

2016-2017

Instructional Evaluation System Template

Table of Contents

1. Performance of Students
2. Instructional Practice
3. Other Indicators of Performance
4. Summative Evaluation Score
5. Additional Requirements
6. District Evaluation Procedures
7. District Self-Monitoring
8. Appendix A – Checklist for Approval

Directions:

This document has been provided in Microsoft Word format for the convenience of the district. The order of the template shall not be rearranged. Each section offers specific directions, but does not limit the amount of space or information that can be added to fit the needs of the district. All submitted documents shall be titled and paginated. Where documentation or evidence is required, copies of the source document(s) (for example, rubrics, policies and procedures, observation instruments) shall be provided. Upon completion, the district shall email the template and required supporting documentation for submission to the address DistrictEvalSysEQ@fldoe.org.

****Modifications to an approved evaluation system may be made by the district at any time. A revised evaluation system shall be submitted for approval, in accordance with Rule 6A-5.030(3), F.A.C. The entire template shall be sent for the approval process.**

1. Performance of Students

Directions:

The district shall provide:

- For all instructional personnel, the percentage of the evaluation that is based on the performance of students criterion as outlined in s. 1012.34(3)(a)1., F.S., along with an explanation of the scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(a)1., F.A.C.].
- For classroom teachers newly hired by the district, the student performance measure and scoring method for each evaluation, including how it is calculated and combined [Rule 6A-5.030(2)(a)2., F.A.C.].
- For all instructional personnel, confirmation of including student performance data for at least three years, including the current year and the two years immediately preceding the current year, when available. If less than the three most recent years of data are available, those years for which data are available must be used. If more than three years of student performance data are used, specify the years that will be used [Rule 6A-5.030(2)(a)3., F.A.C.].
- For classroom teachers of students for courses assessed by statewide, standardized assessments under s. 1008.22, F.S., documentation that VAM results comprise at least one-third of the evaluation [Rule 6A-5.030(2)(a)4., F.A.C.].
- For classroom teachers of students for courses not assessed by statewide, standardized assessments, the district-determined student performance measure(s) [Rule 6A-5.030(2)(a)5., F.A.C.].
- For instructional personnel who are not classroom teachers, the district-determined student performance measure(s) [Rule 6A-5.030(2)(a)6., F.A.C.].

.....

Student Performance Measures

For the Student Performance measure for teachers (**which will be worth 34% of the evaluation for all instructional personnel**), the charts below display the assessments to be used in 2016-17. For the assessments covered by the State's VAM Models, VAM scores will be used for the Student Performance measure for the appropriate teachers. For the assessments not covered by the State's VAM Models (displayed in the chart below), local growth models will be developed to classify teachers as Highly Effective, Effective, Needs Improvement or Unsatisfactory. Proficiency models may be used for those assessments where growth cannot be measured. Student Performance data will include data for at least three years, including the current year and the two years preceding the current year, when available and agreed upon. If less than the three most recent years of data are available and agreed upon, those years for which data are available will be used. Classroom teachers newly hired by the district will utilize the same methodologies described above for the final evaluation. For the newly hired teachers' first evaluation, the district will allow the site-based administrator to determine the appropriate Student Performance measure weighted at 34%, as state-issued student performance data is not available at the time of the first evaluation.

Elementary School		
Teacher Type	Assessment	Methodology
4th-5th Grade FSA Reading/Math Teachers	FSA	State VAM
4th-5th Grade Non-FSA Teachers	FSA	Local Growth Model
5th Grade FCAT Science Teachers	FCAT Science	Local Growth Model
3rd Grade Teachers	FSA	Local Growth Model
2nd Grade Teachers	Running Records and/or local end-of-year Primary Reading Test (PRT)	Local Growth Model
1st Grade Teachers	Running Records and/or local end-of-year Primary Reading Test (PRT)	Local Growth Model
Kindergarten Teachers	Early Literacy Skills Checklist	Local Growth Model
Florida Standards Alternate Assessment (FSAA) Teachers	FSAA	Local Growth Model
Non-Classroom Teachers (with assigned students)	Appropriate assessment(s) from those above	Appropriate methodology from those above
Non-Classroom Teachers (whole school or district-wide responsibility)	FSA	State VAM

Middle School		
Teacher Type	Assessment	Methodology
6th-8th Grade FSA Reading/Math Teachers	FSA	State VAM
6th-8th Grade Non-FSA Teachers	FSA	Local Growth Model
8th Grade Algebra I Teachers	Algebra I EOC	State VAM
8th Grade FCAT-Science Teachers	FCAT Science	Local Growth Model
7th Grade Algebra I Teachers	Algebra I EOC	Local Growth Model
Civics Teachers	Civics EOC	Local Growth Model
Biology Teachers	Biology EOC	Local Growth Model
Geometry Teachers	Geometry EOC	Local Growth Model
Florida Standards Alternate Assessment (FSAA) Teachers	FSAA	Local Growth Model
Non-Classroom Teachers (with assigned students)	Appropriate assessment(s) from those above	Appropriate methodology from those above
Non-Classroom Teachers (whole school or district-wide responsibility)	FSA	State VAM

High School		
Teacher Type	Assessment	Methodology
9th-10th Grade FSA Reading Teachers	FSA	State VAM
9th-10th Grade Non-FSA Teachers	FSA	Local Growth Model
9th Grade Algebra I Teachers	Algebra I EOC	State VAM
Algebra 2 Teachers	Algebra 2 EOC	Local Growth Model
Biology Teachers	Biology EOC	Local Growth Model
Geometry Teachers	Geometry EOC	Local Growth Model
U.S. History Teachers	US History EOC	Local Growth Model
Advanced Placement Teachers	AP Test	Local Growth Model
IB Teachers	IB test	Local Growth Model
AICE Teachers	AICE test	Local Growth Model
Florida Standards Alternate Assessment (FSAA) Teachers	FSAA	Local Growth Model
Remaining Classroom Teachers	SAT, ACT, or Local Assessment	Local Growth Model
Non-Classroom Teachers (with assigned students)	Appropriate assessment(s) from those above	Appropriate methodology from those above
Non-Classroom Teachers (whole school or district-wide responsibility)	FSA	State VAM

The Student Performance Rating will then be determined utilizing the appropriate methodology. Once these are identified, the Student Performance Rating will be converted to the following scale:

- Highly Effective 3.450 - 4.000
- Effective 2.500 - 3.449
- Needs Improvement 2.000 - 2.499
- Unsatisfactory 1.000 - 1.999999

This Student Performance Rating (**worth 34%**) will then be combined with the Instructional Practice (**61%**) and Deliberate Practice Rating (**5%**) to determine a teacher’s Overall Evaluation Rating.

2. Instructional Practice

Directions:

The district shall provide:

- For all instructional personnel, the percentage of the evaluation that is based on the instructional practice criterion as outlined in s. 1012.34(3)(a)2., F.S., along with an explanation of the scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(b)1., F.A.C.].
 - Description of the district evaluation framework for instructional personnel and the contemporary research basis in effective educational practices [Rule 6A-5.030(2)(b)2., F.A.C.].
 - For all instructional personnel, a crosswalk from the district's evaluation framework to the Educator Accomplished Practices demonstrating that the district's evaluation system contains indicators based upon each of the Educator Accomplished Practices [Rule 6A-5.030(2)(b)3., F.A.C.].
 - For classroom teachers, observation instrument(s) that include indicators based on each of the Educator Accomplished Practices [Rule 6A-5.030(2)(b)4., F.A.C.].
 - For non-classroom instructional personnel, evaluation instrument(s) that include indicators based on each of the Educator Accomplished Practices [Rule 6A-5.030(2)(b)5., F.A.C.].
 - For all instructional personnel, procedures for conducting observations and collecting data and other evidence of instructional practice [Rule 6A-5.030(2)(b)6., F.A.C.].
-

The Broward Instructional Development and Growth Evaluation System (BrIDGES) for Broward County Public Schools will foster high quality instruction and increase student achievement. This will be monitored through the use of Instructional Practice and Student Performance Scores.

EVALUATION RATINGS

Determining Employee BrIDGES Ratings

A multiple step process in the specific order listed below determines employee ratings. The Instructional Practice Rating is comprised of this score.

The Instructional Practice Score addresses overall proficiency as it relates to the BrIDGES instrument. It reflects the continued use of key strategies implemented by the employee. The Instructional practice score will count for 61% of the teachers' overall evaluation.

Rating Key Strategies

Each observed key strategy is individually rated as a part of the conference/observation/ summative evaluation process. In accordance with Florida Statute, the key strategies are rated as:

Highly Effective - Collected evidence supports this rating when the employee exceeds the standard (as defined on the Domain Long Form) for effective professional practice in the observed area. This rating is valued at four (4) points and noted within BrIDGES as Innovating.

Effective – Collected evidence supports this rating when the employee meets the standard (as defined on the Domain Long Form) for effective professional practice in the observed area. This rating is valued at three (3) points and noted as Applying or (2.5) points, noted as Developing.

Needs Improvement – Collected evidence supports this rating when the employee partially implements strategies in the observed area on an inconsistent basis. This rating is valued at two (2) points, noted as Beginning.

Unsatisfactory – Collected evidence supports this rating when the employee fails to implement the strategy or uses it incorrectly in the observed area. This rating is valued at one (1) point, noted as Not Using.

Classroom teachers and other instructional personnel evaluation ratings are based upon the following:

Employee instructional practices as observed and evaluated in the assigned work environment and based on the Florida Educator Accomplished Practices. These include evaluation criteria included in BrIDGES conferences, observation and summative evaluation instruments. The final Instructional Practice Rating is determined in the manner described below in compliance with Florida Statutes. Observed instructional practices are based on the Robert Marzano model and are divided into four domains. Each domain is further divided into key strategies on the summative evaluation form. Below are the domains with the number of key strategies in parentheses:

1. Classroom Strategies and Behaviors (41)
2. Planning and Preparation (8)
3. Reflecting on Teaching (5)
4. Collegiality and Professionalism (6)

Determining Instructional Practice Score for Classroom and Non-Classroom Teachers:

The following four-step process is used to determine an employee instructional practice score.

Step 1: The evaluator rates each of the observed Elements within BrIDGES. There are four domains and a total of sixty elements. In year one, Domain 1: Classroom Strategies and Behaviors will be implemented. Domains 2, 3, and 4 will be implemented in the second year of BrIDGES. The ratings for each element are valued as follows: Innovating – 4, Applying – 3, Developing 2.5, Beginning – 2, and Not Using – 1.

Step 2: The applicable evidence is compiled for each observed Element at each level (Highly Effective, Effective, etc.) for each of the four domains.

Step 3: For each domain, the percentage of the total amount of datamarks is determined as follows:

Domain 1: 68 percent
Domains 2-4: 32 percent

Step 4: Domain 1 will be observed and will receive one rating and Domains 2-4 together will be scored and receive one rating. After weights from Step 3 are applied, the Instructional Practice is scored per the scale below.

<u>Status Score</u>	<u>Rating Scale:</u>
Highly Effective	3.450 – 4.000
Effective	2.500 – 3.449
Needs Improvement	2.000 – 2.499
Unsatisfactory	1.000 – 1.999

All classroom observations and data discussions must be conducted at the end of the evaluation period for all teachers. In an end-of-year interim evaluation conference, the Principal/Designee will meet with each teacher to discuss areas of professional practice for growth and areas to maintain effectiveness. The final Instructional Practice Score is discussed in detail with a full explanation of the rating.

DISTRICT EVALUATION FRAMEWORK

Broward County Public Schools utilizes the Marzano Teacher Evaluation Framework, which has been adopted by the Florida Department of Education (DOE) as its state model. The Marzano Teacher Evaluation Model is based on a number of previous, related works, including What Works in Schools (Marzano, 2003), Classroom Instruction That Works (Marzano, Pickering, & Pollock, 2001) Classroom Management That Works (Marzano, Pickering, & Marzano, 2003), Classroom Assessment and Grading That Work (Marzano, 2006), The Art and Science of Teaching (Marzano, 2007), and Effective Supervision: Supporting the Art and Science of Teaching (Marzano, Frontier, & Livingston, 2011). Each of these works was generated from a synthesis of the research and theory. Thus, the model can be considered an aggregation of the research on those elements that have traditionally been shown to correlate with student academic achievement. The model includes four domains:

- Domain 1: Classroom Strategies and Behaviors
- Domain 2: Preparing and Planning
- Domain 3: Reflecting on Teaching
- Domain 4: Collegiality and Professionalism

The four domains include 60 elements (key strategies): 41 in Domain 1, 8 in Domain 2, 5 in Domain 3, and 6 in Domain 4. The specifics of each domain are outlined below.

In addition to being drawn from previous research, the specific strategies in the model have been validated in experimental/control studies and correlational studies as well as in the context of specific technologies (http://www.marzanoresearch.com/documents/ResearchBaseforMarzano_Model08-24-11.pdf) A defining characteristic of the model is its unique granular approach that allows for specific feedback to teachers and specific guidance to teachers that can be provided by administrators and instructional coaches. Finally, the model is designed to help teachers systematically improve on

weakness in their instructional practices over an extended period of time.

Domain 1: Classroom Strategies and Behaviors

Domain 1 focuses on classroom strategies and behaviors that impact student achievement. Given that forty-one of the sixty elements in the model are from Domain 1, the model clearly emphasizes what occurs in the classroom, which differentiates it from some other teacher evaluation models. The forty-one elements in Domain 1 are divided into three segments:

(1) segments involving routine events, (2) segments addressing content, and (3) segments enacted on the spot.

Domain 1: Segments Involving Routine Events

Design Question: What will I do to establish and communicate learning goals, track student progress, and celebrate success?

Element 1: Providing rigorous learning goals and performance scales (rubrics)

Element 2: Tracking student progress

Element 3: Celebrating success

Design Question: What will I do to establish and maintain classroom rules and procedures?

Element 4: Establishing and maintaining classroom rules and procedures

Element 5: Organizing the physical layout of the classroom

Domain 1: Segments Addressing Content

Design Question: What will I do to help students effectively interact with new knowledge?

Element 6: Identifying critical content

Element 7: Organizing students to interact with new content

Element 8: Previewing new content

Element 9: Chunking content into “digestible bites”

Element 10: Helping students process new content

Element 11: Helping students elaborate on new content

Element 12: Helping students record and represent knowledge

Element 13: Helping students reflect on their learning

Design Question: What will I do to help students practice and deepen their understanding of new knowledge?

Element 14: Reviewing content

Element 15: Organizing students to practice and deepen knowledge

Element 16: Using homework

Element 17: Helping students examine similarities and differences

Element 18: Helping students examine errors in reasoning

Element 19: Helping students practice skills, strategies, and processes

Element 20: Helping students revise knowledge

Design Question: What will I do to help students generate and test hypotheses about new knowledge?

Element 21: Organizing students for cognitively complex tasks

Element 22: Engaging students in cognitively complex tasks involving hypothesis generation and testing

Element 23: Providing resources and guidance for cognitively complex tasks

Domain 1: Segments Enacted on the Spot

Design Question: What will I do to engage students?

Element 24: Noticing when students are not engaged

Element 25: Using academic games

Element 26: Managing response rates

Element 27: Using physical movement

Element 28: Maintaining a lively pace

Element 29: Demonstrating intensity and enthusiasm

Element 30: Using friendly controversy

Element 31: Providing opportunities for students to talk about themselves

Element 32: Presenting unusual or intriguing information

Design Question: What will I do to recognize and acknowledge adherence or lack of adherence to rules and procedures?

Element 33: Demonstrating “withitness”

Element 34: Applying consequences for lack of adherence to rules and procedures

Element 35: Acknowledging adherence to rules and procedures

Design Question: What will I do to establish and maintain effective relationships with students?

Element 36: Understanding students’ interests and backgrounds

Element 37: Using verbal and nonverbal behaviors that indicate affection for students

Element 38: Displaying objectivity and control

Design Question: What will I do to communicate high expectations for all students?

Element 39: Demonstrating value and respect for low-expectancy students

Element 40: Asking questions of low-expectancy students

Element 41: Probing incorrect answers with low-expectancy students

Domain 2: Planning and Preparing

Domain 2 focuses on planning and preparing, both of which are assumed to be directly linked to classroom strategies and behaviors. Careful planning and preparation gives a teacher enough time to incorporate effective classroom strategies and behaviors. The eight elements in Domain 2 are divided into three categories: (1) planning and preparing for lessons and units, (2) planning and preparing for use of materials and technology, and (3) planning and preparing for special needs of students.

Domain 2: Planning and Preparing for Lessons and Units

Element 1: Planning and preparing for effective scaffolding of information within lessons

Element 2: Planning and preparing for lessons within a unit that progress toward a deep understanding and transfer of content

Element 3: Planning and preparing for appropriate attention to established content standards

Domain 2: Planning and Preparing for Use of Materials and Technology

Element 4: Planning and preparing for the use of available materials for upcoming units and lessons

Element 5: Planning and preparing for the use of available technologies such as interactive whiteboards, response systems, and computers

Domain 2: Planning and Preparing for Special Needs of Students

Element 6: Planning and preparing for the needs of English language learners

Element 7: Planning and preparing for the needs of special education students

Element 8: Planning and preparing for the needs of students who come from home environments that offer little support for schooling

Domain 3: Reflecting on Teaching

Domain 3 focuses on teacher self-reflection, a vital metacognitive step in teacher development. The five elements in Domain 3 are divided into two categories: (1) evaluating personal performance and (2) developing and implementing a professional growth plan.

Domain 3: Evaluating Personal Performance

Element 1: Identifying specific areas of pedagogical strength and weakness within Domain 1

Element 2: Evaluating the effectiveness of individual lessons and units

Element 3: Evaluating the effectiveness of specific pedagogical strategies and behaviors across different categories of students

Domain 3: Developing and Implementing a Professional Growth and Development Plan

Element 4: Developing a written growth and development plan

Element 5: Monitoring progress relative to the professional growth and development plan

Domain 4: Collegiality and Professionalism

Domain 4 focuses on teacher collegiality and professional behavior. These behaviors are only indirectly linked to classroom strategies and behaviors; however, they make up the foundational expertise from which the preceding three domains can flourish. The six elements in Domain 4 are divided into three categories: (1) promoting a positive environment, (2) promoting exchange of ideas and strategies, and (3) promoting district and school development.

Domain 4: Promoting a Positive Environment

Element 1: Promoting positive interactions about colleagues

Element 2: Promoting positive interactions about students and parents

Domain 4: Promoting Exchange of Ideas and Strategies

Element 3: Seeking mentorship for areas of need or interest

Element 4: Mentoring other teachers and sharing ideas and strategies

Domain 4: Promoting District and School Development

Element 5: Adhering to district and school rules and procedures

Element 6: Participating in district and school initiatives

As indicated above, Domain 1 contains forty-one elements, Domain 2 contains eight elements, Domain 3 contains five elements, and Domain 4 contains six elements. Teacher status and growth can be assessed in each component of the model in a manner that is consistent with state guidelines.

The following optional chart is provided to display the crosswalk of the district’s evaluation framework to the Educator Accomplished Practices.

