TEXAS EDUCATION AGENCY

1701 North Congress Ave. • Austin, Texas 78701-1494 • 512 463-9734 • 512 463-9838 FAX • www.tea.state.tx.us

Dear Certified Appraiser,

Thank you for your dedication to Texas children and educators. As a certified appraiser, you will be instrumental in the continued growth of our state's teachers and their daily instruction to assure Texas children receive the best education possible. In efforts to assure that appraisers are prepared to evaluate, guide, and develop our educators, Texas has developed three components that relate to teacher and administrator appraisal and professional development:

- Instructional Leadership Development (ILD),
- Professional Development and Appraisal System (PDAS), and
- Administrator Appraisal.

Your participation in this training constitutes an important link in the continuous improvement process for educators. In developing these components, input was solicited from a state-level appraisal advisory committee, several professional organizations and various educators throughout the state. All three components incorporate the learner-centered proficiencies based on input from our state's teachers and other stakeholders.

All components include the student performance link required in law and are designed to enhance student learning through the professional development of educators. The ILD reflects the interconnections among major reform initiatives in our state, PDAS encourages the professional development and growth of teachers, and the Administrator Appraisal acknowledges the role of administrators as instructional leaders.

This training experience is designed to assist you in school improvement and creating a productive future for your students and a supportive environment for all educators.

We thank you for your work with Texas children and hope this training serves as a basis for improved instruction and quality for our states' teachers.

Sincerely,

A handwritten signature in black ink that reads "Robert Scott". The signature is written in a cursive style.

Professional Development and Appraisal System

Teacher Orientation

Welcome to PDAS Teacher Orientation

- ▶ Please be sure you have signed in.
- ▶ Help yourself to coffee, etc.
- ▶ Please introduce yourself to your “new friends” at your table.
- ▶ Take a minute to look through your materials.

2

Getting Ready

- Introductions
- Ground Norms
- Logistics

3

PDAS Teacher Orientation

- ▶ A school district shall ensure that all teachers are provided with an orientation of the Professional Development and Appraisal System (PDAS) no later than the final day of the first three weeks of school and at least three weeks before the first observation.
- ▶ Your understanding of the information in this orientation will be greatly enhanced by your active participation.
- ▶ We will need to keep to our schedule in order to finish on time.

Overview of the System

This presentation provides an overview of the elements of the PDAS system and its goal:

“...to improve student performance through the professional development of teachers.”

PDAS Characteristics

- ▶ Learner Centered
- ▶ Aligned
- ▶ High Standard of Proficiency
- ▶ Teacher Growth and Teacher Improvement
- ▶ Collaboration

7

Appraisal Process Steps

- ▶ Teacher Orientation
- ▶ Teacher Self Report (TSR)
- ▶ Formal Classroom Observation
- ▶ Walkthroughs
- ▶ Student Performance as seen in Campus Performance Rating and AYP
- ▶ Summative Annual Report/Conference

8

APPRAISAL PERIOD TIME LINE SCHOOL CALENDAR YEAR

First 12 Weeks	Second 12 Weeks	Third 12 Weeks	Last 15 Days of INSE.
Teacher Orientation • Within 1 st 3 weeks • Observations no earlier than 3 weeks after this orientation	Teacher Self Report II & III At least two weeks prior to Summative Conference		
Teacher Self Report, Part I • No later than three weeks after orientation	Formal Observation • Minimum of 45 minutes or shorter segments • Written summary within 10 working days • Advanced notice may be given NOT REQUIRED. • Follow district APPRAISAL CALENDAR • May have pre- or post-conference at request of Teacher or Appraiser.		
WALKTHROUGH VISITS • To be used at the discretion of the appraiser • Documentation shared with teacher within 10 days			
ADDITIONAL TIME LINE ISSUES Teacher Response • Within 10 working days (Appraiser may extend to 15) • May occur in writing or request 2 nd appraisal within 10 working days after receiving the OEP or Summative Annual Appraisal Report		SUMMATIVE ANNUAL REPORT • 5 working days before conference • No later than 15 working days before last day of instruction • Observation Summary • Walkthrough documentation • Third party Teacher documentation • Completed TSR SUMMATIVE CONFERENCE • No later than 15 working days before last day of instruction • May be waived in writing by Teacher, NOT APPRAISER • If Appraiser is not administrator on campus, principal/asst. or designated supervisory staff will participate.	

9

Classroom Centered Domains
Domain I

- ▶ Highlight “Active, successful student participation” in Domain I Title.
- ▶ Highlight “Engaged in learning” Criterion 1. This is a critical attribute.
- ▶ Highlight “Successful in learning” in Criterion 2.
- ▶ With your group, find and highlight the critical attributes in Criteria 3, 4, and 5.
- ▶ You can check your work by looking at the OSF.

10

Classroom Centered Domains
Domain II

- ▶ Turn to Domain II.
- ▶ Highlight the domain title.
- ▶ Highlight the critical attributes as before and self-check using the OSF in your manual.

Chapter 2 11

Examples

- ▶ At each table, identify an example for each of the criteria in Domains I and II from the classroom segments. They were:
 - High School Art
 - High School Geometry
 - Middle School English
 - High School Spanish
 - Life Skills
 - Elementary Bilingual Reading
 - Elementary Reading

12

Classroom Centered Domains *Domains III, IV, and V*

- ▶ Turn to Domains III, IV, and V and highlight the Domain title and critical attributes.
- ▶ Self-check using the OSF.

Chapter 3 13

Classroom Centered Domains *Domain III*

- ▶ You just viewed examples of evaluation and feedback.
 - 4th Grade Class
 - High School History Class
 - High School Physics Class
- ▶ With your group, identify examples of each of the six criteria in Domain III.

14

Classroom Centered Domains *Domain IV*

- ▶ Locate your Scoring Criteria Guide.
- ▶ Turn to Domain IV, Criterion 1.
- ▶ Notice that additional information is available in the Scoring Criteria Guide.
- ▶ Read notes (1) and (2) at the bottom of the page. These notes show that there is a "higher standard" for the criteria in Domain IV.
- ▶ Return to your Appraisal Framework and highlight the domain title and critical attributes.

15

Classroom Centered Domains *Domain V*

- ▶ Highlight the critical attributes.
- ▶ It is unlikely that appraisers will observe all of the criteria in Domain V in the classroom.
- ▶ With your group, identify which criteria are likely to be seen in the classroom and which are not.

16

IMPORTANT TO KNOW

Your appraiser may not have evidence to rate every criteria in Domain V on the OSF. In the formal observation, some of the criteria may not have been observed in the classroom.

17

Professional Development *Domain VI*

- ▶ Find Domain VI in your PDAS Framework.
- ▶ Highlight the domain title and critical attributes.
- ▶ Inference cannot be used in Domain VI.
- ▶ Remember, "The goal of PDAS is to improve student performance through the professional development of teachers."

18

“Just Do It” Domain VII

- ▶ Find Domain VII in your PDAS Framework.
- ▶ Highlight the domain title and critical attributes.
- ▶ In Domain VII, inference can be used to score “Proficient” only if there is no evidence of non-compliance with policies.

Chapter 4 19

Improvement of Academic Achievement of All Students on Campus Domain VIII

- ▶ Find Domain VIII - Improvement of Academic Achievement of All Students in your Appraisal Framework and highlight the domain title and critical attributes of criteria 1-9.
- ▶ According to state law, student performance must be included in each teacher’s appraisal.

Chapter 5 20

Criterion 10 Domain VIII

PLUS 10. Campus Performance Rating of:

A. Exemplary	= 4	<input type="text"/>
Recognized	= 2	<input type="text"/>
Academically Acceptable	= 1	<input type="text"/>
Academically Unacceptable	= 0	<input type="text"/>
B. Meets AYP	= 1	<input type="text"/>
*Needs Improvement	= 0	<input type="text"/>
		Total A + B <input type="text"/>

*If needs improvement, list in the spaces below Indicators from page 6.

<input type="text"/>	<input type="text"/>	Final Total Domain VIII
Participation	Performance	<input type="text"/>
Graduation Rate/Attend	Participation & Performance	(Sum of 1-10)

Teacher's 1st Year on Campus	Teacher's Subsequent Years on Campus
Total: 37 to 45	Exceeds Expectations 40 to 50
23 to 36	Proficient 24 to 39
7 to 22	Below Expectations 8 to 23
0 to 6	Unsatisfactory 0 to 7

21

Teacher Self Report (TSR)
Primary Documentation Tool

The TSR:

- ▶ Gives you an opportunity to have input into your appraisal process.
- ▶ Serves as a platform to align instruction.
- ▶ Is a reflective tool.
- ▶ Provides the mechanism to submit Section I of the TSR in accordance with the timeline (no later than three weeks after this orientation).

Chapter 6 23

Classroom Observation

- ▶ The formal observation will take place according to your district's guidelines and is a minimum of 45 minutes.
- ▶ Walkthroughs can take place any time during the year and may be any length the appraiser feels is necessary.

24

Scoring Factors and Performance Level Indicators

- ▶ Critical Attributes
- ▶ Quality
- ▶ Quantity

25

Quality Scoring Standards

- Strength
- Impact
- Variety
- Alignment

26

Strength

- Thinking at high cognitive levels
- Depth & Complexity
- Significant Content
- Connecting within/across disciplines & work/life applications
- Effective, clear & substantive

27

Impact

- Promotes student success
- Effective use of assessments
- Data-driven decision making
- Responsibility
- Reflection
- Challenging

28

Variety

- Varied student characteristics
- Differentiated instruction
- Support strategies & services

29

Alignment

- Curriculum, instruction and assessment aligned with TEKS & district objectives
- Targeted instruction
- Congruent

30

Quantity

- ▶ Can you see it?
- ▶ Did it happen?
- ▶ How often?
- ▶ How many students?

31

Classroom Example

In the following example, classroom observations will be discussed as related to the SIVA.

In the science lesson, what evidence do you see to indicate “Proficient” or above?

Chapter 7 32

Teacher Self Report Parts II and III

- ▶ Parts II and III of the TSR give you an opportunity to give your appraiser additional information about your efforts to improve your students’ performance.
- ▶ In the next example, listen to how some teachers answered these questions.

Chapter 8 33

Summative Annual Conference

- ▶ Your summative annual conference will occur within the required timeline, and "...shall focus on the written summative report and related data sources."*
- ▶ In the last example, you will see how a Summative Annual Conference might look and sound.

*from §150.1003. Appraisals, Data Sources, and Conferences of the Commissioner's Rules

Chapter 9 34

All that's left . . .

- ▶ PDAS Teacher Checklist
 - Campus completion of orientation
 - TSR, Section I by _____.
 - Observation and other data - walkthroughs
 - Conference(s)
 - TSR, Sections II & III by _____.
 - Summative Annual Conference by _____.
- ▶ Questions today?
- ▶ Questions later – Your administrator or _____

35

Professional Development and Appraisal System

Remember, "The goal of PDAS is to improve student performance through the professional development of teachers."

36

SECTION II

PDAS Teacher Manual Legal Considerations

PROFESSIONAL DEVELOPMENT AND APPRAISAL SYSTEM for Texas Teachers

Executive Summary

Legal Requirements

Senate Bill 1, passed in 1995, required the Commissioner of Education to develop a recommended appraisal system for Texas teachers with input from teachers and other professionals. In addition to specifying general characteristics of an appraisal system, Texas Education Code (TEC) §21.351 requires that criteria for the commissioner's recommended system include: (1) teachers' implementation of discipline management procedures; and (2) the performance of teachers' students.

Prior to the enactment of H. B. 1440, all teachers were required to have an annual appraisal by TEC §21.352(c). The new legislation allows districts to adopt policies at the local level to modify the appraisal schedule for qualifying teachers, as long as an appraisal is performed at least once during each five year period. A teacher must be rated as at least proficient on each PDAS domain to be eligible for less frequent appraisals permitted through H.B. 1440.

It should be noted that the individual teacher's consent is required prior to moving to less frequent appraisal for those who qualify. Should a teacher prefer to be appraised annually, the campus administrator should continue to perform annual appraisals.

Pursuant to local policy, if an appraiser becomes aware of a teacher who is performing below expectations (whether through direct observation or notification from a third party), the appraiser may place the teacher on the traditional annual appraisal cycle even if the teacher had agreed to less frequent appraisals based on his or her most recent evaluation. Nothing in the legislation prohibits a walkthrough or other informal observation by appraisers, even for those teachers who have qualified for less frequent appraisals. The use of cumulative data for teachers on a revised appraisal schedule is also permissible, in accordance with the rules established in 19 TAC §150.1003(f) for districts using the PDAS.

