

New Teacher

Supporting Teachers through Exemplary Practice

HISD's comprehensive teacher induction program begins with week-long, rigorous summer New Teacher Academy and continues throughout the school year with timely, targeted professional learning opportunities grounded in the HISD Instructional Practice Rubric.

School year support includes eight New Teacher Saturday Learnings, bi-monthly instructional technology and Teach Like a Champion technique sessions, and monthly New Teacher Touch Points.

TADS

As a new teacher to HISD, part of your required preparation includes completing the Teacher Appraisal and Development System (TADS) training course within 15 instructional days of your start date. The Teacher Appraisal and Development System is designed to provide all teachers with regular, tailored feedback and individualized support in order to have the greatest impact on student learning outcomes. TADS training is offered during New Teacher Academy or during pre-service, August 14th or 20th.