Alignment to the Florida Educator Accomplished Practices (FEAPs)	
Practice	Evaluation Indicators
1. Instructional Design and Lesson Planning Applying concepts from human development and learning theories, the effective educator consistently:	
a. Aligns instruction with state-adopted standards at the appropriate level of rigor;	<p><u>2.1 Planning and Preparing for Lessons and Units</u> 2.1.1 Planning and preparing for effective scaffolding within lessons 2.1.2 Planning and preparing for lessons within units that progress toward a deep understanding and transfer of content 2.1.3 Planning and preparing for appropriate attention to established content standards</p> <p><u>2.2 Planning and Preparing for the Use of Materials and Technology</u> 2.2.1 Planning and preparing for the use of available traditional resources for upcoming units and lessons (e.g., manipulatives, video tapes) 2.2.2 Planning for the use of available technology such as interactive white boards, voting technologies and one-to-one computer</p>
b. Sequences lessons and concepts to ensure coherence and required prior knowledge;	<p><u>2.1 Planning and Preparing for Lessons and Units</u> 2.1.1 Planning and preparing for effective scaffolding within lessons 2.1.2 Planning and preparing for lessons within units that progress toward a deep understanding and transfer of content 2.1.3 Planning and preparing for appropriate attention to established content standards</p> <p><u>Routine Events</u> RE 1 Providing rigorous learning goals and performance scales RE 2 Tracking student progress RE 3 Celebrating Success</p>
c. Designs instruction for students to achieve mastery;	<p><u>2.2 Planning and Preparing for Use of Materials and Technology</u> 2.2.1 Planning and preparing for the use of available traditional resources for upcoming units and lessons (e.g., manipulatives, video tapes) 2.2.2 Planning for the use of available technology such as interactive white boards, voting technologies and one-to-one computer</p> <p><u>Planning and Preparing for Special Needs Students</u> 2.3.1 Planning and preparing for the needs of English language learners 2.3.2 Planning and preparing for the needs of special education students 2.3.3 Planning and preparing for the needs of students who come from home environments that offer little support for schooling</p> <p><u>Content</u> C 2 Organizing to interact with new content C 10 Organizing students to practice and deepen knowledge C 16 Organizing students for cognitively complex tasks</p>
d. Selects appropriate formative assessments to monitor learning;	<p><u>Routine Events</u> RE 1 Providing rigorous learning goals and performance scales RE 2 Tracking student progress RE 3 Celebrating Success</p>
e. Uses diagnostic student data to plan lessons; and,	<p><u>2.3 Planning and Preparing for Special Needs Students</u> 2.3.1 Planning and preparing for the needs of English language learners 2.3.2 Planning and preparing for the needs of special education students 2.3.3 Planning and preparing for the needs of students who come from environments that offer little support for schooling</p> <p><u>Content</u> C 11 Homework</p> <p><u>Enacted on the Spot</u> EOS 16 Demonstrating value and respect for low expectancy students</p> <p><u>3.1 Evaluating Personal Performance</u> 3.1.1 Identifying specific areas of pedagogical strength and weakness 3.1.2 Evaluating the effectiveness of individual lessons and units 3.1.3 Evaluating the effectiveness of specific pedagogical strategies and behaviors across different categories of students (i.e., different socio-economic groups, different ethnic groups)</p> <p><u>3.2 Developing a Growth Plan</u> 3.2.1 Developing a written growth plan 3.2.2 Monitoring progress relative to the professional growth plan</p> <p><u>4.1 Promoting a Positive Environment</u> 4.1.1 Promoting positive interaction with colleagues</p>

	<p>4.1.2 Promoting positive interactions with students and parents</p> <p>4.2 Promoting Exchange of Ideas and Strategies 4.2.1 Seeking mentorship for areas of need and interest 4.2.2 Mentoring other teachers and sharing ideas and strategies</p> <p>4.3 Promoting District and School Development 4.3.1 Adhering to district and school rules and procedures 4.3.2 Participating in district and school initiatives</p>
f. Develops learning experiences that require students to demonstrate a variety of applicable skills and competencies.	<p>2.2 Planning and Preparing for the Use of Materials and Technology 2.2.1 Planning and preparing for the use of available traditional resources for upcoming units and lessons (e.g., manipulatives, video tapes) 2.2.2 Planning for the use of available technology such as interactive white boards, voting technologies and one-to-one computer</p> <p>2.3 Planning and Preparing for Special Needs Students 2.3.1 Planning and preparing for the needs of English language learners 2.3.2 Planning and preparing for the needs of special education students 2.3.3 Planning and preparing for the needs of students who come from home environments that offer little support for schooling</p> <p>Content C 2 Organizing students to interact with new content C 10 Organizing students to practice and deepen knowledge C 16 Organizing students for cognitively complex tasks</p>
<p>2. The Learning Environment</p> <p>To maintain a student-centered learning environment that is safe, organized, equitable, flexible, inclusive, and collaborative, the effective educator consistently:</p>	
a. Organizes, allocates, and manages the resources of time, space, and attention;	<p>2.1 Planning and Preparing for Lessons and Units 2.1.1 Planning and preparing for effective scaffolding within lessons 2.1.2 Planning and preparing for lessons within units that progress toward a deep understanding and transfer of content 2.1.3 Planning and preparing for appropriate attention to established content standards</p> <p>2.3 Planning and Preparing or Special Needs Students 2.3.1 Planning and preparing for the needs of English language learners 2.3.2 Planning and preparing for the needs of special education students 2.3.3 Planning and preparing for the needs of students who come from home environments that offer little support for schooling</p> <p>Routine Events RE 4 Established classroom rules and procedures RE 5 Organizing the physical layout of the classroom</p> <p>Enacted on the Spot EOS 13 Understanding students' interest and backgrounds EOS 10 Demonstrating "withitness" EOS 15 Displaying objectivity and control</p>
b. Manages individual and class behaviors through a well-planned management system;	<p>Routine Events RE 4 Establishing classroom rules and procedures RE 5 Organizing the physical layout of the classroom</p> <p>Enacted on the Spot EOS 1 Noticing when students are not engaged EOS 10 Demonstrating "withitness" EOS 11 Applying consequences for the lack of adherence to rules and procedures EOS 12 Acknowledging adherence to rules and procedures EOS 15 Revising knowledge</p>
c. Conveys high expectations to all students;	<p>Routine Events RE 2 Tracking student progress RE 3 Celebrating success</p> <p>Content CI Identifying critical content</p> <p>Enacted on the Spot EOS 6 Demonstrating intensity and enthusiasm EOS 16 Demonstrating value and respect for low expectancy students EOS 17 Asking questions of low expectancy students EOS 18 Probing incorrect answers with low expectancy students</p>
d. Respects students' cultural linguistic and family background;	<p>Routine Events RE 2 Tracking student progress RE 3 Celebrating success</p>

	<p><u>Content</u> C 1 Identifying critical content</p> <p><u>Enacted on the Spot</u> EOS 6 Demonstrating intensity and enthusiasm EOS 14 Using verbal and nonverbal behaviors that indicate affection for students EOS 16 Demonstrating value and respect for low expectancy students EOS 17 Asking questions of low expectancy students EOS 18 Probing incorrect answers with low expectancy students</p>
e. Models clear, acceptable oral and written communication skills;	<p><u>2.1 Planning and Preparing for Lessons and Units</u> 2.1.2 Planning and preparing for lessons within units that progress toward a deep understanding and transfer of content</p> <p><u>Routine Events</u> RE 1 Providing rigorous learning goals and performance scales RE 2 Tracking student progress RE 4 Establishing classroom rules and procedures</p> <p><u>Content</u> C 1 Identifying critical content C 3 Previewing new content C 4 Chunking content into “digestible bites”</p> <p><u>Enacted on the Spot</u> EOS 10 Demonstrating “withitness” EOS 11 Applying consequences for lack of adherence to rules and procedures EOS 12 Acknowledging adherence to rules and procedures</p>
f. Maintains a climate of openness, inquiry, fairness and support;	<p><u>Routine Events</u> RE 1 Providing rigorous learning goals and performance scales RE 2 Tracking student progress RE 3 Celebrating success</p> <p><u>Content</u> C 1 Identifying critical content</p> <p><u>Enacted on the Spot</u> EOS 6 Demonstrating intensity and enthusiasm EOS 14 Using verbal and nonverbal behavior that indicate affection for students EOS 16 Demonstrating value and respect for low expectancy students EOS 17 Asking questions of low expectancy students OS 18 Probing incorrect answers with low expectancy students</p>
g. Integrates current information and communication technologies;	<p><u>2.2 Planning and Preparing for the Use of Materials and Technology</u> 2.2.1 Planning and preparing for the use of available traditional resources for upcoming units and lessons (e.g., manipulatives, video tapes) 2.2.2 Planning for the use of available technology such as interactive white boards, voting technologies and one-to-one computer</p>
h. Adapts the learning environment to accommodate the differing needs and diversity of students; and	<p><u>2.1. Planning and Preparing for Lessons and Units</u> 2.1.1 Planning and preparing for effective scaffolding within lessons 2.1.2 Planning and preparing for lessons within units that progress toward a deep understanding and transfer of content 2.1.3 Planning and preparing for appropriate attention to established content standards</p> <p><u>Routine Events</u> RE 1 Providing rigorous learning goals and performance scales RE 2 Tracking student progress RE 3 Celebrating success RE 4 Establishing classroom rules and procedures RE 5 Organizing the physical layout of the classroom</p> <p><u>4.2. Promoting Exchange of Ideas and Strategies</u> 4.2.2 Mentoring other teachers and sharing ideas and strategies</p> <p><u>Content</u> C 1 Identifying critical content C 2 Organizing students to interact with new content C 10 Organizing students to practice and deep new knowledge C 16 Organizing students for cognitively complex tasks</p> <p><u>2.3 Planning and Preparing for Special Needs Students</u> 2.3.1 Planning and preparing for the needs of English language learners 2.3.2 Planning and preparing for the needs of special education students 2.3.3 Planning and preparing for the needs of students who come from home environments that offer little support for schooling</p> <p><u>Enacted on the Spot</u></p>

	<p>EOS 1 Noticing when students are not engaged EOS 5 Maintaining a lively pace EOS 6 Demonstrating intensity and enthusiasm EOS 10 Demonstrating “withitness” EOS 11 Applying consequences for lack of adherence to rules and procedures EOS 12 Acknowledging adherence to rules and procedures EOS 13 Understanding students’ interests and backgrounds EOS 14 Using verbal and nonverbal behaviors that indicate affection for students EOS 15 Displaying objectivity and control EOS 16 Demonstrating value and respect for low expectancy students EOS 17 Asking questions of low expectancy students EOS 18 Probing incorrect answers with low expectancy students</p>
<h3>3. Instructional Delivery and Facilitation</h3> <p>The effective educator consistently utilizes a deep and comprehensive knowledge of the subject taught to:</p>	
a. Deliver engaging and challenging lessons;	<p>2.1 Planning and Preparing for Lessons and Units 2.1.1 Planning and preparing for effective scaffolding within lesson 2.1.2 Planning and preparing for lessons within units that progress towards a deep understanding and transfer of content</p> <p>2.2 Planning and Preparing for the Use of Materials and Technology 2.2.1 Planning and preparing for the use of available traditional resources for upcoming units and lessons (e.g., manipulatives, video tapes) 2.2.2 Planning for the use of available technology such as interactive white boards, voting technologies and one-to-one computer</p> <p>2.3 Planning and Preparing for Special Needs Students 2.3.1 Planning and preparing for the needs of English language learners 2.3.2 Planning and preparing for the needs of special education students 2.3.3 Planning and preparing for the needs of students who come from home environments that offer little support for schooling</p>
b. Implements knowledge and skills learned in professional development in the teaching and learning process.</p>	<p>RE 3 Celebrating Success</p> <p>Content C 11 Homework</p> <p>Enacted on the Spot EOS 16 Demonstrating value and respect for low expectancy students EOS 17 Asking questions of low expectancy students</p> <p>3.1 Evaluating Personal Performance 3.1.1 Identifying specific areas of pedagogical strength and weakness 3.1.2 Evaluating the effectiveness of individual lessons and units 3.1.3 Evaluating the effectiveness of specific pedagogical strategies and behaviors across different categories of students (i.e., different socio-economic groups, different ethnic groups)</p> <p>3.2 Developing a Professional Growth Plan 3.2.1 Developing a written growth plan 3.2.2 Monitoring progress relative to the professional growth plan</p> <p>4.1 Promoting a Positive Environment 4.1.1 Promoting positive interactions with colleagues 4.1.2 Promoting positive interactions with students and parents</p> <p>4.2 Promoting Exchange of Ideas and Strategies 4.2.1 Seeking mentorship for areas of need and interest 4.2.2 Mentoring other teachers and sharing ideas and strategies</p> <p>4.3 Promoting District and School Development 4.3.1 Adhering to district and school rules and procedures 4.3.2 Participating in district and school initiative</p>
6. Professional Responsibility and Ethical Conduct	
<p>Understanding that educators are held to a high moral standard in a community, the effective educator adheres to the Code of Ethics and the Principles of Professional Conduct of the Education Profession of Florida, pursuant to Rules 6A-10.080 and 6A-10.081, F.A.C., and fulfills the expected obligations to students, the public and the education profession.</p>	<p>Enacted on the Spot EOS 16 Demonstrating value and respect for low expectancy students EOS 17 Asking questions of low expectancy students</p> <p>4.1 Promoting a Positive Environment 4.1.1 Promoting positive interactions with colleagues 4.1.2 Promoting positive interactions with students and parents</p> <p>4.3 Promoting District and School Development 4.3.1 Adhering to district and school rules and procedures 4.3.2 Participating in district and school initiative</p>

BRIDGES PROCEDURES FOR CLASSROOM AND NON-CLASSROOM TEACHERS

Required Evaluations

Evaluations will be conducted by the credentialed observer who supervises the employee to include principal, director, and his/her designee (assistant principal and supervisor). Input into the evaluation may also be provided from credentialed district staff.

Data Collection

The following techniques are used to gather data on employee performance. Evaluators use multiple techniques to understand actual performance and develop performance ratings.

Observations: A variety of classroom observation techniques based on Dr. Robert Marzano's system are incorporated into the instrument. Although the principal, designee, or other trained evaluator typically initiates observations, the employee may request additional observations.

Informal classroom observations: Informal observations are made periodically by the principal, designee, or other credentialed evaluator. Such observations may be announced or unannounced and are 11-29 minutes in duration.

Formal classroom observations: Formal observations are initiated by the principal, designee, or other credentialed evaluator. These are not less than 30 minutes in duration. Formal observations may be announced or unannounced. Notice of the first formal observation is provided.

Walkthrough Observations: Walkthrough observations may be announced or unannounced. Such observations are 3-10 minutes in duration. The purpose of all observation types is to allow trained evaluators to gather information regarding instructional practices and behaviors on a regular basis.

Meetings: A variety of meetings, based on Dr. Robert Marzano's system, are incorporated into the instrument.

Pre-Conference: One pre-conference must be offered to every classroom teacher, prior to the first formal observation. For probationary teachers, it is a face-to-face pre-conference. For experienced teachers, the teacher may complete Pre-Conference Form A or B, or may request a face-to-face pre-conference.

Post-Conference: A post-conference is required after every formal observation within ten workdays.

Meetings: For non-classroom teachers, that are not able to be observed in a teaching capacity, administrators may hold meetings in order to rate the employee on his/her practices.

Meeting Reviews for Non-Classroom Probationary Teachers

Probationary teachers will receive a minimum of two meeting/observation reviews. Student performance data will be discussed/shared as a regular part of the review process. Types of student performance data that may be included in the data discussions are Benchmark Assessment Tests (BAT), mini-BATs, DAR, STAR, Accelerated Reader, FAIR, as well as other appropriate assessments of student performance as they are developed and implemented. Either a site-based administrator or designee will conduct