Overview of the System

The PDAS includes fifty-one evaluation criteria organized in eight domains. The eight PDAS domains are:

- Domain I: Active, Successful Student Participation in the Learning Process
- Domain II: Learner-Centered Instruction
- Domain III: Evaluation and Feedback on Student Progress
- Domain IV: Management of Student Discipline, Instructional Strategies, Time and Materials
- Domain V: Professional Communication
- Domain VI: Professional Development
- Domain VII: Compliance with Policies, Operating Procedures and Requirements
- Domain VIII: Improvement of Academic Performance of all Students on the Campus

Domain VIII addresses the student performance link. This domain is comprised of a total of ten criteria. Five of the criteria relate to teacher efforts to plan, analyze, and deliver instruction that are aligned with appropriate academic skills objectives addressed within the teacher's particular assignment. One criterion in this domain relates to the teacher's continuing efforts to monitor student attendance and to be proactive in intervening with regard to students who experience attendance problems. Three criteria relate to teachers' efforts to identify and intervene appropriately with students in at-risk situations. Finally, a tenth criterion is the shared score on the overall campus performance rating and AYP status.

Scoring of the domains is done primarily through classroom observational data and input from teachers through responses on the Teacher Self-Report (TSR) Form. Relevant out-of-classroom data may also be used if documented and shared with the teacher. The domains are scored in four categories: (1) Exceeds Expectations; (2) Proficient; (3) Below Expectations; and (4) Unsatisfactory. Each domain is scored independently, and thus there are no cumulative scores.

Implementation of the System

The system will require a minimum of one observation of at least 45 minutes, plus additional observations and walkthroughs as necessary. Observations may be scheduled or unscheduled at the discretion of the local district. Teachers and appraisers may mutually elect to adjust the length of observations so long as the total amount of time adds up to 45 minutes. A teacher is guaranteed a summative appraisal conference unless he or she expressly waives the conference requirement.

Teachers who have concerns about their appraisals may request a second appraisal, or may appeal the appraisal. For those teachers whose performance is appraised as less than proficient in any domain, adequate due process provisions have been incorporated in the rules. These teachers must be given the opportunity to improve their performance through the development of an intervention plan.

The PDAS also provides for teachers input into their own appraisal ratings, especially in Domain VI (Professional Development) and Domain VIII (Efforts to Improve Academic Performance), through the inclusion of the TSR Form. This enables teachers to submit concrete examples of their best work, in a limited format, to their appraiser for consideration in the appraisal process.

Training for Teachers

In the initial year of adoption and implementation of PDAS, campuses must provide opportunities for representative teachers to participate in appraisal training. Districts are required to offer opportunities for appraisal training to a number of teachers equal to the number of campus administrators. At the discretion of the principal, these teachers may facilitate the orientation and may assist in presenting the orientation.

These teachers may serve as orientation facilitators but are not certified as appraisers.

District Options

Under TEC §21.352, districts that elect to devise their own local system are encouraged to do so, as long as the local system meets the provisions of law, including a clear and direct link to the performance of teachers' students. Thus, if after reviewing the commissioner's recommended system, districts feel that they have appraisal practices more suited to local needs, they may feel free to use them.

Chapter 150. Commissioner's Rules Concerning Educator Appraisal

Subchapter AA. Teacher Appraisal

Statutory Authority: The provisions of this Chapter 150 issued under the Texas Education Code, §§21.351-21.356, unless otherwise noted.

§150.1001. General Provisions.

- (a) Beginning with the 1997-1998 school year, all school districts have two choices in selecting a method to appraise teachers: a teacher-appraisal system recommended by the Texas commissioner of education or a local teacher-appraisal system.
- (b) The commissioner's recommended teacher-appraisal system, the Professional Development and Appraisal System (PDAS), was developed in accordance with Texas Education Code (TEC), §21.351.
- (c) The superintendent of each school district, with the approval of the school district board of trustees, may select the PDAS. Each school district or campus wanting to select or develop an alternative teacher-appraisal system must follow TEC, §21.352.
- (d) The commissioner may designate a regional education service center to serve as the PDAS certification provider for the state. The designated regional education service center may collect appropriate fees under TEC, §8.053, from school districts and open-enrollment charter schools for training and certification.

Source: The provisions of this §150.1001 adopted to be effective August 1, 1997, 22 TexReg 4200; amended to be effective February 17, 2010, 35 TexReg 1205.

§150.1002. Assessment of Teacher Performance.

- (a) The teacher proficiencies described in *Learner-Centered Schools for Texas: A Vision of Texas Educators*, approved by the State Board of Education on February 11, 1994, shall be the foundation for the Professional Development and Appraisal System (PDAS).
- (b) Each teacher shall be appraised on the following domains:
 - (1) Domain I: Active, successful student participation in the learning process;
 - (2) Domain II: Learner-centered instruction;
 - (3) Domain III: Evaluation and feedback on student progress;

- (4) Domain IV: Management of student discipline, instructional strategies, time and materials;
- (5) Domain V: Professional communication;
- (6) Domain VI: Professional development;
- (7) Domain VII: Compliance with policies, operating procedures and requirements; and
- (8) Domain VIII: Improvement of academic performance of all students on the campus (based on indicators included in the Academic Excellence Indicator System (AEIS)).

(c) Each domain shall be scored independently. The evaluation of each of the domains shall consider all data generated in the appraisal process. The data for the appraisal of each domain shall be gathered from observations, the Teacher Self-Report Form, and other documented sources. The data shall describe teacher contributions in increasing student achievement, making the whole school safe and orderly, and creating a stimulating learning environment for children.

(d) Each teacher shall be evaluated on Domains I through VIII using the following categories:

- (1) exceeds expectations;
- (2) proficient;
- (3) below expectations; and
- (4) unsatisfactory.

(e) The teacher evaluation in Domain VIII shall include the following areas:

- (1) efforts to enhance academic performance;
- (2) efforts to enhance student attendance;
- (3) efforts to identify and assist students in at-risk situations; and
- (4) campus performance rating.

(f) Campus performance rating data for Domain VIII shall be reported (not scored) by a campus or district for the first year of the PDAS implementation and/or during the first year for new teachers to a campus.

Source: The provisions of this §150.1002 adopted to be effective August 1, 1997, 22 TexReg 4200.

§150.1003. Appraisals, Data Sources, and Conferences.

(a) Each teacher must be appraised each school year, except as provided by subsection (l) of this section. Whenever possible, an appraisal shall be based on the teacher's performance in fields and teaching assignments for which he or she is certified.

(b) The annual teacher appraisal shall include:

- (1) at least one classroom observation of a minimum of 45 minutes as identified in subsection (g) of this section, with additional walk-throughs and observations conducted at the discretion of the certified appraiser;
- (2) a written summary of each observation, which shall be given to teachers within ten working days after the completion of an observation, with a pre- and post-observation conference conducted at the request of the teacher or certified appraiser;
- (3) completion of Section I of the Teacher Self-Report Form that shall be presented to the principal:
 - (A) within the first three weeks from the day of completion of the Professional Development and Appraisal System (PDAS) orientation as described in §150.1007 of this title (relating to Teacher Orientation);
 - (B) within the first three weeks from the day of completion of the PDAS orientation as described in §150.1007 of this title for teachers new to the PDAS; or
 - (C) within the first three weeks of instruction in the school years when the PDAS orientation is not required pursuant to §150.1007 of this title.
- (4) revision of Section I (if necessary) and completion of Sections II and III of the Teacher Self-Report Form that shall be presented to the principal at least two weeks prior to the summative annual conference;
- (5) cumulative data of written documentation collected regarding job-related teacher performance, in addition to formal classroom observations;
- (6) a written summative annual appraisal report; and
- (7) a summative annual conference.

(c) A teacher may be given advance notice of the date or time of an appraisal, but advance notice is not required.

(d) Each school district shall establish a calendar for the appraisal of teachers. The appraisal period for each teacher must include all of the days of a teacher's contract. Observations during the appraisal period

must be conducted during the required days of instruction for students during one school year. The appraisal calendar shall:

- (1) exclude observations in the three weeks following the day of completion of the PDAS orientation in the school years when an orientation is required as described in §150.1007 of this title;
- (2) exclude observations in the three weeks following the day of completion of the PDAS orientation for teachers new to the PDAS as described in §150.1007 of this title;
- (3) exclude observations in the first three weeks of instruction in the school years when the PDAS orientation is not required pursuant to §150.1007 of this title;
- (4) prohibit observations on the last day of instruction before any official school holiday or on any other day deemed inappropriate by the school district board of trustees; and
- (5) indicate a period for summative annual conferences that ends no later than 15 working days before the last day of instruction for students.

(e) During the appraisal period, the certified appraiser shall evaluate and document teacher performance specifically related to the domain criteria as identified in §150.1002(b) of this title (relating to Assessment of Teacher Performance).

(f) The certified appraiser is responsible for documentation of the cumulative data identified in subsection (b)(5) of this section. Any third-party information from a source other than the certified appraiser that the certified appraiser wishes to include as cumulative data shall be verified and documented by the certified appraiser. Any documentation that will influence the teacher's summative annual appraisal report must be shared in writing with the teacher within ten working days of the certified appraiser's knowledge of the occurrence. The principal shall also be notified in writing when the certified appraiser is not the teacher's principal.

(g) By mutual consent of the teacher and the certified appraiser, the required minimum of 45 minutes of observation may be conducted in shorter time segments. The time segments must aggregate to at least 45 minutes.

(h) A written summative annual appraisal report shall be shared with the teacher no later than five working days before the summative conference and no later than 15 working days before the last day of instruction for students. The written summative annual appraisal report shall be placed in the teacher's personnel file by the end of the appraisal period.

(i) Unless waived in writing by the teacher, a summative conference shall be held within a time frame specified on the school district calendar and no later than 15 working days before the last day of instruction for students. The summative conference shall focus on the written summative report and related data sources.

(j) In cases where the certified appraiser is not an administrator on the teacher's campus, either the principal, assistant principal, or another supervisory staff member designated as an administrator on the campus must participate in the summative annual conference.

(k) Any documentation collected after the summative conference but before the end of the contract term during one school year may be considered as part of the appraisal of a teacher. If the documentation affects the teacher's evaluation in any domain, another summative report shall be developed and another summative conference shall be held to inform the teacher of the change(s).

(l) Except as otherwise provided by this subsection, appraisal must be done at least once during each school year. A teacher may be appraised less frequently if the teacher agrees in writing and the teacher's most recent appraisal rated the teacher as at least proficient, or the equivalent, and did not identify any area of deficiency. A teacher who is appraised less frequently than annually must be appraised at least once during each period of five school years.

(1) District policy may stipulate:

(A) whether the appraisal option is to be made available to teachers;

(B) whether the appraisal option is to be adopted districtwide or is to be campus specific;

(C) if the appraisal accompanying a teacher new to a district or campus meets the option as specified in this subsection, whether the appraisal is to be accepted or whether that teacher is to be appraised by the new campus administrator; and

(D) whether a certified appraiser may place a teacher on the traditional appraisal cycle as a result of performance deficiencies documented in accordance with subsections (b)(5) and (f) of this section.

(2) A school district may choose annually to review the written agreement with the teacher. However, at the conclusion of the school year, the district may modify appraisal options through board policy and may make changes to expectations for appraisals that apply to all teachers regardless of a teacher's participation in the appraisal option in the previous year(s).

(3) For purposes of this subsection, in the teacher-appraisal system recommended by the commissioner, an area of deficiency is a domain. A teacher must be rated as at least proficient for each domain (i.e., for all domains) to be eligible for less frequent appraisals under this subsection.

Source: The provisions of this §150.1003 adopted to be effective August 1, 1997, 22 TexReg 4200; amended to be effective April 15, 1999, 24 TexReg 2934; amended to be effective May 31, 2004, 29 TexReg 5345; amended to be effective February 17, 2010, 35 TexReg 1205.

§150.1004. Teacher in Need of Assistance.

(a) A teacher whose performance meets one of the following circumstances will be designated as a "teacher in need of assistance":

- (1) a teacher who is evaluated as unsatisfactory in one or more domains; or
- (2) a teacher who is evaluated as below expectations in two or more domains.

(b) When a teacher is designated as a teacher in need of assistance, the certified appraiser and the campus principal or designee shall, in consultation with the teacher, develop an intervention plan that includes the following:

- (1) domain(s) that designate a teacher as a teacher in need of assistance;
- (2) directives or recommendations for professional improvement activities;
- (3) evidence that is used to determine successful completion of professional improvement activities;
- (4) directives for changes in teacher behavior;
- (5) evidence that is used to determine if teacher behavior has changed; and
- (6) specific time line for successful completion.

(c) In cases when the teacher's appraiser is not the teacher's principal, the principal shall be involved in the development and evaluation of the intervention plan.

(d) A teacher who has not met all requirements of the intervention plan for teachers in need of assistance by the time specified may be considered for separation from the assignment, campus, and/or district.

(e) The intervention plan shall include options for professional development activities designed to enhance teacher proficiency. At least one option shall not place significant financial burden on either the teacher or the school district.

(f) An intervention plan may be developed at any time at the discretion of the certified appraiser when the certified appraiser has documentation that would potentially produce an evaluation rating of "below expectations" or "unsatisfactory."

