

Summary of Louisiana Teacher Policies:

- ★ Best Practice
- Meets Goal
- ◐ Nearly Meets Goal
- ◑ Partly Meets Goal
- ◒ Meets a Small Part of Goal
- Does Not Meet Goal

Progress on Goals Since 2015

- ▲ Progress Increased: 2
- ▼ Progress Decreased: 1

A state's progress on policy was tracked solely for goals that remained constant between 2015 and 2017.

Teacher Policy Strengths and Areas for Growth Louisiana

POLICY AREA	LOUISIANA'S STRENGTHS	LOUISIANA'S OPPORTUNITIES FOR GROWTH
AREA 1: GENERAL TEACHER PREPARATION		
Program Entry		The state should require that all teacher preparation programs limit admission to applicants with either a minimum 3.0 GPA or those who have scored in the top half of all college-going students, not just the prospective teacher population, on tests of academic proficiency.
Teacher Shortages and Surpluses		The state should publish data on teacher production that connect program completion, certification, and district hiring statistics, and also provide guidance regarding program acceptance numbers.
Program Performance Measures	The state connects program graduates' student growth data to their teacher preparation programs.	
Program Reporting Requirements	The state holds teacher preparation programs accountable for meeting performance standards and for the quality of teachers they produce.	
Student Teaching/ Clinical Practice		The state should require that cooperating teachers are selected based on evidence of effectiveness and that the clinical practice experience is at least 10 weeks, full time, and takes place in the setting of the license sought.
AREA 2: ELEMENTARY TEACHER PREPARATION		
Content Knowledge	The state requires elementary teacher candidates to pass a content test with individually scored subtests in each of the core content areas.	
Teaching Mathematics	The state's elementary content test includes an independently scored math subtest.	
Teaching Reading		The state should require elementary teacher candidates to pass a science of reading test to ensure knowledge of effective reading instruction
Licensure Deficiencies	The state requires early childhood education teachers who are eligible to teach elementary grades to pass a content test with individually scored subtests in each of the core content areas and be fully prepared to meet the instructional shifts associated with college- and career-readiness standards.	
AREA 3: SECONDARY TEACHER PREPARATION		
Middle School Content Knowledge	The state requires middle school teachers to pass a rigorous single-subject content test.	
Middle School Licensure Deficiencies	The state does not allow middle school teachers to teach on a K-8 generalist license.	
Adolescent Literacy	The state requires that middle school and secondary candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.	
Secondary Content Knowledge	The state requires all secondary teachers to pass a single-subject content test as a condition of initial licensure.	
Secondary Licensure Deficiencies		The state should require secondary general science teachers and secondary social studies teachers to pass a single-subject content test for each discipline they are licensed to teach.
AREA 4: SPECIAL EDUCATION TEACHER PREPARATION		
Content Knowledge	The state requires elementary special education teachers to pass the same content test as general elementary education teachers and secondary special education teachers demonstrate content knowledge in core subjects at the secondary level.	

Teaching Reading		The state should require that elementary special education candidates pass a rigorous assessment in the science of reading instruction.
Licensure Deficiencies	The state requires elementary or secondary special education certification.	
AREA 5: ALTERNATE ROUTE TEACHER PREPARATION		
Program Entry	The state requires all alternate route candidates to pass a subject-matter test prior to admission.	
Preparation for the Classroom		The state should require that all alternate route programs prepare new teachers for the classroom through manageable and relevant coursework, intensive mentoring and induction, and a supervised practice teaching experience.
AREA 6: HIRING		
Requirements for Out-of-State Teachers		The state should require evidence of effective teaching during previous employment for licensure reciprocity, ensure out-of-state teachers meet the state's testing requirements, and offer a standard license to certified out-of-state teachers without unnecessary requirements.
Provisional and Emergency Licensure		The state should ensure teachers' subject-matter knowledge before granting emergency licensure, and restrict emergency licensure to no more than one year.
AREA 7: TEACHER AND PRINCIPAL EVALUATION		
Measures of Student Growth		The state should ensure objective evidence of student growth is the determinative factor in teacher evaluations.
Measures of Professional Practice	The state requires that all teacher evaluations include observations, and be conducted by trained and certified evaluators.	
Frequency of Evaluation and Observation	The state requires that all teachers are evaluated annually.	
Linking Evaluation to Professional Growth	The state requires that teachers are supported with adequate evaluation feedback, aligned professional development, and improvement plans (for ineffective teachers), under a system with four rating categories.	
Data Systems Needed for Evaluation	The state adequately defines teacher of record, has a process in place for teacher roster verification, has the capacity to link student-level data and teacher performance, and publishes teacher mobility data.	
Distributing Teacher Talent Equitably	The state reports school-level data about teacher performance to help support the equitable distribution of teacher talent.	
Principal Effectiveness		The state should require that principal effectiveness is determined, in part, by teacher effectiveness/instructional leadership and survey data.
Principal Evaluation and Observation	The state requires all principals to be annually evaluated by trained and certified evaluators, and requires all principals to be observed/visited on-site.	
AREA 8: TEACHER COMPENSATION		
Performance	The state's performance pay policy rewards effective teachers.	
High-Need Schools and Subjects	The state enables teachers to earn additional pay for working in high-need schools and teaching in shortage subject areas.	
Prior Work	The state encourages districts to compensate new teachers with relevant prior work experience.	
AREA 9: RETAINING EFFECTIVE TEACHERS		
Licensure Advancement	The state bases licensure advancement and renewal on teacher effectiveness.	
Tenure	The state requires tenure decisions to be connected to evidence of teacher effectiveness.	
Leadership Opportunities	The state supports teacher leadership opportunities.	
Dismissal		The state should enable ineffective classroom performance to be a basis for dismissal, and not allow multiple appeals for teachers who are dismissed.
Layoffs	The state requires evidence of effectiveness to be the top criterion districts use when determining which teachers to lay off during reductions in force.