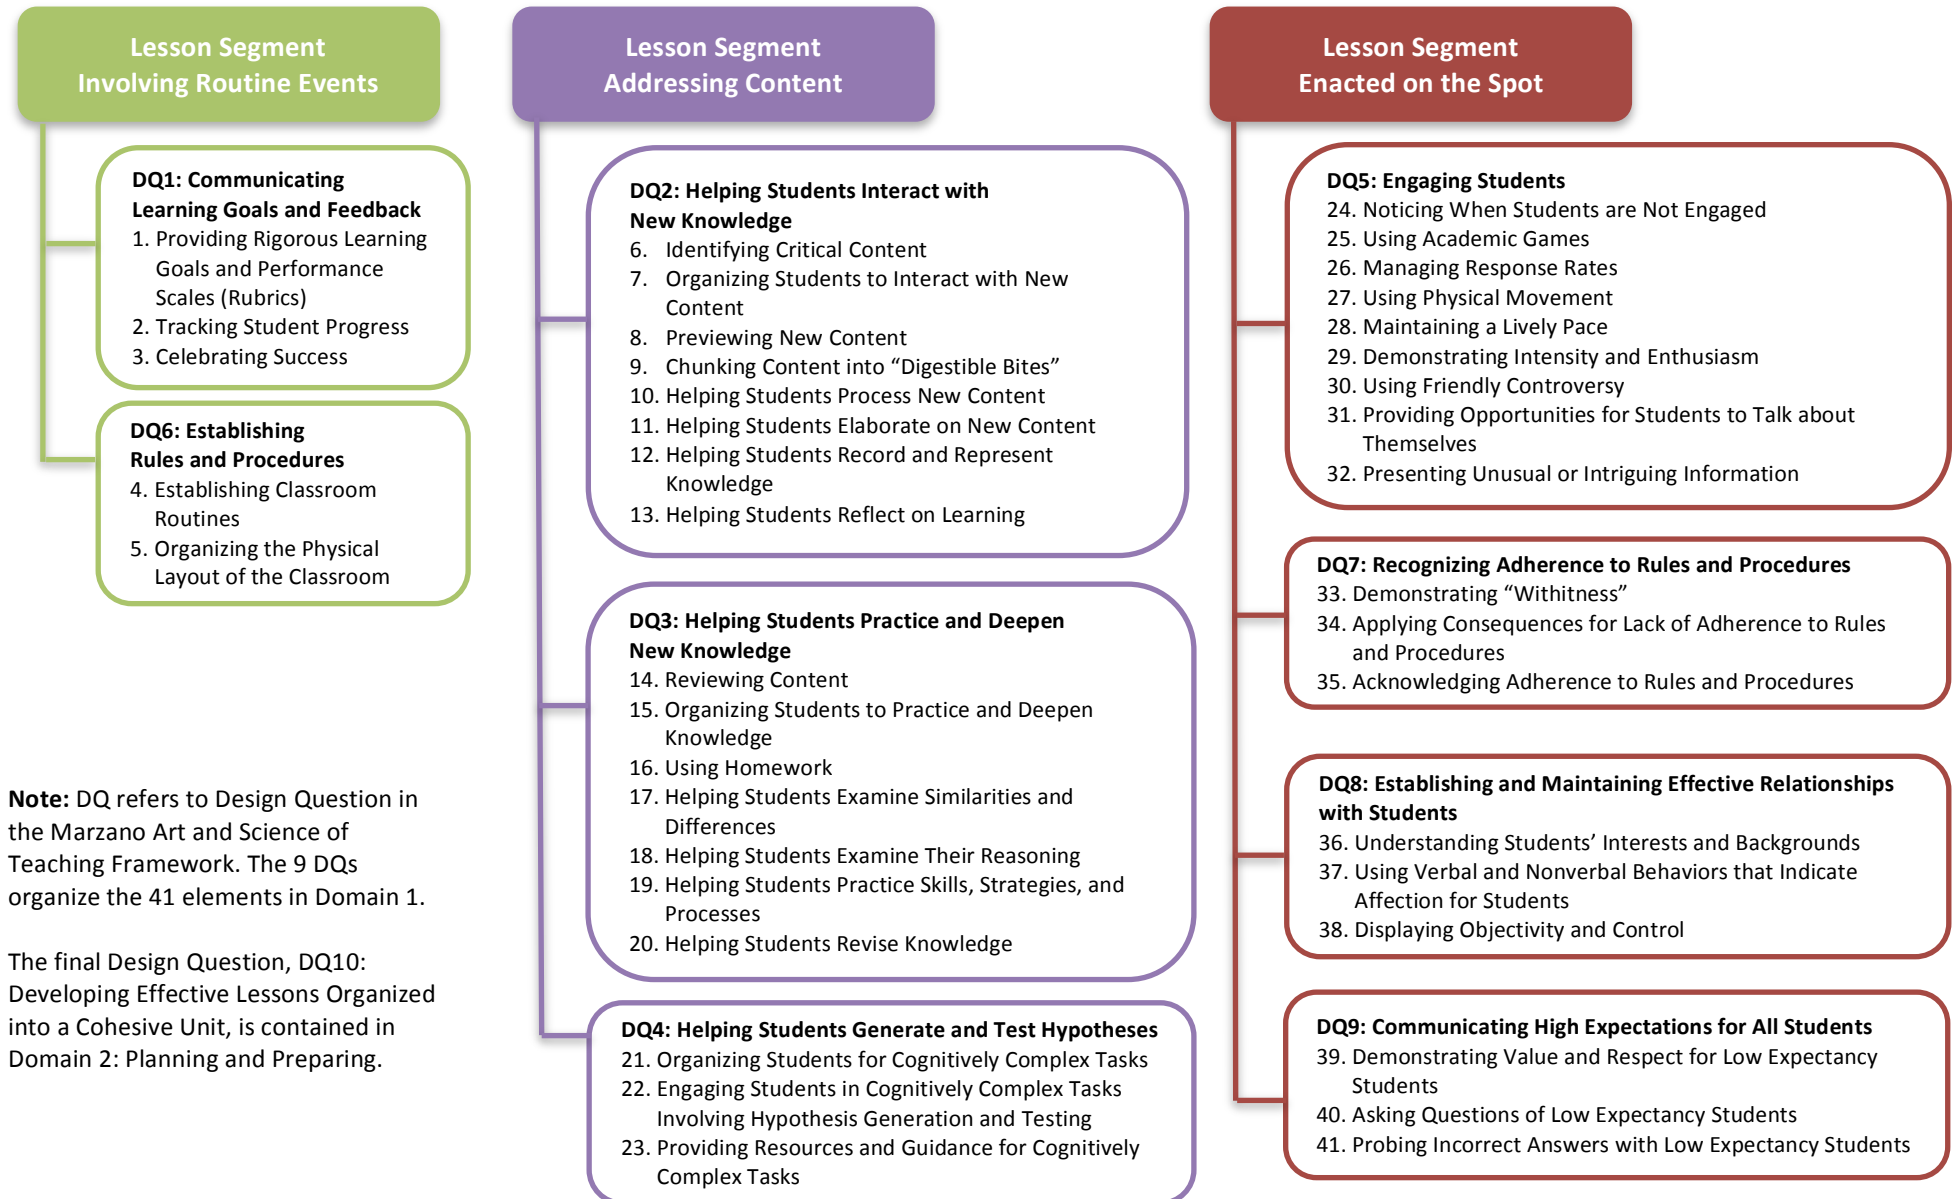

data reviews. Probationary teachers will receive feedback on their performance during each meeting review.

Meeting Reviews for Non-Classroom Teachers

Non-Classroom teachers will receive a minimum of two meeting and/or observation reviews. Student performance data will be discussed/shared as a regular part of the review process. Types of student performance data that may be included in the data discussions are Benchmark Assessment Tests (BAT), mini-BATs, DAR, STAR, Accelerated Reader, FAIR, as well as other appropriate assessments of student performance as they are developed and implemented. Teachers are required to receive feedback during each meeting review.

Domain 1: Classroom Strategies and Behaviors

Domain 1 is based on the Art and Science of Teaching Framework and identifies the 41 elements or instructional categories that happen in the classroom. The 41 instructional categories are organized into 9 Design Questions (DQs) and further grouped into 3 Lesson Segments to define the Observation and Feedback Protocol.

Note: DQ refers to Design Question in the Marzano Art and Science of Teaching Framework. The 9 DQs organize the 41 elements in Domain 1.

The final Design Question, DQ10: Developing Effective Lessons Organized into a Cohesive Unit, is contained in Domain 2: Planning and Preparing.

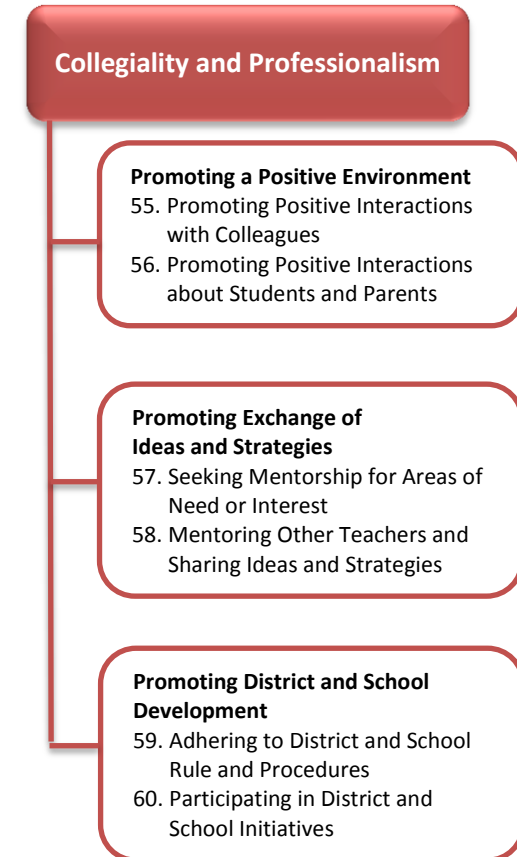

Domain 2: Planning and Preparing

Domain 3: Reflecting on Teaching

Domain 4: Collegiality and Professionalism

Marzano Protocol: Lesson Segment Involving Routine Events

Design Question #1: What will I do to establish and communicate learning goals, track student progress, and celebrate success?

1. Providing Rigorous Learning Goals and Performance Scales (Rubrics)

The teacher provides rigorous learning goals and/or targets, both of which are embedded in a performance scale that includes application of knowledge.

Example Teacher Evidence

- Teacher has a learning goal and/or target posted for student reference
- The learning goal or target clearly identifies knowledge or processes aligned to the rigor of required standards
- Teacher makes reference to the learning goal or target throughout the lesson
- Teacher has a scale that builds a progression of knowledge from simple to complex
- Teacher relates classroom activities to the scale throughout the lesson
- Teacher has goals or targets at the appropriate level of rigor
- Performance scales include application of knowledge

Example Student Evidence

- Students can explain the learning goal or target for the lesson
- Students can explain how their current activities relate to the learning goal or target
- Students can explain the levels of performance, from simple to complex, in the scale
- Student artifacts demonstrate students know the learning goal or target
- Student artifacts demonstrate students can identify a progression of knowledge

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Providing rigorous learning goals and performance scales (rubrics)	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Provides rigorous learning goals and performance scales or rubrics that describe levels of performance.	Provides rigorous learning goals and performance scales or rubrics and monitors the extent to which students understand the learning goal and/or targets and levels of performance.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Providing rigorous learning goals and performance scales (rubrics)	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you provide a rigorous learning goal accompanied by a performance scale or rubric that describes levels of performance?	In addition to providing a rigorous learning goal accompanied by a performance scale or rubric that describes levels of performance, how can you monitor the extent to which students understand the learning goal and/or targets and the levels of performance?	How might you adapt and create new strategies for providing rigorous learning goals and/or targets and performance scales or rubrics that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

2. Tracking Student Progress

The teacher facilitates tracking of student progress on one or more learning goals and/or targets using a formative approach to assessment.

Example Teacher Evidence

- Teacher helps students track their individual progress on the learning goal or target
- Teacher uses formal and informal means to assign scores to students on the scale or rubric depicting student status on the learning goal
- Teacher uses formative data to chart progress of individual and entire class progress on the learning goal

Example Student Evidence

- Students can describe their status relative to the learning goal using the scale or rubric
- Students systematically update their status on the learning goal
- Students take some responsibility for providing evidence in reference to their progress on the scale
- Artifacts and data support that students are making progress toward a learning goal

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Tracking student progress	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Facilitates tracking of student progress towards learning goals and/or targets using a formative approach to assessment.	Facilitates tracking of student progress towards learning goals and/or targets using a formative approach to assessment and monitors the extent to which students understand their level of performance.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Tracking student progress	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you facilitate tracking of student progress using a formative approach to assessment?	In addition to facilitating tracking of student progress using a formative approach to assessment, how can you monitor the extent to which students understand their level of performance?	How might you adapt and create new strategies for facilitating tracking of student progress using a formative approach to assessment that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

3. Celebrating Success

The teacher provides students with recognition of their current status and their knowledge gain relative to the learning goal or target.

Example Teacher Evidence

- Teacher acknowledges students who have achieved a certain score on the scale or rubric
- Teacher acknowledges students who have made gains in their knowledge and skill relative to the learning goal
- Teacher acknowledges and celebrates the final status and progress of the entire class
- Teacher uses a variety of ways to celebrate success
 - Show of hands
 - Certification of success
 - Parent notification
 - Round of applause
 - Academic praise

Example Student Evidence

- Students show signs of pride regarding their accomplishments in the class
- Students take some responsibility for celebrating their individual status and that of the whole class
- Student surveys indicate they want to continue making progress

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Celebrating success	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Provides students with recognition of their current status and their knowledge gain relative to the learning goal.	Provides students with recognition of their current status and their knowledge gain relative to the learning goal and monitors the extent to which students are motivated to enhance their status.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Celebrating success	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you provide students with recognition of their current status and their knowledge gain relative to the learning goal?	In addition to providing students with recognition of their current status and their knowledge gain relative to the learning goal, how can you monitor the extent to which students are motivated to enhance their status?	How might you adapt and create new strategies for providing students with recognition of their current status and their knowledge gain relative to the learning goal that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- What learning goal did today's lesson focus on?
- How well are you doing on that learning goal?
- Describe the different levels you can be at on the learning goal or target.

Design Question #6: What will I do to establish and maintain classroom rules and procedures?

4. Establishing Classroom Routines

The teacher establishes expectations regarding rules and procedures that facilitate students working individually, in groups, and as a whole class.

Example Teacher Evidence

- Teacher involves students in designing classroom routines and procedures
- Teacher actively teaches student self-regulation strategies
- Teacher uses classroom meetings to review and process rules and procedures
- Teacher reminds students of rules and procedures
- Teacher asks students to restate or explain rules and procedures
- Teacher provides cues or signals when a rule or procedure should be used
- Teacher focuses on procedures for students working individually or in small groups

Example Student Evidence

- Students follow clear routines during class
- Students describe established rules and procedures
- Students describe the classroom as an orderly place
- Students recognize cues and signals by the teacher
- Students regulate their behavior while working individually
- Students regulate their behavior while working in groups

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Establishing classroom routines	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Establishes expectations regarding rules and procedures.	Establishes expectations regarding rules and procedures and monitors the extent to which students understand rules and procedures.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Establishing classroom routines	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you begin to establish expectations regarding rules and procedures?	In addition to establishing expectations regarding rules and procedures, how can you monitor the extent to which students understand the rules and procedures?	How might you adapt and create strategies for establishing expectations, rules, and procedures that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

5. Organizing the Physical Layout of the Classroom

The teacher organizes the physical layout of the classroom to facilitate movement and support learning.

Example Teacher Evidence

- The physical layout of the classroom has clear traffic patterns
- The physical layout of the classroom is designed to support long-term projects by individual students or groups of students
- The physical layout of the classroom provides easy access to materials and centers
- The classroom is decorated in a way that enhances student learning
 - Bulletin boards relate to current content (e.g., word walls)
 - Student work is displayed

Example Student Evidence

- Students move easily about the classroom
- Individual students or groups of students have easy access to materials that make use of long-term projects
- Students make use of materials and learning centers
- Students can easily focus on instruction
- Students can easily access technology
- Transition time is minimized due to layout of classroom

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Organizing the physical layout of the classroom	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Organizes the physical layout of the classroom to facilitate movement and support learning.	Organizes the physical layout of the classroom to facilitate movement and support learning and monitors the extent to which students have easy access to materials in an environment that supports learning.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Organizing the physical layout of the classroom	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you organize the physical layout of the classroom to facilitate movement and support learning?	In addition to organizing the physical layout of the classroom to facilitate movement and support learning, how can you monitor that students have easy access to materials in an environment that supports learning?	How might you adapt and create new strategies for organizing the physical layout of the classroom to facilitate movement and support learning that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- What are the regular rules and procedures you are expected to follow in class?
- How well do you do at following the rules and procedures and why?

Marzano Protocol: Lesson Segment Addressing Content

Design Question #2: What will I do to help students effectively interact with new knowledge?

6. Identifying Critical Content

The teacher continuously identifies accurate critical content during a lesson or part of a lesson that portrays a clear progression of information that leads to deeper understanding of the content.

Example Teacher Evidence

- Teacher highlights critical content that portrays a clear progression of information related to standards or goals
- Teacher identifies differences between the critical and non-critical content
- Teacher continuously calls students' attention to accurate critical content
- Teacher integrates cross-curricular connections to critical content

Example Student Evidence

- Students can describe the level of importance of the critical content addressed in class
- Students can identify the critical content addressed in class
- Students can explain the difference between critical and non-critical content
- Formative data show students attend to the critical content (e.g., questioning, artifacts)
- Students can explain the progression of critical content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Identifying critical content	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Signals to students critical versus non-critical content and portrays a clear progression of information.	Signals to students critical versus non-critical content and portrays a clear progression of information and monitors the extent to which students are attending to critical versus non-critical content.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Identifying critical content	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you signal to students critical versus non-critical content and portray a clear progression of information?	In addition to signaling to students critical versus non-critical content and portraying a clear progression of information, how might you monitor the extent to which students attend to critical content?	How might you adapt and create new strategies for identifying critical content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

7. Organizing Students to Interact with New Content

The teacher organizes students into appropriate groups to facilitate the processing of new content.

Example Teacher Evidence

- Teacher has established routines for student grouping and student interaction for the expressed purpose of processing new content
- Teacher provides guidance on one or more conative skills
 - Becoming aware of the power of interpretations
 - Avoiding negative thinking
 - Taking various perspectives
 - Interacting responsibly
 - Handling controversy and conflict resolution
- Teacher organizes students into ad hoc groups for the lesson
- Teacher provides guidance on one or more cognitive skills appropriate for the lesson

Example Student Evidence

- Students move and work within groups with an organized purpose
- Students have an awareness of the power of interpretations
- Students avoid negative thinking
- Students take various perspectives
- Students interact responsibly
- Students appear to know how to handle controversy and conflict resolution
- Students actively ask and answer questions about the content
- Students add their perspectives to discussions
- Students attend to the cognitive skill(s)

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Organizing students to interact with new content	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Organizes students into appropriate groups to facilitate the processing of new content.	Organizes students into appropriate groups to facilitate the processing of new content and monitors the extent to which groups process.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Organizing students to interact with new content	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you organize students into small groups to facilitate the processing of new content?	In addition to organizing students into small groups to facilitate the processing of new content, how can you monitor the extent to which groups process?	How might you adapt and create new strategies for organizing students to interact with new content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

8. Previewing New Content

The teacher engages students in previewing activities that require students to access prior knowledge and analyze new content.

Example Teacher Evidence

- Teacher facilitates identification of the basic relationship between prior ideas and new content
- Teacher uses preview questions before reading
- Teacher uses K-W-L strategy or variation of it
- Teacher provides an advanced organizer
 - Outline
 - Graphic organizer
- Teacher has students brainstorm
- Teacher uses anticipation guide
- Teacher uses motivational hook/launching activity
 - Anecdote
 - Short multimedia selection
 - Simulation/demonstration
 - Manipulatives
- Teacher uses digital resources to help students make linkages
- Teacher uses strategies associated with a flipped classroom

Example Student Evidence

- Students can identify basic relationships between prior content and upcoming content
- Students can explain linkages with prior knowledge
- Students make predictions about upcoming content
- Students can provide a purpose for what they are about to learn
- Students cognitively engage in previewing activities
- Students can explain how prior standards or goals link to the new content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Previewing new content	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in previewing activities that require students to access prior knowledge and analyze new content.	Engages students in previewing activities that require students to access prior knowledge and analyze new content and monitors the extent to which students access prior knowledge and analyze new content.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Previewing new content	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in previewing activities that require them to access prior knowledge and analyze new content?	In addition to engaging students in previewing activities that require students to access prior knowledge and analyze new content, how can you also monitor the extent to which students are accessing prior knowledge and analyze new content?	How might you adapt and create new strategies for previewing new content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

9. Chunking Content into “Digestible Bites”

Based on student evidence, the teacher breaks the content into small chunks (i.e., digestible bites) of information that can be easily processed by students to generate a clear conclusion.

Example Teacher Evidence

- During a verbal presentation, the teacher stops at strategic points
- While utilizing multi-media, the teacher stops at strategic points
- While providing a demonstration, the teacher stops at strategic points
- While students are reading information or stories orally as a class, the teacher stops at strategic points
- Teacher uses appropriate questioning to determine if content chunks are appropriate
- Teacher uses formative data to break content into appropriate chunks

Example Student Evidence

- Students can explain why the teacher is stopping at various points
- Students appear to know what is expected of them when the teacher stops at strategic points
- Students can explain clear conclusions about chunks of content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Chunking content into “digestible bites”	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Breaks input experiences into small chunks based on student needs.	Breaks input experiences into small chunks based on student needs and monitors the extent to which chunks are appropriate.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Chunking content into “digestible bites”	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you break input experiences into small chunks based on student needs?	In addition to breaking input experiences into small chunks based on student needs, how can you also monitor the extent to which chunks are appropriate?	How might you adapt and create new strategies for chunking content into digestible bites that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

10. Helping Students Process New Content

The teacher systematically engages student groups in processing and generating conclusions about new content.