§150.1005. Teacher Response and Appeals.

- (a) A teacher may submit a written response or rebuttal at one or both of the following times:
- (1) after receiving a written observation summary, or any other written documentation associated with the teacher's appraisal; or
 - (2) after receiving a written summative annual appraisal report.
- (b) Any written response or rebuttal must be submitted within ten working days of receiving a written observation summary, a written summative annual appraisal report, or any other written documentation associated with the teacher's appraisal. At the discretion of the certified appraiser, the time period may be extended to 15 working days.
- (c) A teacher may request a second appraisal by another certified appraiser at one or both of the following times:
- (1) after receiving a written observation summary with which the teacher disagrees; or
 - (2) after receiving a written summative annual appraisal report with which the teacher disagrees.
- (d) The second appraisal must be requested within ten working days of receiving a written observation summary or a written summative annual appraisal report. At the discretion of the certified appraiser, the time period may be extended to 15 working days.
- (e) A teacher may be given advance notice of the date or time of a second appraisal, but advance notice is not required.
- (f) The second appraiser shall appraise the teacher in all domains. The second appraiser shall make observations and walk-throughs as necessary to evaluate Domains I through V. The second appraiser shall use the Teacher Self-Report Form and cumulative data from the first appraisal to evaluate Domains VI through VIII. Cumulative data may also be used by the second appraiser to evaluate other domains.
- (g) Each school district shall adopt written procedures for a teacher to present grievances and receive written comments in response to the written annual report. Each district shall also adopt written procedures for determining the selection of second appraisers. These procedures shall be disseminated to each teacher at the time of employment and updated annually or as needed.

Source: The provisions of this §150.1005 adopted to be effective August 1, 1997, 22 TexReg 4200; amended to be effective February 17, 2010, 35 TexReg 1205.

§150.1006. Appraiser Qualifications.

(a) The teacher-appraisal process requires at least one certified appraiser.

(b) Under the Professional Development and Appraisal System (PDAS), a campus administrator includes a principal, an assistant principal, or other supervisory staff designated as an administrator of an open-enrollment charter school or as an administrator who holds a comparable administrator/supervisor certificate established by the State Board for Educator Certification. A campus administrator who is a certified PDAS appraiser and approved by the school district board of trustees shall conduct a teacher's appraisal. Only in the event of the circumstances identified in subsection (d) of this section may an individual other than a campus administrator act as a certified appraiser.

(c) Before conducting an appraisal, an appraiser must be certified by having satisfactorily completed uniform appraiser training, including required Instructional Leadership Training (ILT) or Instructional Leadership Development (ILD) certification, with a trainer and curriculum approved by the commissioner of education. Periodic recertification and training shall be required.

(1) Educators certified as appraisers for the Texas Teacher Appraisal System (TTAS) before January 1997 shall be required to take only the PDAS training to qualify as a certified appraiser for the new system. Beginning June 1, 2002, individuals seeking to become certified PDAS appraisers must comply with requirements specified in paragraph (3) of this subsection.

(2) Educators seeking certification as an appraiser for the PDAS after January 1, 1997, and no later than June 1, 2002, holding no prior TTAS certification, shall be required to complete the ILT or ILD training and the PDAS training with the successful completion of ILT or ILD certification as a prerequisite to the PDAS training.

(3) Educators seeking certification as an appraiser for the PDAS after June 1, 2002, shall be required to complete ILD training and the PDAS training with successful completion of ILD certification as a prerequisite to the PDAS training.

(d) An individual other than a campus administrator may act as a certified appraiser if:

(1) the individual has been certified by completing the training required under subsection (c) of this section prior to conducting appraisals;

(2) the district lacks sufficient certified appraisers to complete appraisals in a timely manner; and

(3) in the case where the certified appraiser is a classroom teacher, the certified appraiser:

(A) conducts appraisals at the same school campus at which the certified appraiser teaches if the certified appraiser is the chair of a department or grade level whose job description includes classroom observation responsibilities; or

(B) does not conduct appraisals of classroom teachers who teach at the same campus as the certified appraiser if the certified appraiser is not a department or grade-level chair.

Source: The provisions of this §150.1006 adopted to be effective August 1, 1997, 22 TexReg 4200; amended to be effective July 31, 2001, 26 TexReg 5638; amended to be effective February 17, 2010, 35 TexReg 1205.

§150.1007. Teacher Orientation.

(a) A school district shall ensure that all teachers are provided with an orientation of the Professional Development and Appraisal System (PDAS) no later than the final day of the first three weeks of school and at least three weeks before the first observation.

(1) Additional orientations shall be provided any time substantial changes occur in the PDAS.

(2) A teacher new to the district shall be provided with an orientation of the PDAS at least three weeks before the teacher's first observation.

(3) At least three weeks prior to the first formal observation, all teachers to be appraised under the PDAS shall be provided an annual review of this subchapter and district policy regarding teacher appraisal.

(b) Teachers' orientation shall include materials approved by the commissioner of education. These materials shall include all state and local appraisal policies, the local appraisal calendar, and information on the requirements for the completion of the Teacher Self-Report Form. In addition to the orientation, campuses may hold other sessions sufficient in length allowing teachers to actively participate in a discussion of the PDAS specifics and to have their questions answered.

Source: The provisions of this §150.1007 adopted to be effective August 1, 1997, 22 TexReg 4200; amended to be effective February 17, 2010, 35 TexReg 1205.

§150.1009. Alternatives to the Commissioner's Recommended Appraisal System.

(a) District option. Beginning with the 1997-1998 school year, a school district not wanting to use the commissioner's recommended Professional Development and Appraisal System must develop its own teacher-appraisal system supported by locally adopted policy and procedures and by the processes outlined in Texas Education Code (TEC), §21.352. The Texas Teacher Appraisal System (TTAS) is no longer a state-recommended system; however, it may become a local option governed by the process outlined in TEC, §21.352. If adopted as a local option, the TTAS must be modified to comply with TEC, §21.351(a)(1) and (2).

(1) The school district-level planning and decision-making committee shall:

(A) develop an appraisal process;

(B) develop evaluation criteria, including discipline management and performance of the teachers' students; and

(C) consult with the campus planning and decision-making committee on each campus in the school district.

(2) The appraisal process shall include:

(A) at least one appraisal each year;

(B) a conference between the teacher and the appraiser that is diagnostic and prescriptive with regard to remediation needed in overall performance by category; and

(C) criteria based on observable, job-related behavior, including:

(i) teachers' implementation of discipline management procedures; and

(ii) performance of the teachers' students.

(3) The school district-level planning and decision-making committee shall submit the appraisal process and criteria to the superintendent, who shall submit the appraisal process and criteria to the school district board of trustees with a recommendation to accept or reject. The school district board of trustees may accept or reject an appraisal process and performance criteria, with comments, but may not modify the process or criteria.

(b) Campus option. A campus within a school district may choose to develop a local system as provided in this section.

(1) The campus planning and decision-making committee shall:

(A) develop an appraisal process;

(B) develop evaluation criteria, including discipline management and performance of the teachers' students; and

(C) submit the process and criteria to the district-level planning and decision-making committee.

(2) The appraisal process shall include:

(A) at least one appraisal each year;

(B) a conference between the teacher and the appraiser that is diagnostic and prescriptive with regard to remediation needed in overall performance by category; and

(C) criteria based on observable, job-related behavior, including:

(i) teachers' implementation of discipline management procedures; and

(ii) performance of the teachers' students.

(3) Upon submission of the appraisal process and criteria to the school district-level planning and decision-making committee, the committee shall make a recommendation to accept or reject the appraisal process and criteria and transmit that recommendation to the superintendent.

(4) The superintendent shall submit the recommended campus appraisal process and criteria, the school district-level planning and decision-making committee's recommendation, and the superintendent's recommendation to the school district board of trustees. The school district board of trustees may accept or reject, with comments, an appraisal process and performance criteria, but may not modify the process or criteria.

§150.1010. District Submissions to Regional Education Service Center.

(a) For purposes of providing training and support, the superintendent shall notify the executive director of its regional education service center of the district's choice of appraisal system(s) and provide a sample copy of the instrument used by a time designated by the commissioner of education.

(b) Each school district shall submit annually to its regional education service center a summary of the campus-level evaluation scores from the Professional Development and Appraisal System, or the district's locally adopted appraisal system, in a manner prescribed by the commissioner.

Chapter 21. Educators

Subchapter H. Appraisals and Incentives

§ 21.351. RECOMMENDED APPRAISAL PROCESS AND PERFORMANCE CRITERIA.

- (a) The commissioner shall adopt a recommended appraisal process and criteria on which to appraise the performance of teachers. The criteria must be based on observable, job-related behavior, including:
 - (1) teachers' implementation of discipline management procedures; and
 - (2) the performance of teachers' students.
- (b) The commissioner shall solicit and consider the advice of teachers in developing the recommended appraisal process and performance criteria.
- (c) Under the recommended appraisal process, an appraiser must be the teacher's supervisor or a person approved by the board of trustees. An appraiser who is a classroom teacher may not appraise the performance of another classroom teacher who teaches at the same school campus at which the appraiser teaches, unless it is impractical because of the number of campuses or unless the appraiser is the chair of a department or grade level whose job description includes classroom observation responsibilities.
- (d) Under the recommended appraisal process, appraisal for teachers must be detailed by category of professional skill and characteristic and must provide for separate ratings for each category. The appraisal process shall guarantee a conference between the teacher and the appraiser. The conference shall be diagnostic and prescriptive with regard to remediation needed in overall performance and by category.

Added by Acts 1995, 74th Leg., ch. 260, § 1, eff. May 30, 1995.

§ 21.352. LOCAL ROLE.

- (a) In appraising teachers, each school district shall use:
 - (1) the appraisal process and performance criteria developed by the commissioner; or

(2) an appraisal process and performance criteria:

(A) developed by the district- and campus-level committees established under Section 11.251;

(B) containing the items described by Sections 21.351(a)(1) and (2); and

(C) adopted by the board of trustees.

(b) The board of trustees may reject an appraisal process and performance criteria developed by the district- and campus-level committees but may not modify the process or criteria.

(c) Except as otherwise provided by this subsection, appraisal must be done at least once during each school year. A teacher may be appraised less frequently if the teacher agrees in writing and the teacher's most recent evaluation rated the teacher as at least proficient, or the equivalent, and did not identify any area of deficiency. A teacher who is appraised less frequently than annually must be appraised at least once during each period of five school years. The district shall maintain a written copy of the evaluation of each teacher's performance in the teacher's personnel file. Each teacher is entitled to receive a written copy of the evaluation on its completion. After receiving a written copy of the evaluation, a teacher is entitled to a second appraisal by a different appraiser or to submit a written rebuttal to the evaluation to be attached to the evaluation in the teacher's personnel file. The evaluation and any rebuttal may be given to another school district at which the teacher has applied for employment at the request of that district.

(d) A teacher may be given advance notice of the date or time of an appraisal, but advance notice is not required.

Added by Acts 1995, 74th Leg., ch. 260, § 1, eff. May 30, 1995. Amended by Acts 2003, 78th Leg., ch. 244, § 2, eff. June 18, 2003.

§ 21.353. APPRAISAL ON BASIS OF CLASSROOM TEACHING PERFORMANCE.

A teacher who directs extracurricular activities in addition to performing classroom teaching duties shall be appraised only on the basis of classroom teaching performance and not on performance in connection with the extracurricular activities.

Added by Acts 1995, 74th Leg., ch. 260, § 1, eff. May 30, 1995.

§ 21.354. APPRAISAL OF ADMINISTRATORS.

(a) The commissioner shall adopt a recommended appraisal process and criteria on which to appraise the performance of various classifications of school administrators. The criteria must be based on job-related performance.

- (b) The commissioner may solicit and consider the advice of teachers and administrators in developing the appraisal process and performance criteria.
- (c) Each school district shall appraise each administrator annually using either:
 - (1) the commissioner's recommended appraisal process and performance criteria; or
 - (2) an appraisal process and performance criteria:
 - (A) developed by the district in consultation with the district- and campus-level committees established under Section 11.251; and
 - (B) adopted by the board of trustees.
- (d) Funds of a school district may not be used to pay an administrator who has not been appraised under this section in the preceding 15 months.
- (e) The appraisal of a principal shall include consideration of the performance of a principal's campus on the indicators established under Section 39.051 and the campus's objectives established under Section 11.253, including performance gains of the campus and the maintenance of those gains.

Added by Acts 1995, 74th Leg., ch. 260, § 1, eff. May 30, 1995.

§ 21.355. CONFIDENTIALITY.

A document evaluating the performance of a teacher or administrator is confidential.

Added by Acts 1995, 74th Leg., ch. 260, § 1, eff. May 30, 1995.

§ 21.451. STAFF DEVELOPMENT REQUIREMENTS.

