacher materials between the sites.
12. The Human Resources Department shall provide each certificated employee affected by obligatory transfers with a written copy of the District's transfer policy and procedures.

13. If a certificated employee is declared to be an obligatory transfer in the Spring for the ensuing year, that employee shall have the option of returning to his/her site to a vacancy that he/she is qualified for if all parties (i.e. obligatory transfer employee, sending principal, and receiving principal) mutually agree and the Assistant Superintendent of the Human Resources Department approves the return.
14. No certificated employee shall be placed on the obligatory transfer list more than one time in any three (3) years span of time unless that placement is the result of closing of a school site. An obligatory transfer who voluntarily transfers to another site within this three years is no longer protected from being an obligatory transfer. An exception to this policy may be made on the basis of school and District needs.

Section C. -- Voluntary Transfers

1. Voluntary transfers will normally not be considered after the second Monday of June to fill vacancies for the ensuing school year.
2. It is not the intent of this procedure that eligible certificated employees within the District be guaranteed a transfer merely upon request. Employees presently in the District will, however, be guaranteed consideration via an interview for any position(s) within the District for which they request a voluntary transfer. Employees who request a voluntary transfer may be refused consideration if they are not highly qualified and/or do not have the proper certification, endorsement, and/or license for the position which they are seeking. Employees not granted interviews, upon their request, shall be notified of the reason for refusal.
3. After obligatory transfers have been placed, the Human Resources Office will compile a list of available vacant positions for the ensuing school year. The vacancy list will be sent weekly to all appropriate sites via the Intranet and will be posted for one (1) week. Vacancies will also be posted on voice-mail. Eligible transfer employees must call the site administrator within two (2) working days of the posting to schedule an interview. (Also see Section A.)
4. Employees who interview for voluntary transfers shall be notified of the selection results by the interviewing administrator or designee.
5. An employee who has interviewed for voluntary transfer and has not been transferred after five (5) interviews or two (2) consecutive years may submit a request to the appropriate Assistant Superintendent for assistance in securing a transfer. The request shall list those transfer positions for which the employee has interviewed as well as any pertinent information relative to the employee's qualification/certification for the desired position(s).
6. Certificated employees shall be considered for vacancies occurring after the second Monday of June, if the individual's selection for the vacant position would result in additional financial remuneration for the ensuing school year.
7. The applicant considered to be the best qualified will be selected for the available position. If all factors are considered equal, the unit administrator shall use seniority within the District as the basis for selecting the successful candidate.
8. Any District-based teacher who is assigned to two (2) or more sites may request consideration for reassignment to a single site if a vacancy occurs after the second Monday of June and prior to August 1. The request must be made in writing to the Assistant Superintendent, Human Resources no later than the second Monday of June and must state the specific nature of the assignment for which he/she is to be considered. Consideration, in this instance, shall mean that the Human Resources Office shall include the teacher's name in the pool of available candidates offered for consideration by unit administrators.

Section D.

The Board shall attempt to employ certificated employees who are considered to be part-time or who are on "one semester or one year only" contracts for available positions.

Section E.

When new schools sites are opened, the designated principal shall be permitted to fill no more than one-third (1/3) of the positions with current employees from his/her transferring school.

At least one-third (1/3) of the employees may be voluntary transfers from other schools. This stipulation shall be followed providing the requisite number of vacancies throughout the District for obligatory transfer

placement is available and that projected student enrollment for the new school site is sufficient as determined by the Superintendent.

Article 48 -- Traveling Teachers

Section A.

Those teachers who travel in their own automobiles between schools as a part of their regular teaching assignment shall be reimbursed for mileage if they meet District insurance requirements. This reimbursement shall apply to all teachers who are assigned to teach at more than one school on the same day, to those teachers who are required to make home visits, and to those employees who are regularly required to report to more than one worksite in the District on the same day to teach.

Section B.

The District shall attempt to provide for teachers who travel between schools on a regular basis the same planning/preparation periods and duty-free lunch periods as provided other teachers. This shall be done without additional cost to the District.

Section C.

The District shall attempt to provide that teachers assigned to two (2) or more campuses normally shall not be required to accept responsibility for class or club sponsorship on more than one (1) campus and normally shall be assigned duties at only one (1) school. Except in cases of an emergency, traveling teachers will be expected to attend department and faculty meetings if they are conducted during the time those teachers are assigned to a particular school or campus.

Section D.

The Administration shall attempt to arrange teacher schedules so that no teacher will be required to travel among more than three (3) classrooms during the normal school working day in order to meet his/her teaching assignment.

Article 49 -- Tuition Reimbursement

For 2007-2008, the Board shall provide funds for tuition reimbursement for certificated employees covered by the MEA Agreement in the amount of \$200,000.00.

Article 50 -- Use of Student Test Data

The Board and the Association agree that an analysis of student achievement test scores is valuable in assessing the effectiveness of the District's instructional program.

Data from norm-referenced tests, A.I.M.S. tests, and the District's assessments will be used as one or more of several instruments for the following purposes:

1. Monitoring results by student, class, school, and total District;
2. Identifying problem areas;
3. Initiating corrective action;
4. Evaluating instructional areas;
5. Developing in-service programs;
6. Administering a more equitable program for assistance;
7. Providing additional accountability to parents; and
8. Working as an educational team to establish site and District goals.

The primary purpose of analyzing student test scores is to provide for instructional improvement, as aligned with state academic standards. When test data is available, that information shall be made available by electronic means and shall be kept on file in the Research and Evaluation Office and the school principal's office.

Article 51 -- Zipper Clause

This agreement constitutes the full and complete meet-and-confer commitments between both parties. It supersedes and cancels all previous meet-and-confer agreements.

This document contains the full and complete agreement between the Board and the Association except as noted below. Neither party shall be required during the term hereto to meet and confer on any issue covered in this agreement. This document may be amended or modified by mutual agreement of the parties although it is recognized that neither party has any obligation to meet and confer on any such amendment or modification during the life of this agreement. Any amendment or modification which has been agreed to shall be reduced to writing and signed by the appropriate representatives of the Association and the Board.

Beginning on or before February 15, 2008, the parties will meet to initiate the meet and confer process on a successor agreement.

Also, a District goal will be that enrollment in laboratory classes shall not exceed the number of stations available.
