

Summary of Oklahoma Teacher Policies:

- ★ Best Practice
- Meets Goal
- ◐ Nearly Meets Goal
- ◑ Partly Meets Goal
- ◒ Meets a Small Part of Goal
- Does Not Meet Goal

Progress on Goals Since 2015

- ▲ Progress Increased: 0
- ▼ Progress Decreased: 2

A state's progress on policy was tracked solely for goals that remained constant between 2015 and 2017.

Teacher Policy Strengths and Areas for Growth Oklahoma

POLICY AREA	OKLAHOMA'S STRENGTHS	OKLAHOMA'S OPPORTUNITIES FOR GROWTH
AREA 1: GENERAL TEACHER PREPARATION		
Program Entry		The state should require that teacher preparation programs only admit students who do not have a 3.0 GPA if those students score in the top half of all college-going students, not just prospective teachers, on a test of academic proficiency.
Teacher Shortages and Surpluses		The state should publish data on teacher production that connect program completion, certification, and district hiring statistics, and also provide guidance regarding program acceptance numbers.
Program Performance Measures		The state should connect program graduates' student growth data to their teacher preparation programs.
Program Reporting Requirements	The state holds teacher preparation programs accountable for meeting performance standards and for the quality of teachers they produce.	
Student Teaching/ Clinical Practice		The state should require that cooperating teachers are selected based on evidence of effectiveness and that the clinical practice experience takes place in the setting of the license sought.
AREA 2: ELEMENTARY TEACHER PREPARATION		
Content Knowledge		The state should require elementary teacher candidates to pass a content test with individually scored subtests in each of the core content areas.
Teaching Mathematics		The state should require all elementary teacher candidates to pass a rigorous elementary math content exam in order to attain licensure.
Teaching Reading	The state requires that elementary teacher candidates pass a science of reading test to ensure knowledge of effective reading instruction and teacher preparation programs address this critical topic.	
Licensure Deficiencies		The state should require early childhood education teachers who are eligible to teach elementary grades to pass an elementary content test with individually scored subtests in each of the core content areas and be fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
AREA 3: SECONDARY TEACHER PREPARATION		
Middle School Content Knowledge	The state requires middle school candidates with a middle grades license to pass a rigorous single-subject content test.	
Middle School Licensure Deficiencies		The state should not allow middle school teachers to teach on a 1-8 generalist license
Adolescent Literacy		The state should require that all middle school and secondary candidates are fully prepared to meet the instructional shifts associated with college- and career-readiness standards.
Secondary Content Knowledge	The state requires all secondary teachers to pass a single-subject content test as a condition of initial licensure and to add an endorsement to an existing license.	
Secondary Licensure Deficiencies		The state should require secondary physical science teachers and secondary social studies teachers to pass a single-subject content test for each discipline they are licensed to teach.
AREA 4: SPECIAL EDUCATION TEACHER PREPARATION		
Content Knowledge		The state should require elementary special education teachers to pass the same content test as general elementary education teachers and that secondary special education teachers demonstrate content knowledge in core subjects at the secondary level.

Teaching Reading	The state requires elementary special education candidates to pass a rigorous assessment in the science of reading instruction.	
Licensure Deficiencies		The state should require elementary or secondary special education certification.
AREA 5: ALTERNATE ROUTE TEACHER PREPARATION		
Program Entry		The state should increase alternate route admissions requirements by requiring a rigorous test or a GPA of 3.0 or higher and requiring all candidates to pass a subject-matter test.
Preparation for the Classroom		The state should require that all alternate route programs prepare new teachers for the classroom through manageable and relevant coursework, intensive mentoring and induction, and a supervised practice teaching experience.
AREA 6: HIRING		
Requirements for Out-of-State Teachers		The state should require evidence of effective teaching during previous employment for licensure reciprocity, and ensure out-of-state teachers meet the state's testing requirements.
Provisional and Emergency Licensure	The state does not grant emergency or provisional licenses for more than one year.	
AREA 7: TEACHER AND PRINCIPAL EVALUATION		
Measures of Student Growth		The state should ensure objective evidence of student growth is the determinative factor in teacher evaluations.
Measures of Professional Practice	The state requires that all teacher evaluations include observations; student survey data are explicitly allowed.	
Frequency of Evaluation and Observation		The state should require that all teachers are evaluated annually and observed multiple times.
Linking Evaluation to Professional Growth	The state requires that teachers are supported with adequate evaluation feedback and improvement plans (for ineffective teachers), under a system with five rating categories.	
Data Systems Needed for Evaluation		The state should adequately define teacher of record, formalize its process for teacher roster verification, develop the capacity to link student-level data and teacher performance, and publish teacher mobility data.
Distributing Teacher Talent Equitably		The state should report school-level data about teacher performance to help support the equitable distribution of teacher talent.
Principal Effectiveness		The state should require that principal effectiveness is determined, in part, by objective measures of student growth and survey data, and that ineffective principals participate in improvement planning.
Principal Evaluation and Observation		The state should require multiple observations/site visits for all principals, and require principal evaluators to be trained and certified.
AREA 8: TEACHER COMPENSATION		
Performance		The state should give districts the flexibility to determine pay structures, and discourage districts from tying compensation to advanced degrees or experience.
High-Need Schools and Subjects	The state enables teachers to earn additional pay for working in high-need schools and teaching in shortage subject areas.	
Prior Work		The state should encourage additional compensation for new teachers with relevant prior work experience.
AREA 9: RETAINING EFFECTIVE TEACHERS		
Licensure Advancement		The state should base licensure advancement and renewal on teacher effectiveness.
Tenure		The state should connect tenure decisions to evidence of teacher effectiveness.
Leadership Opportunities	The state supports teacher leadership opportunities.	
Dismissal		The state should enable ineffective classroom performance to be a basis for dismissal.
Layoffs		The state should require districts to consider evidence of effectiveness when determining which teachers to lay off during reductions in force.