- (a) The staff development provided by a school district must be:
 - (1) conducted in accordance with standards developed by the district; and
 - (2) designed to improve education in the district.
- (b) The staff development must be predominantly campus-based, related to achieving campus performance objectives established under Section 11.253, and developed and approved by the campus-level committee established under Section 11.251.
- (c) A school district may use district-wide staff development developed and approved through the district-level decision process under Section 11.251.
- (d) The staff development may:
 - (1) include training in:
 - (A) technology;
 - (B) conflict resolution; and
 - (C) discipline strategies, including classroom management, district discipline policies, and the student code of conduct adopted under Section 37.001 and Chapter 37;
 - (2) include training that:
 - (A) relates to instruction of students with disabilities; and
 - (B) is designed for educators who work primarily outside the area of special education; and

(3) include instruction as to what is permissible under law, including opinions of the United States Supreme Court, regarding prayer in public school.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials

Evaluation Dimensions:

- a. The teacher effectively implements the discipline-management procedures approved by the district.
- b. The teacher establishes a classroom environment which promotes and encourages self-discipline and self-directed learning.
- c. The teacher selects instructional materials which are equitable and acknowledge the varied characteristics of all students.
- d. The teacher effectively and efficiently manages time and materials.

EVALUATION CRITERIA

<i>Exceeds Expectations</i>	<i>Proficient</i>	<i>Below Expectations</i>	<i>Unsatisfactory</i>
ALMOST ALL OF THE TIME	MOST OF THE TIME	SOME OF THE TIME	LESS THAN HALF OF THE TIME
1. The teacher effectively implements the discipline-management procedures approved by the campus. The teacher participates in the development of discipline management procedures and offers suggestions for improvement.	1. The teacher effectively implements the discipline-management procedures approved by the campus. Any lack of effective implementation is rare, inadvertent, and does not seriously compromise the needs of students or the effective operation of the classroom or campus.	1. The teacher effectively implements the discipline-management procedures approved by the campus. The teacher intervenes and re-directs off-task, inappropriate or disruptive behavior as needed.
6. The teacher reinforces desired behavior when appropriate.	6. The teacher reinforces desired behavior when appropriate.	6. The teacher reinforces desired behavior when appropriate.	6. The teacher reinforces desired behavior when appropriate.
7. The instructional materials selected by the teacher are equitable and acknowledge the varied characteristics of all students.	7. The instructional materials selected by the teacher are equitable and acknowledge the varied characteristics of all students.	7. The instructional materials selected by the teacher are equitable and acknowledge the varied characteristics of all students.	7. The instructional materials selected by the teacher are equitable and acknowledge the varied characteristics of all students.
8. The teacher effectively and efficiently manages time and materials.	8. The teacher effectively and efficiently manages time and materials.	8. The teacher effectively and efficiently manages time and materials.	8. The teacher effectively and efficiently manages time and materials.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. These criteria are to be evaluated in the context of student behavior as it impacts student success. The critical attributes of EACH criterion MUST be considered separately.

Domain V: Professional Communication*Evaluation Dimensions:*

- a. The teacher uses appropriate and accurate written, verbal, and non-verbal modes of communication with students.
- b. The teacher uses appropriate and accurate written, verbal, and non-verbal modes of communication with parents, staff, community members, and other professionals.
- c. The teacher's interactions are supportive, courteous, respectful, and encouraging to students who are reluctant and having difficulty.

EVALUATION CRITERIA

<i>Exceeds Expectations</i>	<i>Proficient</i>	<i>Below Expectations</i>	<i>Unsatisfactory</i>
ALMOST ALL OF THE TIME	MOST OF THE TIME	SOME OF THE TIME	LESS THAN HALF OF THE TIME
<ol style="list-style-type: none"> 1. The teacher uses appropriate and accurate written communication with students 2. Domain VI: Professional Development

Evaluation Dimensions:

- a. The teacher determines and participates in professional development goals and activities that are aligned with the goals of the campus and the goals of the district.
- b. The teacher correlates professional development activities with assigned subject content and the varied needs of students.
- c. The teacher exhibits a willingness to collaborate with colleagues and other professionals for continuous growth and development.
- d. The teacher correlates professional development activities with the prior performance appraisal.

EVALUATION CRITERIA

<i>Exceeds Expectations</i>	<i>Proficient</i>	<i>Below Expectations</i>	<i>Unsatisfactory</i>
ALMOST ALL OF THE TIME	MOST OF THE TIME	SOME OF THE TIME	LESS THAN HALF OF THE TIME
<ul style="list-style-type: none"> 1. The teacher successfully seeks out and engages in professional development activities that positively correlate with the goals of the campus and district. 2. Domain VII: Compliance With Policies, Operating Procedures and Requirements

Evaluation Dimensions:

- a. The teacher contributes to making the whole school safe and orderly, and a stimulating learning environment for children.
- b. The teacher respects the rights of students, parents, colleagues, and the community.

EVALUATION CRITERIA

<i>Exceeds Expectations</i>	<i>Proficient</i>	<i>Below Expectations</i>	<i>Unsatisfactory</i>
<p>1. The teacher complies with all policies, operating procedures, and legal requirements (national, state, district, and campus). The teacher participates in the development of operating procedures and offers suggestions for improvement.</p> <p>2. The teacher complies with all verbal and written directives, participates in the development of operating procedures, and offers suggestions for improvement.</p> <p>3. Apart from classroom responsibilities, the teacher consistently contributes to making the whole school safe and orderly, and a stimulating learning environment for all students.</p>	<p>1. The teacher complies with all of the policies, operating procedures, and legal requirements (national, state, district, and campus). Any lack of compliance is rare, inadvertent, and does not seriously compromise the needs of students or the effective operations of the campus/ district.</p> <p>2. The teacher complies with all verbal and written directives. Any lack of compliance is rare, inadvertent, and does not seriously compromise the needs of students or the effective operations of the campus/district.</p> <p>3. Apart from classroom responsibilities, the teacher generally contributes to making the whole school safe and orderly, and a stimulating learning environment for all students.</p>	<p>1. The teacher occasionally does not comply with policies, operating procedures, or legal requirements (national, state, district, and campus). In instances of non-compliance, the needs of the students or the effective operations of the campus/district may be compromised.</p> <p>2. The teacher occasionally does not comply with all verbal or written directives. In instances of non-compliance, the needs of the students or the effective operations of the campus/district may be compromised.</p> <p>3. The teacher frequently does not comply with policies, operating procedures, or legal requirements (national, state, district, and campus). In instances of non-compliance, the needs of the students or the effective operations of the campus/district are seriously compromised.</p> <p>2. The teacher frequently does not comply with all verbal or written directives. In instances of non-compliance, the needs of the students or the effective operations of the campus/district are seriously compromised.</p> <p>3. Apart from classroom responsibilities, the teacher rarely contributes to making the whole school safe and orderly, and a stimulating learning environment for all students.</p>

Domain VIII: Improvement of Academic Performance of All Students On The Campus

Evaluation Dimensions:

- a. The teacher diagnoses student needs and provides performance feedback related to all appropriate TEKS/TAKS objectives.
- b. The teacher aligns the planning and delivery of instruction to all appropriate TEKS/TAKS objectives.
- c. The teacher collaborates with other faculty and administration to improve TAKS-related performance of all students on the campus.
- d. The teacher identifies students who are at-risk and develops appropriate strategies to assist these students.
- e. The teacher monitors the attendance of all students and intervenes to promote regular attendance.

EVALUATION CRITERIA

(A) Efforts to Enhance Academic Performance*

<i>Exceeds Expectations</i>	<i>Proficient</i>	<i>Below Expectations</i>	<i>Unsatisfactory</i>
ALMOST ALL OF THE TIME	MOST OF THE TIME	SOME OF THE TIME	LESS THAN HALF OF THE TIME
<ol style="list-style-type: none"> 1. The teacher works with colleagues to align instruction to include appropriate TEKS/TAKS objectives to support student achievement in all assigned classes. 2. The teacher works with colleagues to analyze TAKS performance data relevant to all students in assigned classes prior to beginning instruction. 3. The teacher coordinates with others within and outside the teacher's discipline to determine the sequencing of classroom instruction to appropriately incorporate TEKS/TAKS objectives. 4. The teacher collaborates with others within and outside the teacher's discipline to select/adapt instructional materials and activities which are correlated with appropriate TEKS/TAKS objectives. 5. The teacher provides feedback to all students regarding their learning progress on appropriate TEKS/TAKS objectives. 	<ol style="list-style-type: none"> 1. The teacher aligns instruction to include appropriate TEKS/TAKS objectives to support student achievement in all assigned classes. 2. The teacher analyzes TAKS performance data relevant to all students in assigned classes prior to beginning instruction. 3. The teacher adjusts the sequencing of classroom instruction to appropriately incorporate TEKS/TAKS objectives. 4. The teacher selects/adapts instructional materials and activities which are correlated with appropriate TEKS/TAKS objectives. 5. The teacher provides feedback to all students regarding their learning progress on appropriate TEKS/TAKS objectives. 	<ol style="list-style-type: none"> 1. The teacher provides feedback to all students regarding their learning progress on appropriate TEKS/TAKS objectives.

<i>Exceeds Expectations</i> ALMOST ALL OF THE TIME	<i>Proficient</i> MOST OF THE TIME	<i>Below Expectations</i> SOME OF THE TIME	<i>Unsatisfactory</i> LESS THAN HALF OF THE TIME
(B) Efforts to Enhance Student Attendance*			
6. The teacher monitors attendance of all students in assigned classes and contacts parents, counselors, or other school officials regarding an intervention plan for students with serious attendance problems.	6. The teacher monitors attendance of all students in assigned classes and contacts parents, counselors, or other school officials for students with serious attendance problems.	6. The teacher monitors attendance of all students in assigned classes and contacts parents, counselors, or other school officials for students with serious attendance problems.	6. The teacher monitors attendance of all students in assigned classes and contacts parents, counselors, or other school officials for students with serious attendance problems.
(C) Efforts to Identify and Assist Students in At-Risk Situations			
7. The teacher works with teachers, counselors, and other school professionals to seek information to identify and assess the needs of assigned students in at-risk situations.	7. The teacher identifies and assesses the needs of assigned students in at-risk situations.	7. The teacher identifies and assesses the needs of assigned students in at-risk situations.	7. The teacher identifies and assesses the needs of assigned students in at-risk situations.
8. The teacher meets with parents and/or other teachers of students who are failing or in danger of failing to develop an appropriate plan for intervention.	8. The teacher meets with students who are failing or in danger of failing and develops an appropriate plan for intervention.	8. The teacher meets with students who are failing or in danger of failing and develops an appropriate plan for intervention.	8. The teacher meets with students who are failing or in danger of failing and develops an appropriate plan for intervention.
9. The teacher participates in and/or contributes to campus-wide programs to modify and adapt classroom materials and/or instruction for students in at-risk situations.	9. The teacher modifies and adapts classroom materials and/or instruction for students in at-risk situations.	9. The teacher modifies and adapts classroom materials and/or instruction for students in at-risk situations.	9. The teacher modifies and adapts classroom materials and/or instruction for students in at-risk situations.
(D) Campus Performance Rating			
10. Campus performance includes the most recent: [a] Campus Performance Rating as reported in the State accountability system (AEIS) [b] Adequate Yearly Progress (AYP) as designated in the campus AYP report.			

*The criteria are related to the teacher's efforts to encourage attendance. The criteria do not refer to the attendance level in particular classes.

Comments:

This is N. Learner's first year to teach on this campus. The classroom shows evidence of careful preparation and the resulting benefit for students. Working relationships that have been developed with parents and other student support entities are used to provide a relevant and meaningful learning environment.

Strengths	Areas to Address
Communication with and willingness to seek information from other educators can be seen through initiation of opportunities to meet and learn. Students' engagement is evident in their participation in the learning opportunities offered to them in this classroom.	Alignment of the curriculum across disciplines and grade levels needs continuing study. Skill development in working with students exhibiting inappropriate classroom behavior might be explored. Along with other areas, a broader range of intervention techniques could be included in this study.

Graduation Rate/Attend	Participation & Performance	(Sum of 1-10)

**Teacher's 1 ST Year on Campus		Teacher's Subsequent Years on Campus
Total: 37 to 45	Exceeds Expectations	40 to 50
23 to 36	Proficient	24 to 39
7 to 22	Below Expectations	8 to 23
0 to 6	Unsatisfactory	0 to 7

**Campus performance rating or AYP not scored as per Commissioner's Rules, Ch. 150.1002(f)

Comments:

A. Learner continues to be a leader on this campus by participation in campus/district committees, working closely with team members to analyze data and researching meaningful instructional opportunities. Students in this classroom can be observed to benefit from the thoughtful application of the understanding of their individual learning styles. High expectations provide challenge and a sense of satisfaction for students through their achievement of learning goals.

Strengths	Areas to Address
The high level and quality of instruction and instructional materials show a comprehensive understanding of the curriculum. Work with other teachers/grade levels/departments has been an asset to the entire campus. Learning goals are well defined for students.	A more comprehensive understanding of the obstacles encountered by individual students may need to be sought. This knowledge can be used to create a more individualized and successful instructional environment. Look for ways to involve and guide students in the creation of their own academic goals.

