

The grandfathered teacher's salary schedule is on p. 51 (pdf) and the performance-based teacher's salary schedule is on p. 53 (pdf). For NCTQ's analysis, the assumption was made - per the notes on pp. 51 & 53 (pdf) - that new hires are placed on the BA lane of the grandfathered salary schedule and that those with advanced degrees will receive the specified stipend (see p. 53 (pdf)). After the first year in the district, a teacher's salary will increase with any annual negotiated adjustment and/or the performance pay increases for teachers rated Highly Effective or Effective (see p. 53 (pdf)).

Once established, the teacher shall be placed on Performance Schedule at the established salary.

Teachers rated as Highly Effective (HE) shall receive a performance increase of \$2,001 and teachers rated as Effective (E) shall receive a performance increase of \$1,000.50. Teachers with performance ratings of less than Effective (E) will not be eligible for Performance increases and shall retain the same salary.

TEACHER SALARY SCHEDULE DEFINITIONS AND PLACEMENT PROCEDURES

Level: A level represents one (1) year of recognized teaching experience.

Level Movement

A teacher who has worked ninety-nine (99) or more days in Duval County during the proceeding school year shall be advanced one (1) level.

Salary Placement and Experience Verification

A teacher with no prior years of eligible experience shall be placed at Level 01. Column movement shall be based on highest degree recorded in the human resource services office.

Maximum Credit

Teaching experience as defined below may be allowed up to the maximum number of levels on the teacher's salary schedule.

Teaching experience must be verified efficient full-time teaching in the public school systems of Florida (including services as set forth in Florida Statutes (Section 238.01(4)) or verified efficient fulltime teaching service in institutions not a part of the public school systems in Florida (public schools of other states of the United States, higher educational institutions, private and parochial schools, accredited nursing schools, or full-time and specifically designated instructional service in a federal, state, or local school other than those which are part of the school system of Florida).

Teaching experience may be granted only if the teacher had earned a four-year degree prior to the experience and had a valid state issued professional certificate covering the verified years. Credit for teaching experience from public schools outside of the United States shall be granted based on the criteria stated above. It is the employee's responsibility to identify all previous employers and request verification of the experience on forms provided by the Human Resource Department. The employee shall follow up on any verification not received. Salary adjustments will be made retroactive to the beginning date of employment for the school year in which the verification form is received.

Up to ten (10) years of prior experience of a specialized nature may be allowed for non-certificated personnel employed under 6A-1.0502, Florida State Board of Education Rules.

Active military service may be allowed at a rate of one (1) year for each twelve (12) months of continuous service up to a maximum of four (4) years.

Vocational experience may be allowed on a year-for-year basis, up to ten (10), for vocational education teachers. Experience must be appropriate to the field and meet the employment criteria used by the State Department of Education to establish eligibility for issuance of a regular vocational certificate. This experience is creditable only during the teacher's employment in a regular vocational program.

Work Experience granted an occupational specialist for placement on the teacher's salary schedule is valid only during the person's employment as an occupational specialist. Subsequent employment in a regular teaching position requires the deletion of previously granted credit for work experience.

Experience credit may be granted to a speech/language pathologist for prior employment as a speech/language pathologist in a clinical setting while working under professional licensure from a department of professional regulation or from another state licensure bureau. Credit for combined years of prior experience as a school speech/language pathologist shall be allowed at a rate of one (1) year for each of twelve (12) months continuous service up to a maximum of ten (10) years.

Audiologists hired by the Employer, may be given credit on the teacher salary schedule for professional audiology experience done under professional licensure. Credit for combined years of prior experience as a teacher, military experience or professional audiology, experience shall be allowed at a rate of one (1) year for each of the twelve (12) months continuous service up to a maximum of ten (10) years, as per credit requirements in the Salary Guidelines.

Credit for combined years of prior experience as a teacher, military experience or professional social work, experience shall be allowed at a rate of one (1) year for each of the twelve (12) months continuous service up to a maximum of ten (10) years, as per credit requirements in the Salary Guidelines.

Duval County Paraprofessional or Clerical Experience

Effective July 1, 1989, Duval County Public Schools full-time paraprofessional or full-time clerical experience shall be allowed as teaching experience credit for placement on the teacher's salary schedule at a rate of one (1) year for each full school year of service (10, 11, or 12 months) up to a maximum of six (6) years. Time as a probationary clerical employee may be used for experience credit when other requirements have been met.

Fractional Parts of School Years

Fractional parts of different school years will not be added together for credit purposes, nor will fractional parts of years of military service. However, a person ordered to active duty while serving as a contractual teacher in Duval County during the school year and prior to completion of one (1) day more than one-half of the normal contractual period, will be credited with the full year of experience (other) provided the person remained in the military service beyond the close of the school year in which he/she entered the service and provided he/she returned to Duval County Public Schools within twelve (12) months after release from the service.

Prior Agreements: Teachers employed prior to October 1, 1985, shall be granted experience based on prior agreements.

JROTC INSTRUCTORS

If combined military and School Board contributions produce a monthly income less than the amount the instructor would earn on the teacher salary schedule with an equivalent degree and with equivalent experience, the School Board will contribute an additional sum to equalize compensation. If the instructor has not earned a degree, comparison for compensation will be at the bachelor's degree level.