Example Teacher Evidence

- Teacher employs formal group processing strategies
 - Jigsaw
 - Reciprocal teaching
 - Concept attainment
- Teacher uses informal strategies to engage group members in actively processing
 - Predictions
 - Associations
 - Paraphrasing
 - Verbal summarizing
 - Questioning
- Teacher facilitates group members in generating conclusions

Example Student Evidence

- Students can explain what they have just learned
- Students volunteer predictions
- Students voluntarily ask clarification questions
- Groups are actively discussing the content
 - Group members ask each other and answer questions about the information
 - Group members make predictions about what they expect next
- Students generate conclusions about the new content
- Students can verbally summarize or restate the new information

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students process new content	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages student groups in processing new content to generate conclusions.	Engages student groups in processing new content to generate conclusions and monitors the extent to which the processing enhances student understanding.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students process new content	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage student groups in processing new content?	In addition to engaging student groups in processing new content, how can you monitor the extent to which the processing enhances student understanding?	How might you adapt and create new strategies for processing new content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

11. Helping Students Elaborate on New Content

The teacher asks questions that require inferences about the new content but also requires students to provide evidence for their inferences.

Example Teacher Evidence

- Teacher asks questions that require students to make elaborative inferences about the content
- Teacher asks students to provide evidences for their inferences
- Teacher presents situations or problems that involve students analyzing how one idea relates to ideas that were not explicitly taught

Example Student Evidence

- Students volunteer answers to inferential questions
- Students provide evidence for their inferences
- Student artifacts demonstrate students can make elaborative inferences
- Students can identify basic relationships between ideas and how one idea relates to others

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students elaborate on new content	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in answering inferential questions and providing evidence for their inferences.	Engages students in answering inferential questions and providing evidence for their inferences and monitors the extent to which students elaborate and provide evidence on what was explicitly taught.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students elaborate on new content	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in answering inferential questions and providing evidence for their inferences?	In addition to engaging students in answering inferential questions and providing evidence for their inferences, how can you monitor the extent to which students elaborate and provide evidence on what was explicitly taught?	How might you adapt and create new strategies for elaborating on new content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

12. Helping Students Record and Represent Knowledge

The teacher engages students in activities that require recording and representing knowledge emphasizing creation of a variety of types of models that organize and summarize the important content.

Example Teacher Evidence

- Teacher asks students to summarize the information they have learned
- Teacher asks students to generate notes that identify critical information in the content
- Teacher asks students to create nonlinguistic representations for new content
 - Graphic organizers
 - Pictures
 - Pictographs
 - Flow charts
- Teacher asks students to represent new knowledge through various types of models
 - Mathematical
 - Visual
 - Linguistic (e.g., mnemonics)
- Teacher facilitates generating and manipulating images of new content

Example Student Evidence

- Student summaries and notes include critical content
- Student nonlinguistic representations include critical content
- Student models and other artifacts represent critical content
- Students can explain main points of the lesson
- Student explanations of mental images represent critical content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students record and represent knowledge	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in activities that help them record and represent their knowledge in understanding of important content using a variety of models.	Engages students in activities that help them record and represent their knowledge in understanding of important content using a variety of models and monitors the extent to which students organize and summarize the important content.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students record and represent knowledge	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in activities that help them record and represent their knowledge in understanding of important content using a variety of models?	In addition to engaging students in activities that help them record and represent their knowledge in understanding of important content using a variety of models, how can you monitor the extent to which students organize and summarize important content?	How might you adapt and create new strategies for recording and representing knowledge that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

13. Helping Students Reflect on Learning

The teacher engages students in activities that help them reflect on their learning and the learning process.

Example Teacher Evidence

- Teacher asks students to state or record what they are clear about and what they are confused about
- Teacher asks students to state or record how hard they tried
- Teacher asks students to state or record what they might have done to enhance their learning
- Teacher utilizes reflection activities to cultivate a growth mindset
- Teacher utilizes reflection activities to cultivate resiliency
- Teacher utilizes reflection activities to avoid negative thinking
- Teacher utilizes reflection activities to examine logic of learning and the learning process

Example Student Evidence

- Students can explain what they are clear about and what they are confused about
- Students can describe how hard they tried
- Students can explain what they could have done to enhance their learning
- Student actions and reflections display a growth mindset
- Student actions and reflections display resiliency
- Student actions and reflections avoid negative thinking
- Student reflections involve examining logic of learning and the learning process

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students reflect on learning	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in reflecting on their own learning and the learning process.	Engages students in reflecting on their own learning and the learning process and monitors the extent to which students self-assess their understanding and effort.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students reflect on learning	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in reflecting on their own learning and the learning process?	In addition to engaging students in reflecting on their own learning and the learning process, how can you monitor the extent to which students self-assess their understanding and effort?	How might you adapt and create new strategies for reflecting on learning that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- Why is the information that you are learning today important?
- How do you know what things are most important to pay attention to?
- What are the main points of this lesson?

Design Question #3: What will I do to help students practice and deepen new knowledge?

14. Reviewing Content
The teacher engages students in a brief review of content that highlights the cumulative nature of the content.
<p>Example Teacher Evidence</p> <ul style="list-style-type: none"> <input type="checkbox"/> Teacher begins the lesson with a brief review of content <input type="checkbox"/> Teacher systematically emphasizes the cumulative nature of the content <input type="checkbox"/> Teacher uses specific strategies to help students identify basic relationships between ideas and consciously analyze how one idea relates to another <ul style="list-style-type: none"> • Summary • Problem that must be solved using previous information • Questions that require a review of content • Demonstration • Brief practice test or exercise • Warm-up activity
<p>Example Student Evidence</p> <ul style="list-style-type: none"> <input type="checkbox"/> Students identify basic relationships between current and prior ideas and consciously analyze how one idea relates to another <input type="checkbox"/> Students can articulate the cumulative nature of the content <input type="checkbox"/> Student responses to class activities indicate that they recall previous content <ul style="list-style-type: none"> • Artifacts • Pretests • Warm-up activities

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Reviewing content	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in a brief review that highlights the cumulative nature of the content.	Engages students in a brief review that highlights the cumulative nature of the content and monitors the extent to which students can recall critical content.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Reviewing content	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in a brief review of content that highlights the cumulative nature of the content?	In addition to engaging students in a brief review that highlights the cumulative nature of the content, how can you monitor the extent to which students can recall critical content?	How might you adapt and create new strategies for reviewing content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

15. Organizing Students to Practice and Deepen Knowledge

The teacher organizes and guides grouping in ways that appropriately facilitate practicing and deepening knowledge.

Example Teacher Evidence

- Teacher organizes students into groups with the expressed idea of deepening their knowledge of content
- Teacher organizes students into groups with the expressed idea of practicing a skill, strategy, or process
- Teacher provides guidance regarding group interactions
- Teacher provides guidance on one or more conative skills
 - Becoming aware of the power of interpretations
 - Avoiding negative thinking
 - Taking various perspectives
 - Interacting responsibly
 - Handling controversy and conflict resolution
- Teacher provides guidance on one or more cognitive skills appropriate for the lesson

Example Student Evidence

- Students explain how the group work supports their learning
- While in groups, students interact in explicit ways to deepen their knowledge of informational content or practice a skill, strategy, or process
 - Students actively ask and answer questions about the content
 - Students add their perspective to discussions
- Students move and work within groups with an organized purpose
- Students have an awareness of the power of interpretations
- Students avoid negative thinking
- Students take various perspectives
- Students interact responsibly
- Students appear to know how to handle controversy and conflict resolution
- Students attend to the cognitive skill(s)

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Organizing students to practice and deepen knowledge	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Organizes students into groups that appropriately facilitate practicing and deepening knowledge.	Organizes students into groups that appropriately facilitate practicing and deepening knowledge and monitors the extent to which the group work extends their learning.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Organizing students to practice and deepen knowledge	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you organize students into groups to practice and deepen knowledge?	In addition to organizing students into groups to practice and deepen knowledge, how can you also monitor the extent to which the group work extends their learning?	How might you adapt and create new strategies for organizing students to practice and deepen knowledge that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

16. Using Homework

The teacher designs homework activities that allow students to access and analyze content to deepen knowledge or practice a skill, strategy, or process.

Example Teacher Evidence

- Teacher utilizes strategies associated with a flipped classroom
- Teacher communicates a clear purpose and gives directions for homework
- Teacher extends an activity that was begun in class to provide students with more time
- Teacher utilizes homework assignments that allow students to practice skills, strategies, and processes and/or deepen knowledge independently
- Teacher utilizes homework assignments that allow students to access and analyze content independently

Example Student Evidence

- Students can describe how the homework assignment will deepen their understanding of informational content or help them practice a skill, strategy, or process
- Students ask clarifying questions about homework that help them understand its purpose

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Using homework	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Assigns homework that is designed to deepen knowledge of content or practice a skill, strategy, or process.	When appropriate (as opposed to routinely), assigns homework that is designed to deepen knowledge of content or practice a skill, strategy, or process and monitors the extent to which homework extends student learning.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Using homework	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you assign homework that is designed to deepen knowledge of content or practice a skill, strategy, or process?	In addition to assigning homework that is designed to deepen knowledge of content or practice a skill, strategy, or process, how can you also monitor the extent to which the homework extends student learning?	How might you adapt and create new strategies for assigning homework that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

17. Helping Students Examine Similarities and Differences

When presenting content, the teacher helps students deepen their knowledge by examining similarities and differences.

Example Teacher Evidence

- Teacher engages students in activities that require students to examine similarities and differences
 - Comparison activities
 - Classifying activities
 - Analogy activities
 - Metaphor activities
 - Identifying basic relationships between ideas that deepen knowledge
 - Generating and manipulating mental images that deepen knowledge
- Teacher asks students to summarize what they have learned from the activity
- Teacher asks students to linguistically and non-linguistically represent similarities and differences
- Teacher asks students to explain how the activity has added to their understanding
- Teacher asks students to draw conclusions after the examination of similarities and differences
- Teacher facilitates the use of digital resources to find credible and relevant information to support examination of similarities and differences

Example Student Evidence

- Students can create analogies and/or metaphors that reflect their depth of understanding
- Student comparison and classification activities reflect their depth of understanding
- Student artifacts indicate that student knowledge has been extended as a result of the activity
- Student responses indicate that they have deepened their understanding
- Students can present evidence to support their explanation of similarities and differences
- Students navigate digital resources to find credible and relevant information to support similarities and differences

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students examine similarities and differences	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in activities that require them to examine similarities and differences related to content.	Engages students in activities that require them to examine similarities and differences related to content and monitors the extent to which it deepens student understanding.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students examine similarities and differences	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in activities that require them to examine similarities and differences related to content?	In addition to engaging students in examining similarities and differences related to content, how can you monitor the extent to which students are deepening their knowledge?	How might you adapt and create new strategies for examining similarities and differences that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

18. Helping Students Examine Their Reasoning

The teacher helps students produce and defend claims by examining their own reasoning or the logic of presented information, processes, and procedures.

Example Teacher Evidence

- Teacher asks students to examine and analyze information for errors or informal fallacies in content or in their own reasoning
 - Faulty logic
 - Attacks
 - Weak reference
 - Misinformation
- Teacher asks students to examine and analyze the strength of support presented for a claim in content or in their own reasoning
 - Statement of a clear claim
 - Evidence for the claim presented
 - Qualifiers presented showing exceptions to the claim
- Teacher asks students to examine logic of errors in procedural knowledge
- Teacher asks students to analyze errors to identify more efficient ways to execute processes
- Teacher facilitates the use of digital sources to find credible and relevant information to support examination of errors in reasoning
- Teacher involves students in taking various perspectives by identifying the reasoning behind multiple perspectives

Example Student Evidence

- Students can describe errors or informal fallacies in content
- Students can explain the overall structure of an argument presented to support a claim
- Student artifacts indicate students can identify errors in reasoning or make and support a claim
- Students navigate digital resources to find credible and relevant information to support examination of errors in reasoning
- Student artifacts indicate students take various perspectives by identifying the reasoning behind multiple perspectives

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students examine their reasoning	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in activities that require them to examine and defend their own reasoning or the logic of information as presented to them.	Engages students in activities that require them to examine and defend their own reasoning or the logic of information as presented to them and monitors the extent to which it deepens student understanding.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students examine their reasoning	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in activities that require them to examine and defend their own reasoning or the logic of information as presented to them?	In addition to engaging students in examining and defending their own reasoning or the logic of information as presented to them, how can you monitor the extent to which students are deepening their knowledge?	How might you adapt and create new strategies for helping students examine their own reasoning or the logic of information presented to them that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

19. Helping Students Practice Skills, Strategies, and Processes

When the content involves a skill, strategy, or process, the teacher engages students in practice activities that help them develop fluency and alternative ways of executing procedures.

Example Teacher Evidence

- Teacher engages students in massed and distributed practice activities that are appropriate to their current ability to execute a skill, strategy, or process
 - Guided practice if students cannot perform the skill, strategy, or process independently
 - Independent practice if students can perform the skill, strategy, or process independently
- Teacher guides students to generate and manipulate mental models for skills, strategies, and processes
- Teacher employs “worked examples”
- Teacher provides opportunity for practice immediately prior to assessing skills, strategies, and processes
- Teacher models the skill, strategy, or process

Example Student Evidence

- Students perform the skill, strategy, or process with increased confidence
- Students perform the skill, strategy, or process with increased competence
- Student artifacts or formative data show fluency and accuracy is increasing
- Students can explain mental models

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students practice skills, strategies, and processes	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	When content involves a skill, strategy, or process, engages students in practice activities.	When content involves a skill, strategy, or process, engages students in practice activities and monitors the extent to which it increases fluency or deepens understanding.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students practice skills, strategies, and processes	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in practice activities when content involves a skill, strategy, or process?	In addition to engaging students in practice activities, how can you monitor the extent to which the practice is increasing student fluency or deepening understanding?	How might you adapt and create new strategies for helping students practice that increase fluency and address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

20. Helping Students Revise Knowledge

The teacher engages students in revision of previous knowledge by correcting errors and misconceptions as well as adding new information.

Example Teacher Evidence

- Teacher asks students to examine previous entries in their digital or traditional academic notebooks or notes to correct errors and misconceptions as well as add new information
- Teacher engages the whole class in an examination of how the current lesson changed perceptions and understandings of previous content
- Teacher has students explain how their understanding has changed
- Teacher guides students to identify alternative ways to execute procedures

Example Student Evidence

- Students make corrections and/or additions to information previously recorded about content
- Students can explain previous errors or misconceptions they had about content
- Students demonstrate a growth mindset by self-correcting errors as knowledge is revised
- Student revisions demonstrate alternative ways to execute procedures

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Helping students revise knowledge	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in revising their knowledge of previous content by correcting errors and misconceptions.	Engages students in revising their knowledge of previous content by correcting errors and misconceptions and monitors the extent to which these revisions deepen their understanding.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Helping students revise knowledge	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in the revision of previous content by correcting errors and misconceptions?	In addition to engaging students in revising previous content by correcting errors and misconceptions, how can you monitor the extent to which these revisions deepen student understanding?	How might you adapt and create new strategies for revising knowledge of content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- How did this lesson add to your understanding of the content?
- What changes did you make in your understanding of the content as a result of the lesson?
- What do you still need to understand better?

Design Question #4: What will I do to help students generate and test hypotheses about new knowledge?

21. Organizing Students for Cognitively Complex Tasks
<p>The teacher appropriately organizes and guides groups to work on short- and long-term complex tasks that require them to generate and test hypotheses.</p>
<p>Example Teacher Evidence</p> <ul style="list-style-type: none"> <input type="checkbox"/> Teacher establishes the need to generate and test hypotheses for short- or long-term tasks <input type="checkbox"/> Teacher organizes students into groups for the expressed purpose of problem solving, decision making, experimenting, or investigating <input type="checkbox"/> Teacher provides guidance on one or more conative skills <ul style="list-style-type: none"> • Becoming aware of the power of interpretations • Avoiding negative thinking • Taking various perspectives • Interacting responsibly • Handling controversy and conflict resolution <input type="checkbox"/> Teacher provides guidance on one or more cognitive skills appropriate for the lesson
<p>Example Student Evidence</p> <ul style="list-style-type: none"> <input type="checkbox"/> Students describe the importance of generating and testing hypotheses about content <input type="checkbox"/> Students explain how groups support their learning <input type="checkbox"/> Students use group activities to help them generate and test hypotheses <input type="checkbox"/> While in groups, students interact in explicit ways to generate and test hypotheses <ul style="list-style-type: none"> • Students actively ask and answer questions about the content • Students add their perspectives to discussions <input type="checkbox"/> Students move and work within groups with an organized purpose <input type="checkbox"/> Students have an awareness of the power of interpretations <input type="checkbox"/> Students avoid negative thinking <input type="checkbox"/> Students take various perspectives <input type="checkbox"/> Students interact responsibly <input type="checkbox"/> Students appear to know how to handle controversy and conflict resolution <input type="checkbox"/> Students attend to the cognitive skill(s)

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Organizing students for cognitively complex tasks	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Organizes students into groups to facilitate working on cognitively complex tasks.	Organizes students into groups to facilitate working on cognitively complex tasks and monitors the extent to which group work results in students engaging in cognitively complex tasks.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Organizing students for cognitively complex tasks	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you organize students in groups to facilitate working on cognitively complex tasks?	In addition to organizing students in groups for cognitively complex tasks, how can you monitor the extent to which group work results in students engaging in cognitively complex tasks?	How might you adapt and create new strategies for organizing students to engage in cognitively complex tasks that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

22. Engaging Students in Cognitively Complex Tasks Involving Hypothesis Generation and Testing

The teacher engages students in short- and long-term complex tasks that require them to generate and test hypotheses and analyze their own thinking.

Example Teacher Evidence

- Teacher engages students with an explicit decision making, problem solving, experimental inquiry, or investigation task that requires them to
 - Generate conclusions
 - Identify common logical errors
 - Present and support claims
 - Navigate digital resources
- Teacher facilitates students in generating their own individual or group tasks that require them to generate and test hypotheses
 - Generate conclusions
 - Identify common logical errors
 - Present and support claims
 - Navigate digital resources

Example Student Evidence

- Students participate in tasks that require them to generate and test hypotheses
- Students can explain the hypothesis they are testing
- Students can explain whether their hypothesis was confirmed or disconfirmed and support their explanation
- Student artifacts indicate that while engaged in decision making, problem solving, experimental inquiry, or investigation, students can
 - Generate conclusions
 - Identify common logical errors
 - Present and support claims
 - Navigate digital resources
 - Identify how one idea relates to others

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Engaging students in cognitively complex tasks involving hypothesis generation and testing	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Engages students in cognitively complex tasks requiring hypothesis generation and testing and analysis of their own thinking.	Engages students in cognitively complex tasks requiring hypothesis generation and testing and analysis of their own thinking and monitors the extent to which students are generating and testing hypotheses and analyzing their own thinking.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Engaging students in cognitively complex tasks involving hypothesis generation and testing	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you engage students in cognitively complex tasks involving hypothesis generation and testing and analysis of their own thinking?	In addition to engaging students in cognitively complex tasks involving hypothesis generation and testing and analysis of their own thinking, how can you monitor the extent to which students are generating and testing hypotheses and analyzing their own thinking?	How might you adapt and create new strategies for engaging students in cognitively complex tasks involving hypothesis generation and testing that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

23. Providing Resources and Guidance for Cognitively Complex Tasks

The teacher acts as resource provider and guide as students engage in short- and long-term complex tasks.