**PROFESSIONAL DEVELOPMENT AND SUPPORT
 TEACHER SELF-REPORT FORM**
 Contributions to The Improvement of Academic Performance
 of All Students on Campus

The following are general rules for use of the Teacher Self-Report (TSR):

- (1) *Based upon the nature of the teaching assignment, TEKS objectives may vary in content and level of difficulty.*
- (2) *Context for the objectives include (1) teaching field, (2) assignment and/or (3) varying characteristics of the teacher's students.*
- (3) *Depending upon the classroom context, objectives may be identified for:*
 - a. *A subset of the TEKS objectives.*
 - b. *A subset of classes assigned to the teacher.*
 - c. *A subset of the teacher's students.*
- (4) *The TSR requires the least amount of writing necessary to communicate the point or make the example (limited to one-half page per item).*

Section I*

The data requested in Section I must be presented to the principal within the first three weeks after the orientation. The teacher may elect to revise this section prior to the annual summative conference.

1. Which academic skills (TEKS objectives) do you directly teach or reinforce in your classes?

OTHER OBJECTIVES

With the approval of the principal, certain high school teachers may substitute other standardized measures and related objectives which are addressed in the AEIS system. This may include SAT/ACT, AP, TASP, and end-of-course examinations. Specify below.

2. What processes do you use to assess the needs of your students with regard to academic skills (TEKS objectives)?

	<u>Check all that apply</u>
Disaggregated TEKS assessment data	_____
Curriculum-correlated assessment materials	_____
Teacher-designed assessment process/materials	_____
Diagnostic observations	_____
Other standardized test results	_____
Cumulative classroom performance data	_____
Other (describe)	_____

PROFESSIONAL DEVELOPMENT AND APPRAISAL SYSTEM
Scoring Factors and Performance Level Standards
2004 Revision

A. CRITICAL ATTRIBUTES

As described in the Appraisal Framework and the Observation Summary

B. Scoring Standards for QUALITY

Exceeds Expectations (Great)
Proficient (Considerable)

Below Expectations (Limited)
Unsatisfactory (Little or None)

For criteria judged by APPROPRIATENESS (see Scoring Factors listed below)

SCORING FACTORS			
<p><u>Strength</u></p> <ul style="list-style-type: none"> • thinking at high cognitive levels • depth and complexity • significant content knowledge • making connections within and across disciplines • connecting learning to work and life applications 	<p><u>Impact</u></p> <ul style="list-style-type: none"> • student success • effective formative and summative assessment • multiple forms of assessments • data-driven decision-making 	<p><u>Variety</u></p> <ul style="list-style-type: none"> • varied needs and characteristics of learners • differentiated instruction • range of strategies and support services 	<p><u>Alignment</u></p> <ul style="list-style-type: none"> • TEKS and district curriculum alignment • assessment data • targeted instruction • understanding of unified whole

C. Scoring Standards for QUANTITY

For criteria judged by FREQUENCY/PERCENTAGE OF TIME/REPEATED EVIDENCE

Exceeds Expectations (All/Almost All) 90-100%	Proficient (Most) 80-89%	Below Expectations (Some) 50-79%	Unsatisfactory (Less than Half) 49% or less
<p>Consistently:</p> <ul style="list-style-type: none"> • uniformly • seen from beginning to end • highly predictable • seamless routines 	<p>Generally:</p> <ul style="list-style-type: none"> • common practice • predictable • typical • prevalent • as a rule 	<p>Occasionally:</p> <ul style="list-style-type: none"> • sporadic • random • moderately • more often than not • irregular • seldom 	<p>Rarely:</p> <ul style="list-style-type: none"> • infrequent • nonexistent • not attempted • minimal • hardly ever