TERMS OF EMPLOYMENT

The regular period of employment for ten (10) months instructional employees shall be 196 days. For twelve (12) months instructional employees, the number of workdays shall be 262.

PAYMENT OF SALARY

No instructional employee shall receive pay unless requirements of the laws of the State of Florida and policies of the Duval County School Board related to employment have been met. Salaries shall be paid in accordance with approved salary schedules. Both degree level and experience requirements must be satisfied as detailed by contracts and/or salary schedule guidelines.

When compensation is made in error, Florida Statutes require the payment/collection of salary underpayments/overpayments. Liability to the employer or employee for underpayments/overpayments is four (4) years.

INCENTIVE PAY

Employees holding regular certification may earn an additional \$300 per year upon successful completion of 15 semester or 22 quarter hours of credit at a fully-accredited institution of higher learning. Credits earned and applied must be part of a planned program of studies leading to an advanced degree or to adding areas of certification. Courses must be approved in advance.

Payment of incentive pay shall be effective upon completion of the required credits as indicated on the official transcript or grade report bearing the seal of the institution and shall continue for a period of no longer than five (5) years. If the academic requirements are completed prior to September 1st of a school year, the entire supplement will be paid. If the requirements are completed after September 1st, a prorated share will be paid based upon the percentage of the normal work year remaining. Evidence of completion of the required credits must be filed with the Chief Officer, Human Resource Services.

An employee may apply credits earned under provisions of this policy only once at each certificate degree level or equivalent degree status. Credit for courses successfully completed as part of a program of studies approved at a lower level of certification may not be carried forward and applied to the requirements for incentive pay at a higher certificate degree level. A candidate must receive approval for a new program of studies at each certificate level.

When an employee becomes eligible and is issued a higher degree level certificate, he/she shall receive the salary specified in the salary schedule, and incentive pay shall cease. Incentive pay is a supplement to salary.

Employees eligible for incentive pay prior to July 1, 1982, shall not be subject to the five (5) year limitation. District level employees paid from the administrator and supervisor salary schedule are not eligible for incentive pay.

VERIFYING EXPERIENCE

It is the employee's responsibility to identify all previous employers and request verification of experience on forms provided by the Human Resource Services Department. All types of experience claimed should be officially verified as soon as possible after the date of employment and mailed directly to Human Resource Services. It is the employee's responsibility to follow-up on any verification not received. On receipt of the experience verification form, a salary adjustment will be made retroactive to the person's beginning date of employment for the school year in which the verification form is received.

ADJUSTMENT FOR CHANGE OF DEGREE

A teacher's salary shall be adjusted for a change in degree provided the teacher presents documentation to the Human Resource Services Department. Documentation shall be defined as an official transcript from an accredited degree-granting authority indicating the higher degree and the date the higher degree was conferred. When an employee submits a transcript indicating a higher degree, the effective date of the salary increase will be as follows:

1. If the degree was conferred and the transcript was received in the Human Resource Services during the same school year, the effective date of the salary increase will be the date of the degree conferral.
2. If the degree is conferred in a school year prior to the school year the transcript is received in Human Resource Services, the effective date of salary increase will be the beginning date of employment for the school year in which the transcript is received.
3. Teachers hired new to the District July 1, 2011 or after, are entitled to a One Time Payment for one Advanced Degree, Paid over one year.

CERTIFICATION DEADLINE

In order to keep a certificate valid and continuous, an employee must complete all certification requirements and have an application for certificate renewal on file with the Department of Education. The deadline for completing an application is June 30th of the certificate expiration year.

SALARY SUPPLEMENTS: EXPLANATIONS AND REGULATIONS

1. Each year, principals submit supplement recommendations to the Human Resource Employee Support for assignment.
2. Activities for which supplements are received shall not have overlapping seasons. A season is defined as that period of time extending from the first date of competition to the last date of competition. (Seasons are published each year as "Dates of Athletic Contests in Duval County" by the Athletics/Physical Education office.)
3. A coach may not receive additional remuneration from revenues of athletic contests or other school activities except when he/she is employed as a referee, umpire, or official by agencies other than the school unit in which he/she is employed. (This policy does not preclude the incidental employment of a coach, other than the athletic director, in a game management activity for which the employee does not receive a supplement.)
4. An employee who draws two or more athletic supplements, or whose total supplement income exceeds \$2624, must be available for coaching assignment by the athletic director for athletic or intramural program duties during the school year.
5. Athletic personnel are to be assigned a regular teaching load by the principal. The athletic director's supplement will be reduced by \$561 if he/she elects to have his/her teaching load reduced by one period daily.
6. An intramural supplement may be divided into thirds and prorated accordingly for assignment and pay.
7. Whenever schedules require the employee to participate in practice or other activities prior to the start of the employee's contract year, workers' compensation coverage shall be in effect.
8. When a season is not completed, the coach will be paid on a pro-rated basis, based on the portion of the season completed. Amount to be determined by Human Resource Support Services.
9. School patrol supplement shall be limited to two (2) persons and shall not be subdivided, for each elementary school.