Example Teacher Evidence

- Teacher makes himself/herself available to students who need guidance or resources
 - Circulates around the room
 - Provides easy access to himself/herself
- Teacher interacts with students during the class to determine their needs for hypothesis generation and testing tasks
- Teacher volunteers resources and guidance as needed by the entire class, groups of students, or individual students
 - Digital
 - Technical
 - Human
 - Material

Example Student Evidence

- Students seek out the teacher for advice and guidance regarding hypothesis generation and testing tasks
- Students can explain how the teacher provides assistance and guidance in hypothesis generation and testing tasks
- Students can give specific examples of how their teacher provides assistance and resources that helped them in cognitively complex tasks

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Providing resources and guidance for cognitively complex tasks	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Acts as a guide and resource provider as students engage in cognitively complex tasks.	Acts as a guide and resource provider as students engage in cognitively complex tasks and monitors the extent to which students request and use guidance and resources.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Providing resources and guidance for cognitively complex tasks	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you act as a guide and resource provider as students engage in cognitively complex tasks?	In addition to acting as a guide and resource provider as students engage in cognitively complex tasks, how can you monitor the extent to which students request and use guidance and resources?	How might you adapt and create new strategies for providing resources and guidance for cognitively complex tasks that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- How did this lesson help you apply or use what you have learned?
- What change has this lesson made in your understanding of the content?

Marzano Protocol: Lesson Segment Enacted on the Spot

Design Question #5: What will I do to engage students?

24. Noticing When Students are Not Engaged

The teacher scans the room and notices when students are not paying attention or not cognitively engaged and takes overt action.

Example Teacher Evidence

- Teacher notices when specific students or groups of students are not paying attention or not cognitively engaged
- Teacher notices when the energy level in the room is low or students are not participating
- Teacher takes action or uses specific strategies to re-engage students

Example Student Evidence

- Students appear aware of the fact that the teacher is noticing their level of engagement
- Students increase their level of engagement when the teacher uses engagement strategies
- Students explain that the teacher expects high levels of engagement
- Students report that the teacher notices when students are not engaged

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Noticing when students are not engaged	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Scans the room and notices when students are not engaged and takes action.	Scans the room and notices when students are not engaged and takes action and monitors the extent to which students re-engage.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Noticing when students are not engaged	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you scan the room, notice when students are not engaged, and then take action to engage students?	In addition to scanning the room, noticing when students are not engaged, and taking action, how can you monitor the extent to which students re-engage?	How might you adapt and create new strategies for noticing when students are not engaged that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

25. Using Academic Games

The teacher uses academic games to cognitively engage or re-engage students.

Example Teacher Evidence

- Teacher uses academic games that focus on or reinforce important concepts
- Teacher uses academic games that create generalizations or test principles
- Teacher uses structured, inconsequential competition games such as Jeopardy and Family Feud
- Teacher develops impromptu games such as making a game out of which answer might be correct for a given question
- Teacher uses friendly competition along with classroom games
- Teacher develops conative skills during academic games
 - Taking various perspectives
 - Interacting responsibly
 - Handling controversy and conflict

Example Student Evidence

- Students engage in the games with some enthusiasm
- Students can explain how the games keep their interest and help them learn or remember content
- Students appear to take various perspectives when engaged in academic games
- Students interact responsibly during academic games
- Students handle controversy and conflict during academic games

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Using academic games	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses academic games to maintain student engagement.	Uses academic games to maintain student engagement and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Using academic games	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use academic games to maintain student engagement?	In addition to using academic games to maintain student engagement, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for using academic games to maintain student engagement that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

26. Managing Response Rates

The teacher uses response rate techniques to maintain student engagement through questioning processes.

Example Teacher Evidence

- Teacher uses appropriate wait time
- Teacher uses a variety of activities that require all students to respond
 - Response cards
 - Students use hand signals to respond to questions
 - Choral response
- Teacher uses technology to keep track of student responses
- Teacher uses response chaining
- Teacher increases response rates by requiring students to back up responses with evidence

Example Student Evidence

- Multiple students, or the entire class, respond to questions posed by the teacher
- Students can describe their thinking about specific questions posed by the teacher
- Students engage or re-engage in response to teacher's use of questioning techniques

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Managing response rates	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses response rate techniques to maintain student engagement through questioning processes.	Uses response rate techniques to maintain student engagement through questioning processes and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Managing response rates	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use response rate techniques to maintain student engagement through questioning processes?	In addition to using response rate techniques to maintain student engagement in questions, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for managing response rates to maintain student engagement in questions that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

27. Using Physical Movement

The teacher uses physical movement to maintain student engagement in content.

Example Teacher Evidence

- Teacher facilitates movement to learning stations or to work with other students
- Teacher has students move after brief chunks of content engagement
- Teacher has students stand up and stretch or do related activities when their energy is low
- Teacher uses activities that require students to physically move to respond to questions
 - Vote with your feet
 - Go to the part of the room that represents the answer you agree with
- Teacher has students physically act out or model content to increase energy and engagement
- Teacher uses give-one-get-one activities that require students to move about the room

Example Student Evidence

- Student behavior shows physical movement strategies increase cognitive engagement
- Students engage in the physical activities designed by the teacher
- Students can explain how the physical movement keeps their interest and helps them learn

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Using physical movement	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses physical movement to maintain student engagement.	Uses physical movement to maintain student engagement and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Using physical movement	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use physical movement to maintain student engagement?	In addition to using physical movement to maintain student engagement, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies using physical movement to maintain student engagement that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

28. Maintaining a Lively Pace

The teacher uses pacing techniques to maintain student engagement in content.

Example Teacher Evidence

- Teacher balances a lively pace with the need for adequate time to respond to specific activities and assignments
- Teacher employs crisp transitions from one activity to another
- Teacher alters pace appropriately (i.e., speeds up and slows down)

Example Student Evidence

- Students stay engaged when the pace of the class is not too fast or too slow
- Students quickly adapt to transitions and re-engage when a new activity is begun
- Students describe the pace of the class as not too fast or not too slow

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Maintaining a lively pace	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses pacing techniques to maintain student engagement.	Uses pacing techniques to maintain student engagement and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Maintaining a lively pace	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use pacing techniques to maintain student engagement?	In addition to pacing techniques to maintain student engagement, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for maintaining a lively pace that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

29. Demonstrating Intensity and Enthusiasm

The teacher demonstrates intensity and enthusiasm for content by sharing a deep level of content knowledge in a variety of ways.

Example Teacher Evidence

- Teacher enthusiastically demonstrates depth of content knowledge
- Teacher demonstrates importance of content by relating it to authentic, real-world situations
- Teacher describes personal experiences that relate to the content
- Teacher signals excitement for content by
 - Physical gestures
 - Voice tone
 - Dramatization of information
- Teacher strategically adjusts his/her energy level in response to student engagement

Example Student Evidence

- Students say that the teacher “likes the content” and “likes teaching”
- Student attention levels or cognitive engagement increase when the teacher demonstrates enthusiasm and intensity for the content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Demonstrating intensity and enthusiasm	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Demonstrates intensity and enthusiasm by sharing a deep level of content knowledge in a variety of ways.	Demonstrates intensity and enthusiasm by sharing a deep level of content knowledge in a variety of ways and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Demonstrating intensity and enthusiasm	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you demonstrate intensity and enthusiasm by sharing a deep level of content in a variety of ways?	In addition to demonstrating intensity and enthusiasm by sharing a deep level of content knowledge in a variety of ways, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for demonstrating intensity and enthusiasm for the content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

30. Using Friendly Controversy

The teacher uses friendly controversy techniques to maintain student engagement in content.

Example Teacher Evidence

- Teacher structures mini-debates about the content
- Teacher structures activities that require students to provide evidence for their positions in a friendly controversy
- Teacher has students reveal sources of evidence to support their positions
- Teacher has students examine multiple perspectives and opinions about the content
- Teacher elicits different opinions on content from members of the class
- Teacher develops conative skills during friendly controversy
 - Taking various perspectives
 - Interacting responsibly
 - Handling controversy and conflict

Example Student Evidence

- Students engage or re-engage in friendly controversy activities with enhanced engagement
- Students describe friendly controversy activities as “stimulating,” “fun,” and “engaging”
- Students explain how a friendly controversy activity helped them better understand the content
- Students appear to take various perspectives while engaged in friendly controversy
- Students interact responsibly during friendly controversy
- Students appropriately handle controversy and conflict while engaged in friendly controversy

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Using friendly controversy	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses friendly controversy techniques to maintain student engagement.	Uses friendly controversy techniques to maintain student engagement and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Using friendly controversy	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use friendly controversy techniques to maintain student engagement?	In addition to using friendly controversy techniques to maintain student engagement, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for using friendly controversy to maintain student engagement that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

31. Providing Opportunities for Students to Talk about Themselves

The teacher provides students with opportunities to relate content being presented in class to their personal interests.

Example Teacher Evidence

- Teacher is aware of student interests and makes connections between these interests and class content
- Teacher structures activities that ask students to make connections between the content and their personal interests
- Teacher appears encouraging and interested when students are explaining how content relates to their personal interests
- Teacher highlights student use of specific cognitive skills (e.g., identifying basic relationships, generating conclusions, and identifying common logical errors) and conative skills (e.g., becoming aware of the power of interpretations) when students are explaining how content relates to their personal interests

Example Student Evidence

- Students engage in activities that require them to make connections between their personal interests and the content
- Students explain how making connections between content and their personal interests engages them and helps them better understand the content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Providing opportunities for students to talk about themselves	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Provides students with opportunities to relate what is being addressed in class to their personal interests.	Provides students with opportunities to relate what is being addressed in class to their personal interests and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Providing opportunities for students to talk about themselves	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you provide students with opportunities to relate what is being addressed in class to their personal interests?	In addition to providing students with opportunities to relate what is being addressed in class to their personal interests, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for providing students with opportunities to relate what is being addressed in class to their personal interests that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

32. Presenting Unusual or Intriguing Information

The teacher uses unusual or intriguing and relevant information about the content to enhance cognitive engagement.

Example Teacher Evidence

- Teacher systematically provides interesting facts and details about the content
- Teacher encourages students to identify interesting information about the content
- Teacher engages students in activities like “Believe it or not” about the content
- Teacher uses guest speakers and various digital resources (e.g., media clips) to provide unusual information about the content

Example Student Evidence

- Student attention increases when unusual information is presented about the content
- Students explain how the unusual information makes them more interested in the content
- Students explain how the unusual information deepens their understanding of the content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Presenting unusual or intriguing information	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses unusual or intriguing and relevant information about the content.	Uses unusual or intriguing and relevant information about the content and monitors the extent to which these activities enhance student engagement.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Presenting unusual or intriguing information	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use unusual or intriguing and relevant information about the content?	In addition to using unusual or intriguing and relevant information about the content, how can you monitor the extent to which these activities enhance student engagement?	How might you adapt and create new strategies for using unusual or intriguing and relevant information about the content that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- How engaged were you in this lesson?
- What are some things that keep your attention?
- What are some things that make you bored?

Design Question #7: What will I do to recognize and acknowledge adherence or lack of adherence to rules and procedures?

33. Demonstrating “Withitness”
The teacher uses behaviors associated with “withitness” to maintain adherence to rules and procedures.
<p>Example Teacher Evidence</p> <ul style="list-style-type: none"> <input type="checkbox"/> Teacher physically occupies all quadrants of the room <input type="checkbox"/> Teacher scans the entire room, making eye contact with all students <input type="checkbox"/> Teacher recognizes potential sources of disruption and deals with them immediately <input type="checkbox"/> Teacher proactively addresses inflammatory situations
<p>Example Student Evidence</p> <ul style="list-style-type: none"> <input type="checkbox"/> Students recognize that the teacher is aware of their behavior <input type="checkbox"/> Students interact responsibly <input type="checkbox"/> Students describe the teacher as “aware of what is going on” or “has eyes on the back of his/her head”

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Demonstrating “withitness”	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses behaviors associated with “withitness.”	Uses behaviors associated with “withitness” and monitors the extent to which it affects student behavior.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Demonstrating “withitness”	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use behaviors associated with “withitness”?	In addition to using behaviors associated with “withitness,” how can you monitor the extent to which it affects student behavior?	How might you adapt and create new strategies for using behaviors associated with “withitness” that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

34. Applying Consequences for Lack of Adherence to Rules and Procedures

The teacher consistently and fairly applies consequences for not following rules and procedures.

Example Teacher Evidence

- Teacher reminds students of self-regulation strategies
- Teacher provides nonverbal signals when student behavior is not appropriate
 - Eye contact
 - Proximity
 - Tap on the desk
 - Shaking head “no”
- Teacher provides verbal signals when student behavior is not appropriate
 - Tells students to stop
 - Tells students that their behavior is in violation of a rule or procedure
- Teacher uses group contingency consequences when appropriate (i.e., whole group must demonstrate a specific behavior)
- Teacher involves the home when appropriate (i.e., makes a call home to parents to help extinguish inappropriate behavior)
- Teacher uses direct cost consequences when appropriate (e.g., student must fix something he/she has broken)

Example Student Evidence

- Students demonstrate use of self-regulation strategies
- Students cease inappropriate behavior when signaled by the teacher
- Students accept consequences as part of the way class is conducted
- Students describe the teacher as fair in application of rules

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Applying consequences for lack of adherence to rules and procedures	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Consistently and fairly applies consequences for not following rules and procedures.	Consistently and fairly applies consequences for not following rules and procedures and monitors the extent to which rules and procedures are followed.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Applying consequences for lack of adherence to rules and procedures	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you consistently and fairly apply consequences for not following rules and procedures?	In addition to consistently and fairly applying consequences for not following rules and procedures, how can you monitor the extent to which rules and procedures are followed?	How might you adapt and create new strategies for consistently and fairly applying consequences for not following rules and procedures that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

35. Acknowledging Adherence to Rules and Procedures

The teacher consistently and fairly acknowledges adherence to rules and procedures.

Example Teacher Evidence

- Teacher acknowledges when students use self-regulation strategies
- Teacher provides nonverbal signals that a rule or procedure has been followed
 - Smile
 - Nod of head
 - "High five"
- Teacher gives verbal cues that a rule or procedure has been followed
 - Thanks students for following a rule or procedure
 - Describes student behaviors that adhere to a rule or procedure
- Teacher notifies the home when a rule or procedure has been followed
- Teacher uses tangible recognition when a rule or procedure has been followed
 - Certificate of merit
 - Token economies

Example Student Evidence

- Students self-monitor and cease inappropriate behavior after receiving acknowledgement from the teacher
- Student verbal and nonverbal behaviors indicate appreciation of the teacher acknowledging their positive behavior
- Students describe the teacher as appreciative of their good behavior
- Students say that the teacher fairly and consistently acknowledges adherence to rules and procedures
- The number of students adhering to rules and procedures increases

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Acknowledging adherence to rules and procedures	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Consistently and fairly acknowledges adherence to rules and procedures.	Consistently and fairly acknowledges adherence to rules and procedures and monitors the extent to which actions affect student behavior.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Acknowledging adherence to rules and procedures	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you consistently and fairly acknowledge adherence to rules and procedures?	In addition to consistently and fairly acknowledging adherence to rules and procedures, how can you monitor the extent to which actions affect student behavior?	How might you adapt and create new strategies for consistently and fairly acknowledging adherence to rules and procedures that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- How well did you follow classroom rules and procedures during this lesson?
- What are some things that helped you follow the rules and procedures?
- What are some things that didn't help you follow the rules and procedures?

Design Question #8: What will I do to establish and maintain effective relationships with students?

36. Understanding Students' Interests and Backgrounds

The teacher uses students' interests and backgrounds to produce a climate of acceptance and community.

Example Teacher Evidence

- Teacher relates content-specific knowledge to personal aspects of students' lives
- Teacher has side discussions with students about events in their lives
- Teacher has discussions with students about topics in which they are interested
- Teacher builds student interests into lessons
- Teacher uses discussion of students' personal interests to highlight or reinforce conative skills (e.g., cultivating a growth mindset)

Example Student Evidence

- Students describe the teacher as someone who knows them and/or is interested in them
- Students respond when the teacher demonstrates understanding of their interests and backgrounds
- Student verbal and nonverbal behaviors indicate they feel accepted by their teacher
- Students can describe how their personal interests connect to specific conative skills (e.g., cultivating a growth mindset)

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Understanding students' interests and backgrounds	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses students' interests and backgrounds during interactions with students.	Uses students' interests and backgrounds during interactions with students and monitors the climate of acceptance and community in the classroom.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Understanding students' interests and backgrounds	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use students' interests and backgrounds during interactions with students?	In addition to using students' interests and backgrounds during interactions with students, how can you monitor the climate of acceptance and community in the classroom?	How might you adapt and create new strategies and techniques for using students' interests and backgrounds during interactions with students that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

37. Using Verbal and Nonverbal Behaviors that Indicate Affection for Students

The teacher uses verbal and nonverbal behaviors that demonstrate and foster respect for student thinking and initiative.

Example Teacher Evidence

- Teacher compliments students regarding academic and personal accomplishments
- Teacher compliments students regarding academic and personal accomplishments relative to their initiative
- Teacher engages in informal conversations with students that are not related to academics
- Teacher uses humor with students when appropriate
- Teacher smiles and nods to students when appropriate
- Teacher uses “high five”-type signals when appropriate
 - Pat on shoulder
 - Thumbs up
 - “High five”
 - Fist bump
 - Silent applause
- Teacher encourages students to share their thinking and perspectives

Example Student Evidence

- Students describe the teacher as someone who cares for them
- Students respond positively to verbal interactions with the teacher
- Students respond positively to nonverbal interactions with the teacher
- Students readily share their perspectives and thinking with the teacher

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Using verbal and nonverbal behaviors that indicate affection for students	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Uses verbal and nonverbal behaviors that demonstrate and foster respect for student thinking and initiative.	Uses verbal and nonverbal behaviors that demonstrate and foster respect for student thinking and initiative and monitors the quality of relationships in the classroom.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Using verbal and nonverbal behaviors that indicate affection for students	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you use verbal and nonverbal behaviors that demonstrate and foster respect for student thinking and initiative?	In addition to using verbal and nonverbal behaviors that demonstrate and foster respect for student thinking and initiative, how can you monitor the quality of relationships in the classroom?	How might you adapt and create new strategies for using verbal and nonverbal behaviors that demonstrate and foster respect for student thinking and initiative that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

38. Displaying Objectivity and Control

The teacher behaves in an objective and controlled manner to demonstrate a commitment to students and academic rigor.