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain I: Active, Successful Student Participation in the Learning Process			
I-1. Students are actively engaged in learning.			
Things To Consider			
<ul style="list-style-type: none"> • Students are focused on the learning objective during the academic learning time. • Evidence of alignment of activities with the learning objective. 			
Quality: Engagement in the learning produces student success. Look for the level of engagement as determined by the strength, impact, variety, and alignment of the activities with the learning objective.			
Quantity: Focus on the number of students actively engaged in the learning at regular intervals.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently engaged and successful in learning that has great depth and complexity.	<u>QUALITY</u> Students are engaged and successful in learning.	<u>QUALITY</u> Students are occasionally successful in learning.	<u>QUALITY</u> Students are rarely/never successful in learning.
Student engagement is consistently self-directed/intrinsically motivated.	Student engagement is self-directed/intrinsically motivated.	Student engagement is occasionally self-directed/intrinsically motivated. Student engagement is frequently a result of mechanical manipulation or coercion by the teacher.	Student engagement is rarely/never self-directed/intrinsically motivated. Student engagement is almost always/always a result of mechanical manipulation or coercion by the teacher.
Students consistently take reasonable risks in responding, extending, questioning, and/or producing products.	Student engagement is self-directed/intrinsically motivated.	Student engagement is occasionally self-directed/intrinsically motivated. Student engagement is frequently a result of mechanical manipulation or coercion by the teacher.	Student engagement is rarely/never self-directed/intrinsically motivated. Student engagement is almost always/always a result of mechanical manipulation or coercion by the teacher.
Students are consistently engaged in connecting/applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom.	Student engagement is self-directed/intrinsically motivated.	Student engagement is occasionally self-directed/intrinsically motivated. Student engagement is frequently a result of mechanical manipulation or coercion by the teacher.	Student engagement is rarely/never self-directed/intrinsically motivated. Student engagement is almost always/always a result of mechanical manipulation or coercion by the teacher.
Multiple instructional strategies aligned with the learning objectives are used to engage learning.	Instructional strategies are aligned with the learning objectives.	Instructional strategies are frequently driven by academic content and/or activities rather than by learning objectives.	Instructional strategies are almost always/always driven by academic content and/or activities rather than by learning objectives.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Students are active learners.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Students are active learners.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Students are active learners.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Students are active learners.
Students are focused on learning objectives that are at an appropriate level of difficulty.	Students are focused on learning objectives that are at an appropriate level of difficulty.	Students are focused on learning objectives that are at an appropriate level of difficulty.	Students are focused on learning objective that are at an appropriate level of difficulty.
Instructional strategies/activities reflect the unique needs/characteristics of students.	Instructional strategies/activities reflect the unique needs/characteristics of students.	Instructional strategies reflect the unique needs/characteristics of students.	Instructional strategies reflect the unique needs/characteristics of students.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain I: Active, Successful Student Participation in the Learning Process			
I-2. Students are successful in learning.			
Things To Consider			
<ul style="list-style-type: none"> • Students demonstrate success with the stated, implied or written learning objectives. • Assessment is aligned with the stated, implied or written learning objectives. 			
Quality: Assessment criteria and standards are clear and have been communicated to the student. Look at the level of success of students through strength, impact, variety and alignment of the assessment with the content and instruction.			
Quantity: Focus on the number of students that are assessed. Focus on the number of students that are successful in the learning.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently successful in learning. Learning objectives have great depth and complexity.	<u>QUALITY</u> Students are successful in learning. Learning objectives have some depth and complexity.	<u>QUALITY</u> Students are occasionally successful in learning. Learning objectives are frequently at low levels of complexity.	<u>QUALITY</u> Students are rarely/never successful in learning. Learning objectives are almost always/always at low levels of complexity.
Student engagement and success are consistently self-directed/intrinsically motivated.	Student engagement and success are self-directed/intrinsically motivated.	Students are occasionally successful in learning.	Students are rarely/never successful in learning.
Students consistently take reasonable risks in responding, extending, questioning, and/or producing products.	Students take reasonable risks in responding, extending, questioning, and/or producing products.	Students are occasionally successful in learning.	Students are rarely/never successful in learning.
Students are consistently successful in connecting/applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom. Students are consistently assessed on learning that is aligned with the learning objectives.	Students are successful in connecting/applying learning within the discipline. Students are assessed on learning that is aligned with the learning objectives.	Students are occasionally successful in learning. Assessment strategies are frequently driven by academic content and/or activities rather than by learning objectives.	Students are rarely/never successful in learning. Assessment strategies are almost always/always driven by academic content and/or activities rather than by learning objectives.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Students are successful in reaching the learning objectives.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Students are successful in reaching the learning objectives.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Students are successful in reaching the learning objectives.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Students are successful in reaching the learning objectives.
Assessment strategies consistently reflect the unique needs/characteristics of students.	Assessment strategies reflect the unique needs/characteristics of students.	Assessment strategies reflect the unique needs/characteristics of students.	Assessment strategies reflect the unique needs/characteristics of students.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain I: Active, Successful Student Participation in the Learning Process			
I-3. Student behaviors indicate learning is at a high cognitive level (e.g., critical thinking, creative thinking, problem solving, etc.).			
Things To Consider			
<ul style="list-style-type: none"> • Students are involved in learning activities at the application level or higher on Bloom's Taxonomy. • Learning activities produce a logical and innovative approach, or a solution to a problem or concern. 			
Quality: Look at the level of thinking to determine the strength, impact, variety and alignment of the learning activity. Learning activities are at the application level or higher on Bloom's Taxonomy when appropriate to the learning objective. Students are challenged by the instruction.			
Quantity: Focus on the number of students involved in learning activities at the application level or higher on Bloom's Taxonomy, when appropriate to the learning objective.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY Students are consistently successful in learning that has depth, complexity and links to a conceptual foundation.	QUALITY Students are successful in the learning objectives that are at an appropriate level of difficulty.	QUALITY Students are occasionally successful in the learning objectives that are at an appropriate level of difficulty.	QUALITY Students are rarely/never successful in the learning objectives that are at an appropriate level of difficulty.
Students consistently take reasonable risks in responding, extending, questioning, and/or producing products that reflect the application level or higher on Blooms' Taxonomy.	Students take reasonable risks in responding, extending, questioning, and/or producing products that reflect the application level or higher on Blooms' Taxonomy.	Students are occasionally successful in the learning objectives that are at an appropriate level of difficulty.	Students are rarely/never successful in the learning objectives that are at an appropriate level of difficulty.
Students are consistently engaged in connecting/applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom.	Students are engaged in connecting/applying learning within the discipline.	Students are occasionally engaged in connecting/applying learning within the discipline.	Students are rarely/never engaged in connecting/applying learning within the discipline.
QUANTITY <u>ALMOST ALL OF THE TIME (90%-100%)</u> Students are focused on complex and challenging learning objectives.	QUANTITY <u>MOST OF THE TIME (80-89%)</u> Students are focused on challenging learning objectives.	QUANTITY <u>SOME OF THE TIME (50-79%)</u> Students are focused on challenging objectives.	QUANTITY <u>MOST OF THE TIME (0-49%)</u> Students are focused on challenging objectives.
Students are engaged in instructional activities that are driven by high level learning objectives.	Students are engaged in instructional activities that are driven by high level learning objectives.	Students are engaged in instructional activities that are driven by high level learning objectives.	Students are engaged in instructional activities that are driven by high level learning objectives.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain I: Active, Successful Student Participation in the Learning Process			
I-4. Students are self-directed/self-initiated as appropriate to the lesson objectives.			
Things To Consider			
<ul style="list-style-type: none"> • Students create or extend a skill, knowledge or concept connected to the learning objective. • Students initiate or adapt activities and projects to enhance understanding. • Students demonstrate task commitment. Quality: Focus on appropriateness of content for self-directed/self-initiated opportunities. Quantity: Focus on the number of students that are appropriately self-directed/self-initiated.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently successful in extending the learning, appropriately questioning the teacher and/or peers and/or producing products using appropriate self-directed/self-initiated activities.	<u>QUALITY</u> Students are successful in appropriate self-directed/self-initiated activities.	<u>QUALITY</u> Students are occasionally successful in appropriate self-directed/self-initiated activities.	<u>QUALITY</u> Students are rarely/never successful in appropriate self-directed/self-initiated activities.
Students are consistently successful in finding their own strategies for connecting/applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom.	Students are successful in finding their own strategies for connecting/applying learning.	Students are occasionally successful in appropriate self-directed/self-initiated activities. Most instruction is teacher directed.	Students are rarely/never successful in appropriate self-directed/self-initiated activities. Most instruction is teacher directed.
The teacher uses a variety of motivational and instructional strategies to promote student responsibility/investment in appropriate self-directed/self-initiated activities.	The teacher uses motivational and instructional strategies to promote student responsibility/investment in appropriate self-directed/self-initiated activities.	The teacher occasionally uses motivational and instructional strategies to promote student responsibility/investment in appropriate self-directed/self-initiated activities.	The teacher rarely/never uses motivational and instructional strategies to promote student responsibility/investment in appropriate self-directed/self-initiated activities.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90%-100%)</u> Students are engaged in appropriate self-directed/self-initiated activities.	<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (80-89%)</u> Students are engaged in appropriate self-directed/self-initiated activities.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Students are engaged in appropriate self-directed/self-initiated activities.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Students are engaged in appropriate self-directed/self-initiated activities.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain I: Active, Successful Student Participation in the Learning Process			
I-5. Students connecting learning to work and life applications, both within the discipline, and with other disciplines.			
Things To Consider			
<ul style="list-style-type: none"> • Students demonstrate a connection of the learning to work and life applications. • Students demonstrate a connection of the learning to prior/future learning within the discipline. • Students demonstrate a connection of the learning with other disciplines. 			
Quality: Look for strength, impact, variety, and alignment of the connection with the learning objective.			
Quantity: Focus on the number of students that can demonstrate a connection of the learning to work and life applications, both within the discipline, and with other disciplines.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Depth and complexity of learning are consistently characterized by successful student connection of the learning with prior/future learning within the discipline, with other disciplines, with students’ interests/experiences, with issues beyond the classroom.	<u>QUALITY</u> Depth and complexity of learning are characterized by successful student connection of the learning with prior/future learning within the discipline.	<u>QUALITY</u> Students are occasionally successful in learning.	<u>QUALITY</u> Students are rarely/never successful in learning.
Student responsibility/investment in complex learning is consistent.	Student responsibility/investment in learning is present.	Students are occasionally successful in learning.	Students are rarely/never successful in learning.
Students consistently take reasonable risks in responding, extending, questioning, and/or producing products.	Students take reasonable risks in responding, extending, questioning, and/or producing products.	Students are occasionally successful in learning.	Students are rarely/never successful in learning.
Students are consistently engaged in producing high quality products, which connect learning with prior/future learning within the discipline, with other disciplines, with students’ interests/experiences, with issues beyond the classroom.	Students are engaged in producing quality products, which connect learning with prior/future learning within the discipline.	Students are occasionally successful in learning.	Students are rarely/never successful in learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Students are successful in connecting the learning to work and life applications, both within the discipline and with other disciplines.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Students are successful in connecting the learning to work and life applications, both within the discipline and with other disciplines.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Students are successful in connecting the learning to work and life applications, both within the discipline and with other disciplines.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Students are successful in connecting the learning to work and life applications, both within the discipline and with other disciplines.
Students are engaged in multiple activities to connect the learning to work and life applications, both within the discipline and with other disciplines.	Students are engaged in multiple activities to connect the learning to work and life applications, both within the discipline and with other disciplines.	Students are engaged in multiple activities to connect the learning to work and life applications, both within the discipline and with other disciplines.	Students are engaged in multiple activities to connect the learning to work and life applications, both within the discipline and with other disciplines.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-1. Objectives and goals include basic knowledge/skills and central themes/concepts of the discipline.			
Things To Consider			
<ul style="list-style-type: none"> • The learning objective is communicated or implied. • The learning objective addresses a new skill or knowledge. • The learning objective connects to a central theme/concept of the discipline. • The learning objective addresses the TEKS, as appropriate. 			
Quality: Objectives and goals reflect important learning and conceptual understanding. Look for strength, impact, variety, and alignment of the learning objective to a central theme/concept of the discipline.			
Quantity: Objectives and goals reflect needs of all students.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY Students are consistently successful in learning that is constructed around central themes/concepts of the discipline.	QUALITY Students are successful in learning that is constructed around central themes/concepts of the discipline.	QUALITY Students are occasionally successful in learning. Instruction is occasionally constructed around central themes/concepts of the discipline.	QUALITY Students are rarely/never successful in learning. Instruction is rarely/never constructed around central themes/concepts of the discipline.
Students consistently find their own strategies for constructing learning and for connecting/applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom.	Students find their own strategies for constructing learning and for connecting/applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom.	Students are occasionally successful in learning. Instruction is occasionally constructed around central themes/concepts of the discipline.	Students are rarely/never successful in learning. Instruction is rarely/never constructed around central themes/concepts of the discipline.
Multiple strategies are consistently used to communicate the specific new learning objectives (skill and/or concept).	Strategies are used to communicate the specific new learning objectives (skill and/or concept).	Strategies are occasionally used to communicate the specific new learning objectives (skill and/or concept).	Strategies are rarely/never are used to communicate the specific new learning objectives (skill and/or concept).
Learning is consistently constructed around concepts that are central themes/concepts in more than one discipline.	Learning is constructed around central themes/concepts of the discipline rather than miscellaneous, unconnected sets of knowledge and/or skills.	Learning is occasionally constructed around central themes/concepts of the discipline; it frequently consists of unconnected sets of knowledge/skills.	Learning is rarely/never constructed around central themes/concepts of the discipline; it almost always/always consists of unconnected sets of knowledge/skills.
QUANTITY ALMOST ALL OF THE TIME (90-100%) Students are consistently aware of the specific, new learning objectives (skill and/or concept).	QUANTITY MOST OF THE TIME (80-89%) Students are aware of the specific, new learning objectives (skill and/or concept).	QUANTITY SOME OF THE TIME (50-79%) Students are occasionally aware of the specific, new learning objectives (skill and/or concept).	QUANTITY LESS THAN HALF OF THE TIME (0-49%) Students are rarely/never aware of the specific, new learning objectives (skill and/or concept).
Learning objectives are appropriate to the unique needs/characteristics of all students.	Learning objectives are appropriate to the unique needs/characteristics of all students.	Learning objectives are appropriate to the unique needs/characteristics of all students.	Learning objectives are appropriate to the unique needs/characteristics of all students.
New learning is aligned with the TEKS, when appropriate.	New learning is aligned with the TEKS, when appropriate.	New learning is aligned with the TEKS, when appropriate.	New learning is aligned with the TEKS, when appropriate.
Instruction has been collaboratively planned and delivered to insure connection between/among disciplines.	Instruction has been collaboratively planned and delivered to insure connection between/among disciplines.	Instruction has been collaboratively planned and delivered to insure connection between/among disciplines.	Instruction has been collaboratively planned and delivered to insure connection between/among disciplines.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-2. Instructional content is learner-centered (e.g., relates to the interests and varied characteristics of students).			
Things To Consider			
<ul style="list-style-type: none"> • Teacher relates instruction to the interests of students. • Teacher relates instruction to the needs of students. • Teacher relates instruction to the varied characteristics of students. 			
Quality: Content is relevant to students and instructional goals. Lesson structure allows for different pathways according to student needs. Look for strength, impact, variety, and alignment of content with the varied characteristics of students.			
Quantity: Look for appropriate connections to all students.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently engaged and successful in the learning.	<u>QUALITY</u> Students are engaged and successful in the learning.	<u>QUALITY</u> Students are occasionally engaged and successful in the learning.	<u>QUALITY</u> Students are rarely/never engaged and successful in the learning.
Students consistently make their own connections between the learning and their unique needs, interests, and/or characteristics.	Students are engaged and successful in the learning.	Students are occasionally engaged and successful in the learning. Students are frequently dependent on the teacher to make connections between their learning and their unique needs.	Students are rarely/never engaged and successful in the learning. Students are almost always/always dependent on the teacher to make connections between their learning and their unique needs.
The teacher consistently uses unique /creative/innovative strategies to relate the learning to the unique needs, interests, and or characteristics of the students.	Students are engaged and successful in the learning.	Students are occasionally engaged and successful in the learning.	Students are rarely/never engaged and successful in the learning.
Instruction provides students with multiple pathways/approaches for new learning that meet their unique needs, interest, and or characteristics.	Students are engaged and successful in the learning.	Students are occasionally engaged and successful in the learning.	Students are rarely/never engaged and successful in the learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Instruction is related/connected with the unique needs, interests, and characteristics of students.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Instruction is related/connected with the unique needs, interests, and/or characteristics of students.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Instruction is related/connected with the unique needs, interests, and/or characteristics of students.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Instruction is related/connected with the unique needs, interests, and/or characteristics of students.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-3. Instructional strategies promote critical thinking and problem solving.			
Things To Consider			
<ul style="list-style-type: none"> • Content and activities are at the application level or higher on Bloom’s Taxonomy when appropriate to the learning objective. • Instructional strategies are research based. • Instructional strategies reflect current knowledge and practice within the content area. 			
Quality: Teacher guides students to construct knowledge through experience. Instruction progresses coherently producing success in application of the learning. Look for strength, impact, variety, and alignment of the strategies with the learning objective.			
Quantity: Focus on the number of students performing at the application level or higher on Bloom’s Taxonomy when appropriate to the learning objective.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently successful in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).	<u>QUALITY</u> Students are successful in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).	<u>QUALITY</u> Students are occasionally successful in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).	<u>QUALITY</u> Students are rarely/never successful in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).
Students are consistently successfully engaged in unique, creative, and/or innovative critical thinking/problem solving activities.	Students are successfully engaged in creative, critical thinking/problem solving activities.	Students are occasionally successfully engaged in critical thinking/problem solving activities. Students are frequently engaged in routine, rote activities.	Students are rarely/never successfully engaged in critical thinking/problem solving activities. Students are almost always/always engaged in routine, rote activities.
Students’ critical thinking/problem solving consistently leads to connections between new learning and prior/future learning, other disciplines, the world of the student, and/or issues in the world beyond the classroom.	Students are successfully engaged in creative, critical thinking/problem solving activities.	Students are occasionally successfully engaged in critical thinking/problem solving activities. Students are frequently engaged in routine, rote activities.	Students are rarely/never successfully engaged in critical thinking/problem solving activities. Students are almost always/always engaged in routine, rote activities.
Students consistently initiate and/or devise their own strategies for critical thinking/problem solving and or devise their own activities. Students consistently construct their own knowledge through inquiry and experience.	Students are successfully engaged in creative, critical thinking/problem solving activities.	Students occasionally initiate and/or devise their own strategies for critical thinking/problem solving and/or devise their own activities. Strategies for critical thinking/problem solving are typically teacher devised and directed.	Students rarely/never initiate and/or devise their own strategies for critical thinking/problem solving and/or devise their own activities. Strategies for critical thinking/problem solving are typically almost always/always teacher devised and directed.
Students are doing the thinking and problem solving and the teacher is acting as a guide.	Students are successfully engaged in creative, critical thinking/problem solving activities.	The teacher frequently does most of the thinking and problem solving and the students are passive recipients.	The teacher almost always/always does most of the thinking and problem solving and the students are passive recipients.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Students are engaged in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Students are engaged in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Students are engaged in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Students are engaged in critical thinking and problem solving activities (i.e., application level or higher on Bloom’s Taxonomy).
Instructional strategies are research based.	Instructional strategies are research based.	Instructional strategies are research based.	Instructional strategies are research based.
Instructional strategies reflect current knowledge and practice within the content area.	Instructional strategies reflect current knowledge and practice within the content area.	Instructional strategies reflect current knowledge and practice within the content area.	Instructional strategies reflect current knowledge and practice within the content area.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-4. Instructional strategies include motivational techniques to successfully and actively engage students in the learning process.			
Things To Consider			
<ul style="list-style-type: none"> • Strategies include elements of motivation, such as, level of concern, interest, knowledge of results, positive classroom climate and acknowledgments. • Instructional strategies are research based. • Instructional strategies reflect current knowledge and practice within the discipline. 			
Quality: Motivational techniques produce active engagement of students in the learning process. Engagement in the learning process produces learning success. Look for strength, impact, variety, and alignment of the motivational techniques and the learning success.			
Quantity: Motivational techniques are used as necessary to engage students and produce learning success.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently successfully engaged in critical thinking and problem solving, connecting new learning to their own lives, to other disciplines, and/or to issues in the world beyond the classroom.	<u>QUALITY</u> Students are successfully engaged in learning objectives that are at an appropriate level of difficulty.	<u>QUALITY</u> Students are occasionally successfully engaged in learning.	<u>QUALITY</u> Students are rarely/never successfully engaged in learning.
Learning objectives are consistently at appropriate levels of complexity.	Learning objectives are at appropriate levels of complexity.	Learning objectives are occasionally at appropriate levels of complexity.	Learning objectives are rarely/never at appropriate levels of complexity.
Student engagement is consistently self-directed/intrinsically motivated.	Student engagement is self-directed/intrinsically motivated.	Students are occasionally successfully engaged in learning. Student engagement is frequently a result of mechanical manipulation or coercion by the teacher.	Students are rarely/never successfully engaged in learning. Student engagement is almost always/always a result of mechanical manipulation or coercion by the teacher.
Students consistently take reasonable risks in responding, extending, appropriately questioning the teacher and/or peers, and/or producing products that represent complex learning.	Students take risks in responding, extending, questioning, and/or producing products.	Students are occasionally successfully engaged in learning.	Students are rarely/never successfully engaged in learning.
Students are consistently engaged in connecting and/or applying learning to other disciplines, their own lives, and/or issues in the world beyond the classroom.	Students are engaged in connecting/applying learning within the discipline.	Students are occasionally engaged in connecting/applying learning within the discipline.	Students are rarely/never engaged in connecting/applying learning within the discipline.
