30	\$ 70,543.20	\$ 65,101.60	\$ 60,572.00	\$ 56,939.20	\$55,434.40

*To calculate your annual salary if you're a 195, 200, 210, or 218 day teacher:

1. Find your corresponding DBM and Step/Years of experience
2. Divide the annual salary by 190
3. Multiply that amount by the # of days worked (195/200/210/218)
4. Multiply the total salary by your appropriate fte and this is the annual salary

Example: DBM C41/Step 15 at 210 days
 $46,770.40/190=246.16$
 $246.16*210 \text{ days} = 51,693.60$
 $51,693.60 * .80 \text{ fte} = 41,354.88 \text{ annual salary}$