Example Teacher Evidence

- Teacher does not exhibit extremes in positive or negative emotions
- Teacher does not allow distractions to change the focus on academic rigor
- Teacher addresses inflammatory issues and events in a calm and controlled manner
- Teacher interacts with all students in the same calm and controlled fashion
- Teacher does not demonstrate personal offense at student misbehavior

Example Student Evidence

- Students describe the teacher as not becoming distracted by interruptions in the class
- Students are settled by the teacher's calm demeanor
- Students describe the teacher as in control of himself/herself and in control of the class
- Students say that the teacher does not hold grudges or take things personally

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Displaying objectivity and control	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Behaves in an objective and controlled manner.	Behaves in an objective and controlled manner and monitors the effect on the classroom climate.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Displaying objectivity and control	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you behave in an objective and controlled manner?	In addition to behaving in an objective and controlled manner, how can you monitor the effects on the classroom climate?	How might you adapt and create new strategies for behaving in an objective and controlled manner that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- How accepted and welcomed did you feel in class today?
- What are some things that made you feel accepted and welcomed?
- What are some things that did not make you feel accepted and welcomed?

Design Question #9: What will I do to communicate high expectations for all students?

39. Demonstrating Value and Respect for Low Expectancy Students

The teacher exhibits behaviors that demonstrate value and respect for low expectancy students' thinking regarding the content.

Example Teacher Evidence

- The teacher provides low expectancy students with nonverbal indications that they are valued and respected
 - Makes eye contact
 - Smiles
 - Makes appropriate physical contact
- The teacher provides low expectancy students with verbal indications that they are valued and respected
 - Playful dialogue
 - Addressing students in a manner they view as respectful
- Teacher does not allow negative comments about low expectancy students
- When asked, the teacher can identify students for whom there have been low expectations and the various ways in which these students have been treated differently from high expectancy students
- The teacher provides students with strategies to avoid negative thinking about one's thoughts and actions

Example Student Evidence

- Students say that the teacher cares for all students
- Students treat each other with respect
- Students avoid negative thinking about their thoughts and actions

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Demonstrating value and respect for low expectancy students	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Exhibits behaviors that demonstrate value and respect for low expectancy students' thinking regarding the content.	Exhibits behaviors that demonstrate value and respect for low expectancy students' thinking regarding the content and monitors the impact on low expectancy students.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Demonstrating value and respect for low expectancy students	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you exhibit behaviors that demonstrate value and respect for low expectancy students' thinking regarding the content?	In addition to exhibiting behaviors that demonstrate value and respect for low expectancy students' thinking regarding the content, how can you monitor the impact?	How might you adapt and create new strategies for behaviors that demonstrate value and respect for low expectancy students that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

40. Asking Questions of Low Expectancy Students

The teacher asks questions of low expectancy students with the same frequency and depth as with high expectancy students.

Example Teacher Evidence

- Teacher makes sure low expectancy students are asked questions at the same rate as high expectancy students
- Teacher makes sure low expectancy students are asked complex questions that require conclusions at the same rate as high expectancy students

Example Student Evidence

- Students say that the teacher expects everyone to participate
- Students say that the teacher asks difficult questions of every student

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Asking questions of low expectancy students	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Asks questions of low expectancy students with the same frequency and depth as with high expectancy students.	Asks questions of low expectancy students with the same frequency and depth as with high expectancy students and monitors the quality of participation of low expectancy students.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Asking questions of low expectancy students	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you ask questions of low expectancy students with the same frequency and depth as with high expectancy students?	In addition to asking questions of low expectancy students with the same frequency and depth as with high expectancy students, how can you monitor the quality of participation?	How might you adapt and create new strategies for asking questions of low expectancy students that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

41. Probing Incorrect Answers with Low Expectancy Students

The teacher probes incorrect answers of low expectancy students by requiring them to provide evidence for their conclusions and examine the sources of their evidence.

Example Teacher Evidence

- Teacher rephrases questions for low expectancy students when they provide an incorrect answer
- Teacher probes low expectancy students to provide evidence of their conclusions
- Teacher asks low expectancy students to examine the sources of their evidence
- When low expectancy students demonstrate frustration, the teacher allows them to collect their thoughts but goes back to them at a later point in time
- Teacher asks low expectancy students to further explain their answers when they are incorrect

Example Student Evidence

- Students say that the teacher won't "let you off the hook"
- Students say that the teacher "won't give up on you"
- Students say that the teacher helps them think about and analyze their incorrect answers
- Student artifacts show the teacher holds all students to the same level of expectancy for drawing conclusions and providing sources of evidence

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Probing incorrect answers with low expectancy students	Strategy was called for but not exhibited.	Uses strategy incorrectly or with parts missing.	Probes incorrect answers of low expectancy students in the same manner as high expectancy students.	Probes incorrect answers of low expectancy students in the same manner as high expectancy students and monitors the level and quality of responses of low expectancy students.	Adapts and creates new strategies for unique student needs and situations.

Reflection Questions

	Not Using	Beginning	Developing	Applying	Innovating
Probing incorrect answers with low expectancy students	How can you begin to incorporate some aspects of this strategy into your instruction?	How can you probe incorrect answers of low expectancy students in the same manner as high expectancy students?	In addition to probing incorrect answers of low expectancy students in the same manner as high expectancy students, how can you monitor the level and quality of responses?	How might you adapt and create new strategies for probing incorrect answers of low expectancy students that address unique student needs and situations?	What are you learning about your students as you adapt and create new strategies?

Student Interviews

Student Questions:

- How does your teacher demonstrate that he/she cares about and respects you?
- How does your teacher communicate that everyone is expected to participate and answer difficult questions?
- What are some ways that your teacher helps you answer questions successfully?

Domain 2: Planning and Preparing

The teacher plans for clear goals and identifies them in the plan; he or she describes methods for tracking student progress and measuring success.

Planning and Preparing for Lessons and Units

42. Effective Scaffolding of Information within Lessons

Within lessons, the teacher prepares and plans the organization of content in such a way that each new piece of information builds on the previous piece.

Planning Evidence

- Content is organized to build upon previous information
- Presentation of content is logical and progresses from simple to complex
- Where appropriate, presentation of content is integrated with other content areas, other lessons and/or units
- The plan anticipates potential confusions that students may experience

Teacher Evidence

- When asked, the teacher can describe the rationale for how the content is organized
- When asked, the teacher can describe the rationale for the sequence of instruction
- When asked, the teacher can describe how content is related to previous lessons, units or other content
- When asked, the teacher can describe possible confusions that may impact the lesson or unit

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Effective Scaffolding of Information within Lessons	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher scaffolds the information but the relationship between the content is not clear	Within lessons the teacher organizes content in such a way that each new piece of information clearly builds on the previous piece	The teacher is recognized leader in helping others with this activity

43. Lessons within Units

The teacher organizes lessons within units to progress toward a deep understanding of content.

Planning Evidence

- Plans illustrate how learning will move from an understanding of foundational content to application of information in authentic ways
- Plans incorporate student choice and initiative
- Plans provide for extension of learning

Teacher Evidence

- When asked, the teacher can describe how lessons within the unit progress toward deep understanding and transfer of content
- When asked, the teacher can describe how students will make choices and take initiative
- When asked, the teacher can describe how learning will be extended

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Lessons within Units	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher organizes lessons within a unit so that students move from surface level to deeper understanding of content but does not require students to apply the content in authentic ways	The teacher organizes lessons within a unit so that students move from an understanding to applying the content through authentic tasks	The teacher is a recognized leader in helping others with this activity

44. Attention to Established Content Standards

The teacher ensures that lesson and unit plans are aligned with established content standards identified by the district and the manner in which that content should be sequenced.

Planning Evidence

- Lesson and unit plans include important content identified by the district (scope)
- Lesson and unit plans include the appropriate manner in which materials should be taught (sequence) as identified by the district

Teacher Evidence

- When asked, the teacher can identify or reference the important content (scope) identified by the district
- When asked, the teacher can describe the sequence of the content to be taught as identified by the district

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Attention to Established Content Standards	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher ensures that lessons and units include the important content identified by the district but does not address the appropriate sequencing of content	The teacher ensures that lessons and units include the important content identified by the district and the manner in which that content should be sequenced	The teacher is a recognized leader in helping others with this activity

Planning and Preparing for Use of Resources and Technology

45. Use of Available Traditional Resources

The teacher identifies the available traditional resources (materials and human) for upcoming units and lessons.

Planning Evidence

- The plan outlines resources within the classroom that will be used to enhance students' understanding of the content
- The plan outlines resources within the school that will be used enhance students' understanding of the content
- The plan outlines resources within the community that will be used to enhance students' understanding of the content

Teacher Evidence

- When asked, the teacher can describe the resources within the classroom that will be used to enhance students' understanding of the content
- When asked, the teacher can describe resources within the school that will be used to enhance students' understanding of the content
- When asked, the teacher can describe resources within the community that will be used to enhance students' understanding of the content

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Use of Available Traditional Resources	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher identifies the available traditional resources that can enhance student understanding but does not identify the manner in which they will be used	The teacher identifies the available traditional resources that can enhance student understanding and the manner in which they will be used	The teacher is a recognized leader in helping others with this activity

46. Use of Available Technology

The teacher identifies the use of available technology that can enhance students' understanding of content in a lesson or unit.

Planning Evidence

- The plan identifies available technology that will be used:
 - Interactive whiteboards
 - Response systems
 - Voting technologies
 - One-to-one computers
 - Social networking sites
 - Blogs
 - Wikis
 - Discussion Boards
- The plan identifies how the technology will be used to enhance student learning

Teacher Evidence

- When asked, the teacher can describe the technology that will be used
- When asked, the teacher can articulate how the technology will be used to enhance student learning

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Use of Available Technology	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher identifies the available technologies that can enhance student understanding but does not identify the manner in which they will be used	The teacher identifies the available technologies that can enhance student understanding and the manner in which they will be used	The teacher is a recognized leader in helping others with this activity

Planning and Preparing for the Needs of English Language Learners

47. Needs of English Language Learners

The teacher provides for the needs of English Language Learners (ELL) by identifying the adaptations that must be made within a lesson or unit.

Planning Evidence

- The plan identifies the accommodations that must be made for individual ELL students or groups within a lesson
- The plan identifies the adaptations that must be made for individual ELL students or groups within a unit of instruction

Teacher Evidence

- When asked, the teacher can describe the accommodations that must be made for individual ELL students or groups of students within a lesson
- When asked, the teacher can describe the adaptations that must be made for individual ELL students or groups of students within a unit of instruction

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Needs of English Language Learners	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher identifies the needs of English Language Learners but does not articulate the adaptations that will be made to meet these needs	The teacher identifies the needs of English Language Learners and the adaptations that will be made to meet these needs	The teacher is a recognized leader in helping others with this activity

Planning and Preparing for Needs of Students Receiving Special Education

48. Needs of Students Receiving Special Education

The teacher identifies the needs of students receiving special education by providing accommodations and modifications that must be made for specific students receiving special education.

Planning Evidence

- The plan describes accommodations and modifications that must be made for individual students receiving special education or groups of students according to the Individualized Education Program (IEP) for a lesson
- The plan describes the accommodations and modifications that must be made for individual students receiving special education or groups of students according to the IEP for a unit of instruction

Teacher Evidence

- When asked, the teacher can describe the specific accommodations that must be made for individual students receiving special education or groups of students according to their IEP for a lesson
- When asked, the teacher can describe the specific accommodations and modifications that must be made for individual students receiving special education or groups of students according to their IEP for a unit of instruction

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Needs of Students Receiving Special Education	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher identifies the needs of students receiving special education but does not articulate the accommodations or modifications that will be made to meet these needs	The teacher identifies the needs of students receiving special education and the accommodations and modifications that will be made to meet these needs	The teacher is a recognized leader in helping others with this activity

Planning and Preparing for Needs of Students Who Lack Support for Schooling

49. Needs of Students Who Lack Support for Schooling

The teacher identifies the needs of students who come from home environments that offer little support for schooling.

Planning Evidence

- The plan provides for the needs of students who come from home environments that offer little support for schooling
- When assigning homework, the teacher takes into consideration the students' family resources
- When communicating with the home, the teacher takes into consideration family and language resources

Teacher Evidence

- When asked, the teacher can articulate how the needs of students who come from home environments that offer little support for schooling will be addressed
- When asked, the teacher can articulate the ways in which the students' family resources will be addressed when assigning homework
- When asked, the teacher can articulate the ways in which communication with the home will take into consideration family and language resources

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Needs of Students Who Lack Support for Schooling	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher identifies the needs of students who lack support for schooling but does not articulate the adaptations that will be made to meet these needs	The teacher identifies the needs of students who lack support for schooling and the adaptations that will be made to meet these needs	The teacher is a recognized leader in helping others with this activity

Domain 3: Reflecting on Teaching

Evaluating Personal Performance

50. Identifying Areas of Pedagogical Strength and Weakness

The teacher identifies specific strategies and behaviors on which to improve from Domain 1 (routine lesson segments, content lesson segments and segments that are enacted on the spot).

Teacher Evidence

- The teacher identifies specific areas of strengths and weaknesses within Domain 1
- The teacher keeps track of specifically identified focus areas for improvement within Domain 1
- The teacher identifies and keeps track of specific areas identified based on teacher interest within Domain 1
- When asked, the teacher can describe how specific areas for improvement are identified within Domain 1

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Identifying Areas of Pedagogical Strength and Weakness	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher identifies specific strategies and behaviors on which to improve but does not select the strategies and behaviors that are most useful for his or her development	The teacher identifies specific strategies and behaviors on which to improve from routine lesson segments, content lesson segments and segments that are enacted on the spot	The teacher is a recognized leader in helping others with this activity

51. Evaluating the Effectiveness of Individual Lessons and Units

The teacher determines how effective a lesson or unit of instruction was in terms of enhancing student achievement and identifies causes of success or difficulty.

Teacher Evidence

- The teacher gathers and keeps records of his or her evaluations of individual lessons and units
- When asked, the teacher can explain the strengths and weaknesses of specific lessons and units
- When asked, the teacher can explain the alignment of the assessment tasks and the learning goals
- When asked, the teacher can explain how the assessment tasks help track student progress toward the learning goals

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Evaluating the Effectiveness of Individual Lessons and Units	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher determines how effective a lesson or unit was in terms of enhancing student achievement but does not accurately identify causes of success or difficulty	The teacher determines how effective a lesson or unit was in terms of enhancing student achievement and identifies specific causes of success or difficulty and uses this analysis when making instructional decisions	The teacher is a recognized leader in helping others with this activity

52. Evaluating the Effectiveness of Specific Pedagogical Strategies and Behaviors

The teacher determines the effectiveness of specific instructional techniques regarding the achievement of subgroups of students and identifies specific reasons for discrepancies.

Teacher Evidence

- The teacher gathers and keeps evidence of the effects of specific classroom strategies and behaviors on specific categories of students (i.e., different socio-economic groups, different ethnic groups)
- The teacher provides a written analysis of specific causes of success or difficulty
- When asked, the teacher can explain the differential effects of specific classroom strategies and behaviors on specific categories of students

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Evaluating the Effectiveness of Specific Pedagogical Strategies and Behaviors	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher determines the effectiveness of specific strategies and behaviors regarding the achievement of subgroups of students but does not accurately identify the reasons for discrepancies	The teacher determines the effectiveness of specific strategies and behaviors regarding the achievement of subgroups of students and identifies the reasons for discrepancies	The teacher is a recognized leader in helping others with this activity

Developing and Implementing a Professional Growth Plan

53. Developing a Written Growth and Development Plan

The teacher develops a written professional growth and development plan with specific and measureable goals, action steps, manageable timelines and appropriate resources.

Teacher Evidence

- The teacher constructs a growth plan that outlines measurable goals, action steps, manageable timelines and appropriate resources
- When asked, the teacher can describe the professional growth plan using specific and measurable goals, action steps, manageable timelines and appropriate resources

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Developing a Written Growth and Development Plan	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher develops a written professional growth and development plan but does not articulate clear and measurable goals, action steps, timelines and appropriate resources	The teacher develops a written professional growth and development plan with clear and measurable goals, actions steps, timelines and resources	The teacher is a recognized leader in helping others with this activity

54. Monitoring Progress Relative to the Professional Growth and Development Plan

The teacher charts his or her progress toward goals using established action plans, milestones and timelines.

Teacher Evidence

- The teacher constructs a plan that outlines a method for charting progress toward established goals supported by evidence (e.g., student achievement data, student work, student interviews, peer, self and observer feedback)
- When asked, the teacher can describe progress toward meeting the goals outlined in the plan supported by evidence (e.g., student achievement data, student work, student interviews, peer, self and observer feedback)

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Monitoring Progress Relative to the Professional Growth and Development Plan	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher charts his or her progress on the professional growth and development plan using established milestones and timelines but does not make modifications or adaptations as needed	The teacher charts his or her progress on the professional growth and development plan using established milestones and timelines and makes modifications or adaptations as needed	The teacher is a recognized leader in helping others with this activity

Domain 4: Collegiality and Professionalism

Promoting a Positive Environment

55. Promoting Positive Interactions with Colleagues

The teacher interacts with other teachers in a positive manner to promote and support student learning.

Teacher Evidence

- The teacher works cooperatively with appropriate school personnel to address issues that impact student learning
- The teacher establishes working relationships that demonstrate integrity, confidentiality, respect, flexibility, fairness and trust
- The teacher accesses available expertise and resources to support students' learning needs
- When asked, the teacher can describe situations in which he or she interacts positively with colleagues to promote and support student learning
- When asked, the teacher can describe situations in which he or she helped extinguish negative conversations about other teachers

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Promoting Positive Interactions with Colleagues	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher interacts with other colleagues in a positive manner to promote and support student learning but does not help extinguish negative conversations about other teachers	The teacher interacts with other colleagues in a positive manner to promote and support student learning and helps to extinguish negative conversations about other teachers	The teacher is a recognized leader in helping others with this activity

56. Promoting Positive Interactions about Students and Parents

The teacher interacts with students and parents in a positive manner to foster learning and promote positive home/school relationships.

Teacher Evidence

- The teacher fosters collaborative partnerships with parents to enhance student success in a manner that demonstrates integrity, confidentiality, respect, flexibility, fairness and trust
- The teacher ensures consistent and timely communication with parents regarding student expectations, progress and/or concerns
- The teacher encourages parent involvement in classroom and school activities
- The teacher demonstrates awareness and sensitivity to social, cultural and language backgrounds of families
- The teacher uses multiple means and modalities to communicate with families
- The teacher responds to requests for support, assistance and/or clarification promptly
- The teacher respects and maintains confidentiality of student/family information
- When asked, the teacher can describe instances when he or she interacted positively with students and parents
- When asked, students and parents can describe how the teacher interacted positively with them
- When asked, the teacher can describe situations in which he or she helped extinguish negative conversations about students and parents

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Promoting Positive Interactions about Students and Parents	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher interacts with students and parents in a positive manner to foster learning and promote positive home/school relationships but does not help extinguish negative conversations about students and parents	The teacher interacts with students and parents in a positive manner to foster learning and promote positive home/school relationships and helps extinguish negative conversations about students and parents	The teacher is a recognized leader in helping others with this activity

Promoting Exchange of Ideas and Strategies

57. Seeking Mentorship for Areas of Need or Interest

The teacher seeks help and input from colleagues regarding specific classroom strategies and behaviors.