Students are consistently eager and excited about the learning. Students are not reluctant to ask questions and/or ask for assistance when they are having difficulty.	Students are eager and excited about the learning.	Students are occasionally eager or excited about the learning.	Students are rarely/never eager or excited about the learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Motivational techniques are used as necessary to engage students and produce learning success.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Motivational techniques are used as necessary to engage students and produce learning success.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Motivational techniques are used as necessary to engage students and produce learning success.	<u>QUANTITY</u> <u>LESS THEN HALF OF THE TIME (0-49%)</u> Motivational techniques are used as necessary to engage students and produce learning success.
Instructional strategies are research based.	Instructional strategies are research based.	Instructional strategies are research based.	Instructional strategies are research based.
Instructional strategies reflect current knowledge and practice within the discipline.	Instructional strategies reflect current knowledge and practice within the discipline.	Instructional strategies reflect current knowledge and practice within the discipline.	Instructional strategies reflect current knowledge and practice within the discipline.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-5. Instructional strategies are aligned with the objectives, activities, student characteristics, prior learning, and work and life applications, both within the discipline and with other disciplines.			
Things To Consider			
<ul style="list-style-type: none"> • Instructional strategies are aligned with the lesson objectives. • Instructional strategies are aligned with the activities. • Instructional strategies are aligned with student characteristics. • Instructional strategies are aligned with prior learning. • Instructional strategies are aligned with work and life applications. • Instructional strategies are research based. • Instructional strategies reflect current knowledge and practice within the content area. 			
Quality: Teacher connects critical attributes of the learning, personal lives, work, prior/future learning, content within the discipline, and with other disciplines. Teacher selects and organizes topics so students make connections between what is taught in school and what they experience outside the classroom.			
Quantity: There is common practice of the alignment of instructional strategies to curriculum objectives.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY The teacher uses unique, creative, and/or innovative strategies to make multiple connections between the critical attributes of the learning and students’ personal lives, work, prior/future learning, content within the discipline, and/or the content in other disciplines.	QUALITY The teacher connects critical attributes of the learning to students’ personal lives, work, and prior/future learning, content within the discipline, and content in other disciplines.	QUALITY The teacher occasionally connects critical attributes of the learning to students’ personal lives, work, and prior/future learning, content within the discipline, and content in other disciplines.	QUALITY The teacher rarely/never connects learning within the discipline and rarely/never makes connections among the learning and students’ personal lives, work, prior/future learning, content within the discipline, or content in other disciplines.
The teacher consistently selects topics, which are central themes and concepts of the discipline, and organizes academic content to focus it on issues in the world beyond the classroom.	The teacher selects and organizes topics so students make connections between what is taught in school and what they experience outside the classroom.	The teacher occasionally selects and organizes topics so students make connections between what is taught in school and what they experience outside the classroom.	The teacher rarely/never selects and organizes topics so students make connections between what is taught in school and what they experience outside the classroom.
The students successfully make their own and/or multiple connections between what is being learned and other disciplines, their own lives, the world of work, and/or issues in the world beyond the classroom.	The students successfully make connections between what is being taught in school and the world beyond the classroom.	The students occasionally make connections between what is being taught in school and the world beyond the classroom.	The students rarely/never make connections between what is being taught in school and the world beyond the classroom.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-6. The teacher varies activities appropriately and maintains appropriate pacing and sequencing of instruction.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher varies activities. • Teacher maintains pacing. • Teacher sequences instruction. 			
Quality: Look for appropriateness of activities, pacing and sequence of instruction. Learning activities are relevant to students. Transitions occur without loss of instructional time. Sequence of instruction reflects recent research and/or current knowledge and practice within the content area.			
Quantity: Activities are challenging for most students. Teacher demonstrates a variety of strategies, as appropriate. Focus on the number of students that are successful.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students consistently complete transitions and administrative tasks quickly, with little or no direction from the teacher—procedures are in place and students know what they are.	<u>QUALITY</u> Students complete transactions and administrative tasks quickly. Transitions and administrative tasks consume little or no instructional time.	<u>QUALITY</u> Students occasionally complete transactions and administrative tasks quickly. Transitions and/or administrative tasks frequently consume significant amounts of instructional time.	<u>QUALITY</u> Students rarely/never complete transactions and administrative tasks quickly. Transitions and/or administrative tasks almost always/always consume significant amounts of instructional time.
The teacher consistently adjusts and/or allows students to adjust the sequence of activities and/or the pace to meet the individual needs/characteristics of students.	Student engagement and success indicate that the sequence of activities and pace of the lesson are appropriate.	Student engagement and success occasionally indicate that the sequence of activities and pace of the lesson are appropriate. Students frequently disengage from learning and/or are unsuccessful as a result of inappropriate sequence of activities and/or inappropriate pace of the lesson (too fast or too slow).	Student engagement and success rarely/never indicate that the sequence of activities and pace of the lesson are appropriate. Students almost always/always disengage from learning and/or are unsuccessful as a result of inappropriate sequence of activities and/or inappropriate pace of the lesson (too fast or too slow).
The teacher consistently uses interesting, fun, and/or relevant activities so that students are engaged in the learning process.	The teacher uses interesting, fun, and/or relevant activities so that students are engaged in the learning process.	The teacher occasionally uses interesting, fun, and/or relevant activities so that students are occasionally engaged in the learning process. Students are frequently engaged because of teacher manipulation/coercion.	The teacher rarely/never uses interesting, fun, and/or relevant activities so that students are never/almost never engaged in the learning process. Students are almost always/always engaged because of teacher manipulation/coercion.
The teacher is consistently proactive in insuring that prior learning for the new learning is in place.	The teacher is proactive in insuring that prior learning for the new learning is in place.	The teacher frequently moves from one stage of the learning to the next even when many students are not being successful.	The teacher almost always/ always moves from one stage of the learning to the next even when many students are not being successful.
The teacher consistently monitors students’ understanding at every stage of the learning before moving to the next stage.	The teacher monitors students’ understanding at every stage of the learning before moving to the next stage.	The teacher occasionally monitors students’ understanding at every stage of the learning before moving to the next stage.	The teacher rarely/never monitors students’ understanding at every stage of the learning before moving to the next stage.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Activities are challenging for most students.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Activities are challenging for most students.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Activities are challenging for most students.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Activities are challenging for most students.
Teacher demonstrates a variety of strategies/activities, as appropriate.	Teacher demonstrates a variety of strategies/activities, as appropriate.	Teacher demonstrates a variety of strategies/activities, as appropriate.	Teacher demonstrates a variety of strategies/activities, as appropriate.
Students are successful.	Students are successful.	Students are successful.	Students are successful.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-7. The teacher emphasizes the value and importance of the activity/content.			
Things To Consider <ul style="list-style-type: none"> • Teacher stresses value of the activity. • Teacher projects necessity for content into future learning objectives. • Teacher communicates importance of content in the lives of students. Quality: Teacher conveys genuine enthusiasm for the content. Students demonstrate commitment to the value of the activity/content. Look for strength, impact, variety, and alignment of connection to the activity/content. Quantity: Focus on the number of students that make the connection to the learning.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students consistently demonstrate an understanding of the value/importance of the learning.	<u>QUALITY</u> Students demonstrate an understanding of the value/importance of the learning.	<u>QUALITY</u> Students occasionally demonstrate an understanding of the value/importance of the learning.	<u>QUALITY</u> Students rarely/never demonstrate an understanding of the value/importance of the learning.
Students consistently are eager and excited about the activity/content.	Students are eager and excited about the activity/content.	Students are occasionally eager and excited about the activity/content.	Students are rarely/never eager and excited about the activity/content.
The students consistently make their own connections between the new learning and prior learning, future learning, learning in other disciplines, their own lives, and/or the world beyond the classroom.	The students make their own connections between the new learning and prior learning, future learning, learning in other disciplines, their own lives, and/or the world beyond the classroom.	The students are occasionally able to make their own connections between the new learning and prior learning, future learning, learning in other disciplines, their own lives, and/or the world beyond the classroom.	The students are rarely/never able to make their own connections between the new learning and prior learning, future learning, learning in other disciplines, their own lives, and/or the world beyond the classroom.
The teacher consistently uses a variety of creative, unique, and/or innovative strategies to demonstrate the value/importance of the content/activity.	The teacher uses a variety of strategies to demonstrate the value/importance of the content/activity.	The teacher uses strategies to demonstrate the value/importance of the content/activity.	The teacher rarely/never uses strategies to demonstrate the value/importance of the content/activity.
The teacher consistently structures the lesson in such a way that students discover for themselves the value/importance of the content/activity.	The teacher structures the lesson in such a way that students discover for themselves the value/importance of the content/activity.	The teacher occasionally structures the lesson in such a way that students discover for themselves the value/importance of the content/activity.	The teacher rarely/never structures the lesson in such a way that students discover for themselves the value/importance of the content/activity.
Students consistently apply new learning and/or produce products that demonstrate the value/importance of the content/activity.	Students apply new learning and/or produce products that demonstrate the value/importance of the content/activity.	Students occasionally apply new learning and/or produce products that demonstrate the value/importance of the content/activity.	Students rarely/never apply new learning and/or produce products that demonstrate the value/importance of the content/activity.
The teacher consistently communicates genuine excitement and enthusiasm for the content/activity.	The teacher communicates genuine excitement and enthusiasm for the content/activity.	The teacher occasionally communicates genuine excitement and enthusiasm for the content/activity.	The teacher rarely/never communicates genuine excitement and enthusiasm for the content/activity.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher emphasizes the value and importance of the activity/content.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher emphasizes the value and importance of the activity/content.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher emphasizes the value and importance of the activity/content.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher emphasizes the value and importance of the activity/content.
Students make a commitment to the activity/content.	Students make a commitment to the activity/content.	Students make a commitment to the activity/content.	Students make a commitment to the activity/content.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-8. The teacher uses appropriate questioning and inquiry techniques to challenge students.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher uses questioning strategies that challenge. • Teacher uses questioning strategies that engage students. • Teacher varies questioning strategies. 			
Quality: Look for evidence of student progress and/or success. Look for students initiating probes and making appropriate contributions. Look for strength, variety, impact, and alignment of questions with content.			
Quantity: Focus on the number of students sampled.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students consistently participate in challenging questioning and/or inquiry techniques.	<u>QUALITY</u> Students participate in challenging questioning and/or inquiry techniques.	<u>QUALITY</u> Students occasionally participate in challenging questioning and/or inquiry techniques.	<u>QUALITY</u> Students rarely/never participate in challenging questioning and/or inquiry techniques.
Instruction is consistently student-centered, inquiry-based learning and focuses on students as thinkers and problem-solvers.	Instruction is student-centered, inquiry-based learning and focuses on students as thinkers and problem-solvers.	Instruction is occasionally student-centered, inquiry-based learning and focuses on students as thinkers and problem-solvers.	Instruction is rarely/never student-centered, inquiry-based learning and focuses on students as thinkers and problem-solvers.
Students consistently and successfully initiate extensions of the questions/answers and/or the inquiry process.	The teacher uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher occasionally uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher rarely/never uses appropriate strategies for questioning and/or for guiding an inquiry process.
Students consistently initiate contributions to the questions/answers and/or the inquiry process.	The teacher uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher occasionally uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher rarely/never uses appropriate strategies for questioning and/or for guiding an inquiry process.
Students consistently appropriately challenge/question the teacher and/or their peers in the inquiry process.	The teacher uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher occasionally uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher rarely/never uses appropriate strategies for questioning and/or for guiding an inquiry process.
Students consistently design their own guiding questions/inquiry processes.	The teacher uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher occasionally uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher rarely/never uses appropriate strategies for questioning and/or for guiding an inquiry process.
The teacher consistently uses a variety of creative, unique, and/or innovative strategies for questioning and/or for guiding an inquiry process.	The teacher uses appropriate strategies for questioning and/or for guiding an inquiry process.	The teacher occasionally uses appropriate strategies for questioning and/or for guiding an inquiry process. The teacher frequently uses rote, dull repetitive strategies for questioning and/or for guiding an inquiry process.	The teacher rarely/never uses appropriate strategies for questioning and/or for guiding an inquiry process. The teacher almost always/always uses rote, dull repetitive strategies for questioning and/or for guiding an inquiry process.
Teacher and/or student questioning/inquiry strategies consistently promote successful critical thinking, problem solving, and connectivity within the discipline, with other disciplines, to the world of the student, and/or to issues in the world beyond the classroom.	Teacher and/or student questioning/inquiry strategies promote successful critical thinking, problem solving, connectivity within the discipline, and connectivity with other disciplines.	The teacher occasionally uses appropriate strategies for questioning and/or for guiding an inquiry process. The teacher frequently uses rote, dull repetitive strategies for questioning and/or for guiding an inquiry process.	The teacher rarely/never uses appropriate strategies for questioning and/or for guiding an inquiry process. The teacher almost always/always uses rote, dull repetitive strategies for questioning and/or for guiding an inquiry process.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher uses appropriate questioning and inquiry techniques to challenge students.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher uses appropriate questioning and inquiry techniques to challenge students.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher uses appropriate questioning and inquiry techniques to challenge students.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher uses appropriate questioning and inquiry techniques to challenge students.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain II: Learner-Centered Instruction			
II-9. The teacher makes appropriate and effective use of available technology as a part of the instructional process.			
Things To Consider			
<ul style="list-style-type: none"> Technologies (computers, calculators, telecommunication, multimedia, videotape and film, laser disc, CD-ROM, satellite/distance learning, facsimile (fax), modem, scanners, etc.) are used as instructional tools, when available and appropriate. 			
Quality: Technology is suitable to the instructional goal. Technology engages the students mentally. Look for strength, impact, variety, and alignment of instructional process and technology.			
Quantity: Focus on the utilization of technology as an instructional tool.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> The use of available technology is appropriate and aligned with the instructional goals.	<u>QUALITY</u> The use of available technology is appropriate and aligned with the instructional goals.	<u>QUALITY</u> The use of available technology is occasionally appropriate and occasionally aligned with the instructional goals.	<u>QUALITY</u> The use of available technology is rarely/never appropriate and rarely/never aligned with the instructional goals.
Students are highly engaged and enthusiastic as a result of the use of the technology.	Students use available technology.	Students occasionally use available technology.	Students rarely/never use available technology.
Students consistently use technology to: <ul style="list-style-type: none"> promote depth and complexity of learning; connect learning to other disciplines, their own world, and the world beyond the classroom and/or; produce products that represent complex learning. 	Students use technology to: <ul style="list-style-type: none"> promote depth and complexity of learning; connect learning to other disciplines, their own world, and the world beyond the classroom and/or; produce products that represent complex learning. 	Students occasionally use technology. Student use of technology is frequently limited to transmission of rote information and/or for rote drill and practice.	Students rarely/never use technology. Student use of technology is almost always/always limited to transmission of rote information and/or for rote drill and practice.
The teacher consistently utilizes a variety of technology resources when appropriate and available.	The teacher utilizes a variety of technology resources when appropriate and available.	The teacher occasionally utilizes a variety of technology resources when appropriate and available.	The teacher rarely/never utilizes a variety of technology resources when appropriate and available.
The teacher consistently seeks out and secures available and/or new technology.	The teacher seeks out and secures available and/or new technology.	The teacher frequently misses opportunities to secure and use available and/or new technology.	The teacher almost always/always misses opportunities to secure and use available and/or new technology.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher makes use of available technology as a part of the instructional process.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher makes use of available technology as a part of the instructional process.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher makes use of available technology as a part of the instructional process.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher makes use of available technology as a part of the instructional process.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain III: Evaluation and Feedback on Student Progress			
III-1. Academic progress of students is monitored and assessed.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher monitors student work during guided practice. • Teacher provides for formative assessment prior to independent practice. • Teacher assesses student progress toward learning goals. 			
Quality: Teacher’s system for obtaining, interpreting, and acting on information on student progress is focused on student progress in learning. Look for strength, impact, variety, and alignment of the assessment with the objectives.			
Quantity: Focus on the number of students that are monitored and assessed.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Teacher’s system for obtaining, interpreting, and acting on information on student progress is consistently focused on short-term and long-term student progress in learning.	<u>QUALITY</u> Teacher’s system for obtaining, interpreting, and acting on information on student progress is focused on student progress in learning.	<u>QUALITY</u> Teacher’s system for obtaining, interpreting, and acting on information on student progress is frequently mechanical and is only occasionally focused on student progress in learning.	<u>QUALITY</u> Teacher’s system for obtaining, interpreting, and acting on information on student progress is almost always/always mechanical and is rarely/never focused on student progress in learning.
Teacher consistently uses a variety of effective, creative, unique, and/or innovative strategies for monitoring, assessing, and/or providing feedback on student progress.	Teacher uses effective strategies for monitoring, and assessing, and/or providing feedback on student progress.	Teacher occasionally uses effective strategies for monitoring, and assessing, and/or providing feedback on student progress.	Teacher rarely/never uses effective strategies for monitoring, and assessing, and/or providing feedback on student progress.
The teacher consistently acts on assessment data before moving from one stage of instruction to the next and to plan new instruction.	The teacher acts on assessment data before moving from one stage of instruction to the next and to plan new instruction.	The teacher moves from one stage of instruction to the next and plans new instruction with limited information regarding student progress.	The teacher moves from one stage of instruction to the next and plans new instruction with little/no information regarding student progress.
The teacher consistently provides positive, specific, and timely feedback, which results in student progress toward learning goals (e.g., students repeating their successes and correcting their mistakes).	The teacher provides positive, specific, and timely feedback, which results in student progress toward learning goals (e.g., students repeating their successes and correcting their mistakes).	The teacher’s feedback to students is occasionally positive, specific, and/or timely; feedback occasionally results in student progress toward learning goals (e.g., students repeating their successes and correcting their mistakes).	The teacher’s feedback to students is rarely/never positive; feedback rarely/never results in student progress toward learning goals (e.g., students repeating their successes and correcting their mistakes).
The teacher consistently uses monitoring and assessment strategies that reflect an understanding of the unique needs and characteristics of students.	The teacher uses monitoring and assessment strategies that reflect an understanding of the unique needs and characteristics of students.	The teacher occasionally uses monitoring and assessment strategies that reflect an understanding of the unique needs and characteristics of students.	The teacher rarely/never uses monitoring and assessment strategies that reflect an understanding of the unique needs and characteristics of students.
The teacher consistently conducts formal/informal formative assessments and consistently acts on that information to adjust learning to promote student learning.	The teacher conducts formal/informal formative assessments and acts on that information to adjust learning to promote student learning.	The teacher occasionally conducts formal/informal formative assessments and occasionally acts on that information to adjust learning to promote student learning.	The teacher rarely/never conducts formal/informal formative assessments and rarely/never acts on that information to adjust learning to promote student learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Academic progress of students is monitored and assessed using both formative and summative assessment.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Academic progress of students is monitored and assessed using both formative and summative assessment.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Academic progress of students is monitored and assessed using both formative and summative assessment.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Academic progress of students is monitored and assessed using both formative and summative assessment.
There is consistent alignment among objectives, instruction, and assessment.	There is consistent alignment among objectives, instruction, and assessment.	There is consistent alignment among objectives, instruction, and assessment.	There is consistent alignment among objectives, instruction, and assessment.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain III: Evaluation and Feedback on Student Progress			
III-2. Assessment and feedback are aligned with goals and objectives and instructional strategies.			
Things To Consider			
<ul style="list-style-type: none"> • Assessment is directly linked to goals and objectives. • Assessment is directly linked to instructional strategies. • Feedback is directly linked to goals/objectives and instructional strategies. 			
Quality: Look for strength, impact, variety, and alignment of the assessment with the objectives. Feedback is specific to the assessment.			
Quantity: Assessment and feedback are aligned with instructional goals, objectives, and strategies.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Specific, positive feedback to all students is consistent and results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.	<u>QUALITY</u> Positive feedback results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.	<u>QUALITY</u> Positive feedback is occasional and/or occasionally results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.	<u>QUALITY</u> Positive feedback is rare/absent and/or rarely/never results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.
Teacher consistently uses a variety of effective, creative, unique, and/or innovative strategies for monitoring, assessing, and/or providing feedback on student progress.	Teacher uses strategies for monitoring, assessing, and/or providing feedback on student progress.	Teacher occasionally uses strategies for monitoring, assessing, and/or providing feedback on student progress. Teacher’s system for obtaining, interpreting, and acting on information regarding student progress is frequently mechanical and is occasionally focused on student progress in learning.	Teacher rarely/never uses a variety of strategies for monitoring, assessing, and/or providing feedback on student progress. Teacher’s system for obtaining, interpreting, and acting on information regarding student progress is almost always/mechanical and is rarely/never focused on student progress in learning.
The teacher consistently acts on assessment data before moving from one stage of instruction to the next and to plan new instruction.	The teacher acts on assessment data before moving from one stage of instruction to the next and to plan new instruction.	The teacher moves from one stage of instruction to the next and plans new instruction with limited information regarding student progress in learning.	The teacher moves from one stage of instruction to the next and plans new instruction with little/no information regarding student progress in learning.
The teacher consistently provides positive, specific, and timely feedback, which results in student progress toward learning goals.	Positive feedback results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.	Positive feedback is occasional and/or occasionally results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.	Positive feedback is rare/absent and/or rarely/never results in successful students repeating their success and unsuccessful students recognizing their errors and becoming successful.
Monitoring and assessment strategies consistently reflect an understanding of the unique needs and characteristics of students.	Monitoring and assessment strategies reflect an understanding of the unique needs and characteristics of students.	Monitoring and assessment strategies occasionally reflect an understanding of the unique needs and characteristics of students.	Monitoring and assessment strategies rarely/never reflect an understanding of the unique needs and characteristics of students.