Teacher Evidence

- The teacher keeps track of specific situations during which he or she has sought mentorship from others
- The teacher actively seeks help and input in Professional Learning Community meetings
- The teacher actively seeks help and input from appropriate school personnel to address issues that impact instruction
- When asked, the teacher can describe how he or she seeks input from colleagues regarding issues that impact instruction

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Seeking Mentorship for Areas of Need or Interest	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher seeks help and mentorship from colleagues but not at a specific enough level to enhance his or her pedagogical skill	The teacher seeks help and mentorship from colleagues regarding specific classroom strategies and behaviors	The teacher is a recognized leader in helping others with this activity

58. Mentoring Other Teachers and Sharing Ideas and Strategies

The teacher provides other teachers with help and input regarding specific classroom strategies and behaviors.

Teacher Evidence

- The teacher keeps tracks of specific situations during which he or she mentored other teachers
- The teacher contributes and shares expertise and new ideas with colleagues to enhance student learning in formal and informal ways
- The teacher serves as an appropriate role model (mentor, coach, presenter, researcher) regarding specific classroom strategies and behaviors
- When asked, the teacher can describe specific situations in which he or she has mentored colleagues

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Mentoring Other Teachers and Sharing Ideas and Strategies	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher provides other teachers with help and input regarding classroom strategies and behaviors but not at a specific enough level to enhance their pedagogical skill	The teacher provides other teachers with help and input regarding classroom strategies and behaviors	The teacher is a recognized leader in helping others with this activity

Promoting District and School Development

59. Adhering to District and School Rules and Procedures

The teacher is aware of the district's and school's rules and procedures and adheres to them.

Teacher Evidence

- The teacher performs assigned duties
- The teacher follows policies, regulations and procedures
- The teacher maintains accurate records (student progress, completion of assignments, non-instructional records)
- The teacher fulfills responsibilities in a timely manner
- The teacher understands legal issues related to students and families
- The teacher demonstrates personal integrity
- The teacher keeps track of specific situations in which he or she adheres to rules and procedures

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Adhering to District and School Rules and Procedures	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher is aware of district and school rules and procedures but does not adhere to all of these rules and procedures	The teacher is aware of district and school rules and procedures and adheres to them	The teacher is a recognized leader in helping others with this activity

60. Participating in District and School Initiatives

The teacher is aware of the district's and school's initiatives and participates in them in accordance with his or her talents and availability.

Teacher Evidence

- The teacher participates in school activities and events as appropriate to support students and families
- The teacher serves on school and district committees
- The teacher participates in staff development opportunities
- The teacher works to achieve school and district improvement goals
- The teacher keeps tracks of specific situations in which he or she has participated in school or district initiatives
- When asked, the teacher can describe or show evidence of his/her participation in district and school initiatives

Scale

	Not Using	Beginning	Developing	Applying	Innovating
Participating in District and School Initiatives	The teacher makes no attempt to perform this activity	The teacher attempts to perform this activity but does not actually complete or follow through with these attempts	The teacher is aware of the district's and school's initiatives but does not participate in them in accordance with his or her talents and availability	The teacher is aware of the district's and school's initiatives and participates in them in accordance with his or her talents and availability	The teacher is a recognized leader in helping others with this activity

SPECIALIZED TEACHER/SUPPORT**

DQ1: Communicating Learning Goals and Feedback

1. Providing Clear Learning Goals and Scales (Rubrics)
The instructional support member provides clearly stated goals based on area of responsibility that align with school and/or district goals and has a scale that describes levels of performance.
Instructional Support Member Evidence: <ul style="list-style-type: none"> <input type="checkbox"/> Instructional support member establishes a defined work plan or set of goals aligned with school and district goals <input type="checkbox"/> Instructional support member communicates work plan or goals and scale to appropriate people <input type="checkbox"/> Instructional support member makes references to their goals throughout the year <input type="checkbox"/> Instructional support member can explain how goals support and align with school and/or district goals. <input type="checkbox"/> Instructional support member can explain the meaning of the levels of performance articulated in the scale <input type="checkbox"/> Instructional support member can explain how their activities relate to the goal
Participant Evidence (Participants include students, parents, teachers, school personnel, and community members): <ul style="list-style-type: none"> <input type="checkbox"/> When asked, participants, colleagues, and/or administrators can explain how the instructional support member goals relate to and/or support the school or district goals <input type="checkbox"/> When asked, participants, colleagues, and/or administrators can explain how the instructional support member's activities relate to the school and/or district goals
Scale Levels: (choose one) <input type="checkbox"/> Innovating <input type="checkbox"/> Applying <input type="checkbox"/> Developing <input type="checkbox"/> Beginning <input type="checkbox"/> Not Using <input type="checkbox"/> Not Applicable

Scale

	Innovating	Applying	Developing	Beginning	Not Using
Providing Clear Learning Goals and Scales (Rubrics)	Adapts and creates new strategies for unique participant needs and situations in order for the desired effect to be evident in all participants.	Provides a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance and monitors for evidence of the majority of participants' understanding of the learning goal and the levels of performance.	Provides a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance, but the majority of participants are not monitored for the desired effect of the strategy.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.

Reflection Questions

	Innovating	Applying	Developing	Beginning	Not Using
Providing Clear Learning Goals and Scales (Rubrics)	What are you learning about your participants as you adapt and create new strategies?	How might you adapt and create new strategies for providing clearly stated learning goals and rubrics that address the unique participant needs and situations?	In addition to providing a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance, how can you monitor participant's understanding of the learning goal and the levels of performance?	How can you provide a clearly stated learning goal accompanied by a scale or rubric that describes levels of performance?	How can you begin to incorporate some aspects of this strategy into your instruction?

**BRIDGES LEARNING MAP
SPECIALIZED TEACHER/SUPPORT**

2. Tracking Participant Progress
The instructional support member facilitates tracking of progress toward goals.
Instructional Support Member Evidence: <ul style="list-style-type: none"> <input type="checkbox"/> Instructional support member monitors progress toward their goals throughout the school year using a scale <input type="checkbox"/> Instructional support member is responsive to participants, colleagues and administrators regarding feedback about their progress <input type="checkbox"/> Instructional support member actively consults with colleagues and administrators to find an optimal approach to ensure progress <input type="checkbox"/> Instructional support member consults with colleagues and administrators to ensure he/she is making progress towards the goal(s) <input type="checkbox"/> Instructional support member keeps updated records (i.e. data bases, data notebook, etc.) that validate tracking progress towards their goals
Participant Evidence (Participants include students, parents, teachers, school personnel, and community members): <ul style="list-style-type: none"> <input type="checkbox"/> When asked, participants, colleagues, and administrators can describe how the instructional support member is progressing towards their goal
Scale Levels: (choose one) <input type="checkbox"/> Innovating <input type="checkbox"/> Applying <input type="checkbox"/> Developing <input type="checkbox"/> Beginning <input type="checkbox"/> Not Using <input type="checkbox"/> Not Applicable

Scale

	Innovating	Applying	Developing	Beginning	Not Using
Tracking Participant Progress	Adapts and creates new strategies for unique participant needs and situations in order for the desired effect to be evident in all participants.	Facilitates tracking of participant progress using a formative approach to assessment and monitors for evidence of the extent to which the majority of participants understand their level of performance.	Facilitates the tracking of participant progress using a formative approach to assessment, but the majority of participants are not monitored for the desired effect of the strategy.	Uses strategy incorrectly or with parts missing.	Strategy was called for but not exhibited.

Reflection Questions

SPECIALIZED TEACHER/SUPPORT

8. Previewing New Content

The instructional support member engages participants in activities that help link what they already know to the new content/activity about to be addressed and facilitates these linkages.

Instructional Support Member Evidence:

- Instructional support member uses preview question before reading
- Instructional support member uses K-W-L strategy or variation of it
- Instructional support member asks or reminds participants what they already know about the topic
- Instructional support member provides an advanced organizer:
 - Outline
 - Graphic organizer
- Instructional support member has participants brainstorm
- Instructional support member uses an anticipation guide
- Instructional support member uses a motivational hook/launching activity:
 - Anecdotes
 - Short selection from video

Participant Evidence (Participants include students, parents, teachers, school personnel, and community members):

- When asked, participants can explain linkages with prior knowledge
- When asked, participants make predictions about upcoming content
- When asked, participants can provide a purpose for what they are about to learn
- Participants actively engage in previewing activities

ADDITIONAL ELEMENTS

D. Demonstrating Inquiry-Based Learning and the Research Process					
The library media specialist collaborates with the teacher to stimulate research, production, and communication.					
Library Media Specialist Evidence					
<input type="checkbox"/> Collaboratively implements inquiry-based projects accessing higher levels of cognition such as: analysis, evaluation, and creativity with information <input type="checkbox"/> Uses research models such as FINDS <input type="checkbox"/> Guides students through the research process <input type="checkbox"/> Provides digital and print aids that help learners collect and communicate information					
Student Evidence					
<input type="checkbox"/> Students can demonstrate how to locate, select, evaluate, and synthesize relevant sources of information <input type="checkbox"/> Students can demonstrate various ways to take existing information to apply in a new and relevant way.					
Scale Levels: (choose one)					
<input type="checkbox"/> Innovating <input type="checkbox"/> Applying <input type="checkbox"/> Developing <input type="checkbox"/> Beginning <input type="checkbox"/> Not Using <input type="checkbox"/> Not Applicable					

Scale

	Innovating	Applying	Developing	Beginning	Not Using
Demonstrating Inquiry-Based Learning and the Research Process	Is a collaborative leader in initiating, implementing, and reflecting on inquiry-based projects.	Teaches information literacy skills within the context of a classroom-based project.	Teaches information literacy skills independent of classroom instruction.	Attempts to perform this activity but does not actually complete or follow through with the attempts.	Makes no attempt to perform this activity.

MEDIA SPECIALISTS**

H. Organizing and Maintaining the Physical and Virtual Space to Support Personalized Learning and Flexible Use of the Media Center

The library media specialist provides flexible and equitable patron access to physical and virtual collections. Materials are aesthetically displayed, and signage clearly directs patrons to resources. The physical layout enables multiple learning activities to occur simultaneously.

- Library Media Specialist Evidence**
- Designs learning spaces that accommodate a range of teaching methods.
 - Provides sufficient and appropriate shelving and storage of resources.
 - Provides space and seating that enhances and encourages technology use, leisure reading and browsing, and the use of materials in all formats.
 - Maintains a library website in Destiny that provides 24-7 access to digital information resources.

- Student Evidence**
- When asked, students can describe the arrangement of materials in the library media center.
 - When asked, the student can locate Learning Tools, Destiny Library Catalog and other digital resources on the school or district web page.

3. Other Indicators of Performance

Directions:

The district shall provide:

- The additional performance indicators, if the district chooses to include such additional indicators pursuant to s. 1012.34(3)(a)4., F.S.;
- The percentage of the final evaluation that is based upon the additional indicators; and
- The scoring method, including how it is calculated and combined [Rule 6A-5.030(2)(d), F.A.C.].

Examples include the following:

- Deliberate Practice - the selection of indicators or practices, improvement on which is measured during an evaluation period
- Peer Reviews
- Objectively reliable survey information from students and parents based on teaching practices that are consistently associated with higher student achievement
- Individual Professional Development Plan
- Other indicators, as selected by the district

.....

ADDITIONAL METRIC

In addition to administrative observations and student performance data, the Deliberate Practice Score will be used as an additional metric. Deliberate Practice will be used for all instructional personnel; Classroom Teachers and Non-Classroom Teachers/Instructional Support Personnel. The additional metric was implemented in 2013-14 school year. Deliberate Practice will be rated as 5% for the 2016-2017 school year.

Educators will select two elements, from Domain 1, as the focus for the Deliberate Practice. A minimum of one element selected will be from identified “High Probability Elements”. Using data to determine areas for growth, educators will complete a self-assessment and commit to improving throughout the year in the two elements selected. The educator’s self-assessment rating will not count toward their evaluation. Based on the agreement with the Broward Teacher’s Union, the Deliberate Practice score will be Highly Effective (4.0) for every educator that completes and submits the self-assessment by the November 18, 2016 deadline, Effective (3.0) for every educator who starts the self-assessment on time but submits it after the deadline, Needs Improvement (2.0) for every educator who starts the self-assessment after the deadline, but submits it by April 28, 2017, and an Unsatisfactory (1.0) for the educator who does not start or submit the self-assessment by the April 28, 2017 deadline. Teachers determine their starting rating on each of the two elements and they must rate themselves as Not Using, Beginning, Developing, or Applying so that growth can be measured. It is recommended that educators receive a minimum of three datamarks from administration on each deliberate practice element.

The overall Deliberate Practice rating of will be calculated at 5% of the total evaluation

4. Summative Evaluation Score

Directions:

The district shall provide:

- The summative evaluation form(s); and
- The scoring method, including how it is calculated and combined; and
- The performance standards used to determine the summative evaluation rating. Districts shall use the four performance levels provided in s. 1012.34(2)(e), F.S. [Rule 6A-5.030(2)(e), F.A.C.].

.....

Determining Instructional Practice Score, Deliberate Practice Score, Student Performance Score and Final BrIDGES Rating for Classroom and Non-Classroom Teachers:

The following six-step process is used to determine an employee rating for the summative evaluation process.

Step 1: The evaluator rates each of the observed Elements within BrIDGES. There are four domains and a total of sixty elements to include Domain 1: Classroom Strategies and Behaviors will be implemented and Domains 2, 3, and 4 will be implemented in the second year of BrIDGES. The ratings for each element are valued as follows: Innovating – 4, Applying – 3, Developing 2.5, Beginning – 2, and Not Using – 1.

Step 2: The applicable evidence is compiled for each observed Element at each level (Highly Effective, Effective, etc.) for each of the four domains.

Step 3: For each domain, the percentage of the total amount of datamarks is determined. In 2016-177, the Domains will be weighted as follows:

Domain 1: 68 percent
Domains 2-4: 32 percent

Step 4: Domain 1 will be observed and will receive one rating and Domains 2-4 together will be scored and receive one rating. After weights from Step 3 are applied, the Instructional Practice is scored per the scale below.

<u>Status Score</u>	<u>Rating Scale:</u>
Highly Effective	3.450 – 4.000
Effective	2.500 – 3.449
Needs Improvement	2.000 – 2.499
Unsatisfactory	1.000 – 1.999

Step 5: The Deliberate Practice Score is determined as described in the Additional Metric section above. The Deliberate Practice rating will be calculated at 5% of the total evaluation.

Step 6: The Student Performance Rating will then be determined based on the appropriate methodology as shown above in Section 1 Performance of Students. Once these are identified, the Student Performance Rating will be converted to the following scale:

Highly Effective	3.450 - 4.000
Effective	2.500 - 3.4499
Needs Improvement	2.000 - 2.49999
Unsatisfactory	1.000 - 1.999999

Step 7: The Instructional Practice (61%), Deliberate Practice (5%), and Student Performance (34%) scores will be combined based on the appropriate weights. The final evaluation rating will be determined by this scale:

<u>Overall Score</u>	<u>Rating Scale</u>
Highly Effective	3.450 – 4.000
Effective	2.500 – 3.449
Needs Improvement	2.000 – 2.499
Unsatisfactory	1.000 – 1.999

When Student Performance Scores become available, they will be combined with the Instructional Practice and Deliberate Practice scores to create an overall evaluation rating. A conference will take place in the fall of the subsequent school year to share this overall evaluation rating.

5. Additional Requirements

Directions:

The district shall provide:

- Confirmation that the district provides instructional personnel the opportunity to review their class rosters for accuracy and to correct any mistakes [Rule 6A-5.030(2)(f)1., F.A.C.]
- Documentation that the evaluator is the individual who is responsible for supervising the employee. An evaluator may consider input from other personnel trained in evaluation practices. If input is provided by other personnel, identify the additional positions or persons. Examples include assistant principals, peers, district staff, department heads, grade level chairpersons, or team leaders [Rule 6A-5.030(2)(f)2., F.A.C.]
- Description of training programs and processes to ensure that all employees subject to an evaluation system are informed on evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place, and that all individuals with evaluation responsibilities and those who provide input toward evaluation understand the proper use of the evaluation criteria and procedures [Rule 6A-5.030(2)(f)3., F.A.C.]
- Description of processes for providing timely feedback to the individual being evaluated [Rule 6A-5.030(2)(f)4., F.A.C.]
- Description of how results from the evaluation system will be used for professional development [Rule 6A-5.030(2)(f)5., F.A.C.]
- Confirmation that the district will require participation in specific professional development programs by those who have been evaluated as less than effective as required by s. 1012.98(10), F.S. [Rule 6A-5.030(2)(f)6., F.A.C.]
- Documentation that all instructional personnel must be evaluated at least once a year [Rule 6A-5.030(2)(f)7., F.A.C.]
- Documentation that classroom teachers are observed and evaluated at least once a year [Rule 6A-5.030(2)(f)8., F.A.C.]
- Documentation that classroom teachers newly hired by the district are observed and evaluated at least twice in the first year of teaching in the district pursuant to s. 1012.34(3)(a), F.S. [Rule 6A-5.030(2)(f)8., F.A.C.]
- Documentation that the evaluation system for instructional personnel includes opportunities for parents to provide input into performance evaluations when the district determines such input is appropriate, and a description of the criteria for inclusion, and the manner of inclusion of parental input [Rule 6A-5.030(2)(f)9., F.A.C.]
- Identification of teaching fields, if any, for which special evaluation procedures and criteria are necessary [Rule 6A-5.030(2)(f)10., F.A.C.]
- Description of the district's peer assistance process, if any. Peer assistance may be part of the regular evaluation system, or used to assist personnel who are placed on performance probation, or who request assistance, or newly hired classroom teachers [Rule 6A-5.030(2)(f)11., F.A.C.]

Roster Verification Process

Florida Statute 1012.34(8) requires the State Board of Education to establish a process to permit instructional personnel to review the class roster for accuracy and to correct any mistakes relative to the identity of students for which the individual is responsible for. Teachers will use the FLDOE’s online Roster Verification Tool (RVT) to verify their rosters specifically for Survey 2 (October 2016) and Survey 3 (February 2017). This roster verification process reflects how personnel are going to be aligned to students for Student Growth purposes.

1. For each roster verification period, the District issues a memorandum to schools notifying them that school coordinator and teacher access has been opened for logging into the RVT.

3. These instructions highlight how teachers can add/remove students from their roster(s) and how they submit their verified rosters.
4. These instructions highlight how school coordinators can approve/deny roster changes made by teachers and how they submit their school’s verified rosters.
5. District then examines approvals and denials made by school coordinators and submits roster changes to FLDOE by deadline.

EVALUATORS

Evaluations will be conducted by the credentialed observer who supervises the employee to include principal, director, and his/her designee (assistant principal and supervisor). Input into the evaluation may also be provided from credentialed district staff. All employees must be oriented to the BrIDGES System by September 15th each year. Newly hired personnel must be oriented upon employment.

TRAINING

Training is required for school-based administrators and teachers to ensure BrIDGES is implemented with consistency across the District. Starting in 2013, all administrators must be credentialed in order to utilize the tool to observe and evaluate teachers. This credentialing process includes 30 hours of training on the Marzano Framework, evaluation procedures based on the Collective Bargaining Agreement (CBA) between the District and Broward Teachers Union (BTU), and written/content and video scoring assessments. Once credentialed, there is ongoing training for administrators to include Instructional Rounds for the purpose of strengthening evaluator accuracy and inter-rater reliability, updates, site support, and remediation are provided to administrators based on needs.

The evaluation of instructional personnel is part of the site-based administrator's evaluation. It is the responsibility of the supervising Director to ensure that evaluations of instructional personnel are aligned with the requirements of the evaluation system. The Employee Evaluations Department meets with administrators, principal supervisors, and other stakeholders to ensure that training needs are met.

Observer Development

Principals, Assistant Principals, and District Administrators are provided with annual updates for the BrIDGES Instruments in order for the supervisors to orient their instructional staff. The Employee Evaluations Department maintains a credentialing process for all observers for the duration of the BrIDGES evaluation system.

Educator Development

Professional learning will be available on an on-going basis for deepening the knowledge and skill at all employee levels. The District developed and offered various courses and delivery methods to all educators who wish to increase their awareness and performance in the BrIDGES. A process has been developed to assist employees, identified as needing improvement or unsatisfactory, in getting sound professional assistance and development to help correct job performance deficiencies. Other skilled individuals may be assigned, as appropriate, to increase employees' opportunities to succeed. As the District continues to develop support structures such as mentors, coaches, and peer reviewers, the District will determine and provide the appropriate training and development.

Timely Feedback

Feedback, either electronically submitted and/or during a post observation conference or meeting will be entered or conducted within 10 working days of the meeting or observation to ensure timely feedback.

Observations of Probationary Teachers

Probationary teachers will receive a minimum of two formal observations, within the first year of teaching, as statute requires that they receive two evaluations within the first year of teaching. Student performance data will be discussed/shared as a regular part of the observation process. Types of student performance data that may be included in the data discussions are Benchmark Assessment Tests (BAT), mini-BATs, DAR, STAR, Accelerated Reader, previous FCAT data, FAIR, as well as other appropriate assessments of student performance as they are developed and implemented. Data chats will be conducted by either a site-based administrator or designee. Probationary teachers will receive feedback on their performance after each formal observation.

Observations of Non-probationary Teachers

Non-probationary teachers will receive formal, informal, and/or walkthrough observations. Non-classroom teachers may receive feedback through meetings with supervising administrator. Student performance data will be discussed/shared as a regular part of the observation process. Types of student performance data that may be included in the data discussions are Benchmark Assessment Tests (BAT), mini-BATs, DAR, STAR, Accelerated Reader, previous FCAT data, FAIR, as well as other appropriate assessments of student performance as they are developed and implemented. Teachers are required to receive feedback after each formal observation and may receive feedback after all other observations.

Evaluation of Annual, Continuing, and Professional Services Contract Teachers

Employees on an Annual, Continuing, or Professional Service Contract will be evaluated once annually. The evaluation conference will be conducted by the principal and/or his/her designee. The conference may include a discussion of all ratings on the evaluation form, observations, a review of student data, and any other evidence included in the process.

Evaluation of Classroom Teachers:

All classroom teachers will be evaluated using the BrIDGES for classroom teachers. This instrument contains 41 elements within Domain 1 and 19 elements within Domains 2, 3, and 4.

Evaluation of Non-classroom Teachers:

All teachers who have a job classification coded as non-classroom teacher will be evaluated using the BrIDGES for non-classroom teachers. This will include three groups of non-classroom teachers; Specialized Teachers/Support, Psychologists/Social Workers/Counselors/Technical Support, and Media. These instruments contain 41 elements within Domain 1 and 19 elements within Domains 2, 3, and 4.

Evaluation of Probationary (First Year) Teachers

Observation and evaluation of a probationary employee will be conducted twice in his/her first year of employment in the District.

- If hired on or before November 15, 2016, the teacher will receive the first evaluation at the end of the first semester. The second evaluation will be completed at the end of the school year.
- If hired after November 15, 2016 the teacher will receive the first evaluation at the end of the school year and the second evaluation by November 15th of the following school year.
- If hired last school year (after November 15, 2015) and renewed in 2016-2017, the teacher must receive their second evaluation on/before November 15, 2016
- If hired after the 99th school day, the teacher will receive the first evaluation at the end of the school year.

Observations, documentation, and conferences completed for these employees supports the completion of the evaluation form required or the BrIDGES.

Parental Input

Parents will be notified in writing by each school administration of their right to provide input into employee performance assessments when appropriate in accordance with F.S. 1012.34.

Peer Assistance

A Peer Reviewer will be deployed by the Employee Evaluations Department based on the review of Beginning and/or Not Using datamarks and current Instructional Practice Score for teachers district wide. Teachers on a Performance Development Plan (PDP) or that may be placed on a PDP will be a priority for this assistance. The Peer Reviewer will mentor, model, co-teach and/or provide non-evaluative feedback to select teachers. Peer Reviewer assistance is in addition to, and not to replace the support already established at the work location.

6. District Evaluation Procedures

Directions:

The district shall provide evidence that its evaluation policies and procedures comply with the following statutory requirements:

- In accordance with s. 1012.34(3)(c), F.S., the evaluator must:
 - submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract [Rule 6A-5.030(2)(g)1., F.A.C.].
 - submit the written report to the employee no later than 10 days after the evaluation takes place [Rule 6A-5.030(2)(g)2., F.A.C.].
 - discuss the written evaluation report with the employee [Rule 6A-5.030(2)(g)3., F.A.C.].
 - The employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file [Rule 6A-5.030(2)(g)4., F.A.C.].
- The district shall provide evidence that its evaluation procedures for notification of unsatisfactory performance comply with the requirements outlined in s. 1012.34(4), F.S. [Rule 6A-5.030(2)(h), F.A.C.].
- Documentation the district has complied with the requirement that the district school superintendent shall annually notify the Department of any instructional personnel who receive two consecutive unsatisfactory evaluations and shall notify the Department of any instructional personnel who are given written notice by the district of intent to terminate or not renew their employment, as outlined in s. 1012.34(5), F.S. [Rule 6A-5.030(2)(i), F.A.C.].

USE OF EVALUATION RATINGS TO INFORM HUMAN CAPITAL DECISIONS

Teacher and school administrator evaluation results are a component used to inform the district's human capital decisions. Human capital decisions include, but are not limited to, the determination of professional development, assignment of support structures, renewal of contract or reappointment, transfers, promotions or additional responsibilities, and/or termination of employment, and compensation.

Notification of Unsatisfactory Performance and Intervention

Pursuant to F.S. 1012.34(4), If an employee who holds a professional service contract is not performing his or her duties in a satisfactory manner, the evaluator will notify the employee in writing of such determination.

- a) If/when an educator receives a Not Using rating, the administrator shall give feedback to the educator through brief comments and/or summary remarks that promote growth. This feedback may be verbal and/or written.
- b) Once an educator receives 5 Beginning/Not Using datamarks, the administrator is encouraged to have an informal discussion with the educator to share recommended strategies for improvement.

- c) Once an educator accumulates additional Beginning/Not Using datamarks, support will be provided through site-based support and/or Peer Reviewer assistance and an administrator will meet with the educator to discuss the areas of concern and explain possible consequences if the employee fails to improve.
- d) Once an educator receives 10 or more Beginning and/or Not Using Datamarks, has a current, average Instructional Practice score of Needs Improvement or Unsatisfactory, at least two formals and one additional observation, a Performance Development Plan may be written. If a plan is developed, it shall be done by a credentialed administrator in collaboration with the educator.

Evaluation

The individual responsible for supervising the employee will evaluate the employee's performance, but may consider input from other credentialed personnel. The evaluator will submit the written report to the employee no later than 10 days after the final evaluation takes place. The employee will have access to the final Instructional Practice score by the last week of school. The evaluator will meet with each teacher to discuss areas of professional practice for growth and areas to maintain effectiveness. The final Instructional Practice Score is discussed with the employee in detail with a full explanation of the final rating. The employee will have the right to initiate a written response to the evaluation, and the response will become a permanent attachment to his or her personnel file. The evaluator will submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.

Superintendent Annual Notification

The District school superintendent shall annually notify the Department of Education of any instructional personnel who receive two consecutive unsatisfactory evaluations; three consecutive needs improvement evaluations, or three consecutive years of a combination of needs improvement and/or unsatisfactory evaluations. The district school superintendent shall also notify the Department of Education of any instructional personnel who are given written notice by the district of intent to terminate or non-renew their employment.

7. District Self-Monitoring

Directions:

The district shall provide a description of its process for annually monitoring its evaluation system. The district self-monitoring shall determine the following:

- Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability; [Rule 6A-5.030(2)(j)1., F.A.C.]
- Evaluators provide necessary and timely feedback to employees being evaluated; [Rule 6A-5.030(2)(j)2., F.A.C.]
- Evaluators follow district policies and procedures in the implementation of evaluation system(s); [Rule 6A-5.030(2)(j)3., F.A.C.]
- Use of evaluation data to identify individual professional development; [Rule 6A-5.030(2)(j)4., F.A.C.]
- Use of evaluation data to inform school and district improvement plans [Rule 6A-5.030(2)(j)5., F.A.C.]

An Evaluation Sub-Committee, including appropriate stakeholders has been established. The committee meets regularly to discuss the operations of the teacher evaluation system and make recommendations for changes as necessary.

It will be the responsibility of the supervising Director to ensure that evaluations of instructional personnel are aligned with the requirements of the evaluation system.

Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability; [Rule 6A-5.030(2)(j)1., F.A.C.]

Since 2013, all administrators have been and continue to be required to be credentialed in order to utilize the tool to observe and evaluate teachers. This credentialing process includes the following:

- 30 hours of training on the Instructional Framework, evaluation criteria based on the procedures listed within the Collective Bargaining Agreement, and written/content and video scoring assessments.
- The credentialing process also includes visits to neighboring schools to allow new administrators the opportunity to observe teachers, share/calibrate what ratings would be awarded during an actual observation.
- Every new administrator must attend all the calibration sessions and demonstrate proficiency on all assessments.
- Assessment videos are updated and aligned to current research, as needed. If an administrator needs additional assistance in content and/or observing teachers, the select administrator(s) are remediated and reassessed.

Once credentialed, ongoing monitoring/training for administrators is provided. Sessions include the following:

- Site-based Instructional Rounds for the purpose of strengthening evaluator accuracy and inter-rater reliability within select buildings.
- Instructional Rounds at Principal Zone Meetings, where a group of administrators visit classrooms and calibrate their scoring practices. Principal supervisors participate and provide ongoing feedback at these sessions as well as individual site visits.

Evaluators provide necessary and timely feedback to employees being evaluated; [Rule 6A-5.030(2)(j)2., F.A.C.]

A pre-conference is offered to every educator prior to the first formal observation. Probationary educators attend a face-to-face meeting while experienced educators may attend a meeting or elect to communicate electronically.

A post-conference is provided following every formal observation. The post-observation conference is scheduled within 10 working days following the formal observation.

Teachers are provided the opportunity to communicate with the observing administrator to discuss any rating awarded, within 10 days after the observation is entered into the electronic system in order to ensure timely feedback.

Teachers and/or administrators have the opportunity to discuss any datamark awarded in an effort to build on instructional strategies.

Evaluators follow district policies and procedures in the implementation of evaluation system(s); [Rule 6A-5.030(2)(j)3., F.A.C.]

The principal, assistant principals, and District administrators (who have teachers within their department) have ongoing discussions focused on BrIDGES and effective instructional strategies. Administrators are responsible for ensuring that each instructional employee is oriented to the system and that the required evaluation is completed.

The Employee Evaluations Department coordinates training programs for assessors and educators as it relates to the evaluation system. This department makes direct interventions with principals and teachers when performance is determined to be unsatisfactory less than effective and deploys Peer Reviewers to assist select educators in need of improving performance.

Educators are oriented to the evaluation system annually and by September 15th.

The Employee Evaluations Department meetings with the Broward Teachers Union (BTU) through an Evaluation Sub-Committee venue. During these meetings, evaluation concerns and recommendations are discussed.

Use of evaluation data to identify individual professional development; [Rule 6A-5.030(2)(j)4., F.A.C.]

Evaluation data is reviewed weekly to identify teachers in need of instructional practice assistance. Once identified, select teachers receive support from site-based Instructional Coaches as well as Peer Reviewers, who are teachers deployed to model, co-teach and provide non-evaluative feedback to teachers.

Monthly reports are pulled to monitor all site-based data. Feedback on these reports include progress towards meeting compliance, calibration reviews by site, and tracking for probationary teacher evaluation/timelines, attendance for teachers on an approved leave. The Employee Evaluations Department meets with principals' supervisors to review observation trends and sitebased data.

Evaluation data is shared with The Office of Academics to assist in developing and providing professional development courses.

Use of evaluation data to inform school and district improvement plans [Rule 6A-5.030(2)(j)5., F.A.C.].

Teachers, administrators, and administrator supervisors reflect on current data (Instructional Practice/Deliberate Practice Scores) that is real-time within the electronic observation/evaluation system and summative data (Student Performance Scores) as soon as it becomes available.

The Employee Evaluations Department attends District, Principal, and Assistant Principal meetings to share data and provide information to support school improvement plans.

Appendix A – Checklist for Approval

Performance of Students

The district has provided and meets the following criteria:

For all instructional personnel:

- The percentage of the evaluation that is based on the performance of students criterion.
- An explanation of the scoring method, including how it is calculated and combined.
- At least one-third of the evaluation is based on performance of students.

For classroom teachers newly hired by the district:

- The student performance measure(s).
- Scoring method for each evaluation, including how it is calculated and combined.

For all instructional personnel, confirmed the inclusion of student performance:

- Data for at least three years, including the current year and the two years immediately preceding the current year, when available.
- If less than the three most recent years of data are available, those years for which data are available must be used.
- If more than three years of student performance data are used, specified the years that will be used.

For classroom teachers of students for courses assessed by statewide, standardized assessments:

- Documented that VAM results comprise at least one-third of the evaluation.
- For teachers assigned a combination of courses that are associated with the statewide, standardized assessments and that are not, the portion of the evaluation that is comprised of the VAM results is identified, and the VAM results are given proportional weight according to a methodology selected by the district.

For all instructional personnel of students for courses not assessed by statewide, standardized assessments:

- For classroom teachers, the district-determined student performance measure(s) used for personnel evaluations.
- For instructional personnel who are not classroom teachers, the district-determined student performance measure(s) used for personnel evaluations.

Instructional Practice

The district has provided and meets the following criteria:

For all instructional personnel:

- The percentage of the evaluation system that is based on the instructional practice criterion.
- At least one-third of the evaluation is based on instructional practice.
- An explanation of the scoring method, including how it is calculated and

combined.

- The district evaluation framework for instructional personnel is based on contemporary research in effective educational practices.

For all instructional personnel:

- A crosswalk from the district's evaluation framework to the Educator Accomplished Practices demonstrating that the district's evaluation system contains indicators based upon each of the Educator Accomplished Practices.

For classroom teachers:

- The observation instrument(s) that include indicators based on each of the Educator Accomplished Practices.

For non-classroom instructional personnel:

- The evaluation instrument(s) that include indicators based on each of the Educator Accomplished Practices.

For all instructional personnel:

- Procedures for conducting observations and collecting data and other evidence of instructional practice.

Other Indicators of Performance

The district has provided and meets the following criteria:

- Described the additional performance indicators, if any.
- The percentage of the final evaluation that is based upon the additional indicators.
- The scoring method, including how it is calculated and combined.

Summative Evaluation Score

The district has provided and meets the following criteria:

- Summative evaluation form(s).
- Scoring method, including how it is calculated and combined.
- The performance standards used to determine the summative evaluation rating (the four performance levels: highly effective, effective, needs improvement/developing, unsatisfactory).

Additional Requirements

The district has provided and meets the following criteria:

- Confirmation that the district provides instructional personnel the opportunity to review their class rosters for accuracy and to correct any mistakes.
- Documented that the evaluator is the individual who is responsible for supervising the employee.

- Identified additional positions or persons who provide input toward the evaluation, if any.

Description of training programs:

- Processes to ensure that all employees subject to an evaluation system are informed on evaluation criteria, data sources, methodologies, and procedures associated with the evaluation before the evaluation takes place.
- Processes to ensure that all individuals with evaluation responsibilities and those who provide input toward evaluation understand the proper use of the evaluation criteria and procedures.

Documented:

- Processes for providing timely feedback to the individual being evaluated.
- Description of how results from the evaluation system will be used for professional development.
- Requirement for participation in specific professional development programs by those who have been evaluated as less than effective.
- All instructional personnel must be evaluated at least once a year.
- All classroom teachers must be observed and evaluated at least once a year.
- Newly hired classroom teachers are observed and evaluated at least twice in the first year of teaching in the district.

For instructional personnel:

- Inclusion of opportunities for parents to provide input into performance evaluations when the district determines such input is appropriate.
- Description of the district's criteria for inclusion of parental input.
- Description of manner of inclusion of parental input.
- Identification of the teaching fields, if any, for which special evaluation procedures and criteria are necessary.
- Description of the district's peer assistance process, if any.

District Evaluation Procedures

The district has provided and meets the following criteria:

- That its evaluation procedures comply with s. 1012.34(3)(c), F.S., including:
 - That the evaluator must submit a written report of the evaluation to the district school superintendent for the purpose of reviewing the employee's contract.
 - That the evaluator must submit the written report to the employee no later than 10 days after the evaluation takes place.
 - That the evaluator must discuss the written evaluation report with the employee.
 - That the employee shall have the right to initiate a written response to the evaluation and the response shall become a permanent attachment to his or her personnel file.
- That the District's procedures for notification of unsatisfactory performance meet the requirement of s. 1012.34(4), F.S.

- That district evaluation procedures require the district school superintendent to annually notify the Department of any instructional personnel who receives two consecutive unsatisfactory evaluations and to notify the Department of any instructional personnel who are given written notice by the district of intent to terminate or not renew their employment, as outlined in s. 1012.34, F.S.

District Self-Monitoring

The district self-monitoring includes processes to determine the following:

- Evaluators' understanding of the proper use of evaluation criteria and procedures, including evaluator accuracy and inter-rater reliability.
- Evaluators provide necessary and timely feedback to employees being evaluated.
- Evaluators follow district policies and procedures in the implementation of evaluation system(s).
- The use of evaluation data to identify individual professional development.
- The use of evaluation data to inform school and district improvement plans.