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain III: Evaluation and Feedback on Student Progress			
III-3. Assessment strategies are appropriate to the varied characteristics of students.			
Things To Consider			
<ul style="list-style-type: none"> • Assessment strategies reflect developmental level of students. • Assessment strategies address learning needs of students. 			
Quality: Assessment strategies produce evidence of student success and/or the need for corrective teaching. Look for strength, impact, variety, and alignment of assessment strategies with varied characteristics of students.			
Quantity: Teacher uses a variety of assessment strategies/models to check for understanding.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Assessment strategies consistently produce evidence of student success and/or the need for corrective teaching.	<u>QUALITY</u> Assessment strategies produce evidence of student success and/or the need for corrective teaching.	<u>QUALITY</u> Assessment strategies occasionally produce evidence of student success and/or the need for corrective teaching.	<u>QUALITY</u> Assessment strategies rarely/never produce evidence of student success and/or the need for corrective teaching.
Teacher consistently utilizes creative, unique, and/or innovative assessment strategies that consistently produce evidence of student success and/or the need for corrective teaching.	Assessment strategies produce evidence of student success and/or the need for corrective teaching.	Assessment strategies occasionally produce evidence of student success and/or the need for corrective teaching.	Assessment strategies rarely/never produce evidence of student success and/or the need for corrective teaching.
Teacher consistently utilizes assessment strategies, which are chosen and/or customized to fit the developmental level of students.	Teacher utilizes assessment strategies, which are appropriate to the developmental level of the students.	Teacher frequently utilizes assessment strategies, which are inappropriate for the developmental level of students.	Teacher almost always/always utilizes assessment strategies which are inappropriate to the developmental level of students.
Teacher consistently utilizes assessment strategies, which are chosen and/or customized to fit the learning styles of students.	Teacher utilizes assessment strategies, which are chosen and/or customized to fit the learning styles of students.	Teacher frequently utilizes assessment strategies, which are inappropriate to the learning styles of students.	Teacher almost always/always utilizes assessment strategies which are inappropriate to the learning styles of students.
Teacher consistently utilizes assessment strategies, which are chosen and/or customized to fit the unique, special needs of students.	Teacher utilizes assessment strategies, which are chosen and/or customized to fit the unique, special needs of students.	Teacher frequently utilizes assessment strategies, which are inappropriate to the unique, special needs of students.	Teacher almost always/always utilizes assessment strategies which are inappropriate to the unique, special needs of students.
Teacher consistently utilizes assessment strategies, which are chosen and/or customized to fit the unique language/cultural characteristics of students.	Teacher utilizes assessment strategies, which are chosen and/or customized to fit the unique language/cultural characteristics of students.	Teacher frequently utilizes assessment strategies, which are inappropriate to the unique language/cultural characteristics of students.	Teacher almost always/always utilizes assessment strategies which are inappropriate to the unique, language/cultural characteristics of students.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Assessment strategies are appropriate to the varied characteristics of students.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Assessment strategies are appropriate to the varied characteristics of students.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Assessment strategies are appropriate to the varied characteristics of students.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Assessment strategies are appropriate to the varied characteristics of students.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain III: Evaluation and Feedback on Student Progress			
III-4. Student learning is reinforced.			
Things To Consider			
<ul style="list-style-type: none"> • Learning is positively reinforced. • Reinforcement communicates high expectations. • Reinforcement techniques are research based and reflect current knowledge and practice within the content area. • Reinforcement is appropriate to the needs of the learner. 			
Quality: Reinforcement results in student engagement and success in the learning. Look for strength, impact, variety, and alignment of reinforcement with the learning.			
Quantity: Look for uniformity and consistency of reinforcement.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Reinforcement consistently results in students understanding why they are successful and they are able to repeat their effort and success.	<u>QUALITY</u> Reinforcement results in students understanding why they are successful and they are able to repeat their effort and success.	<u>QUALITY</u> Reinforcement is sometimes used; it occasionally results in students understanding why they are successful and they are occasionally able to repeat their effort and success.	<u>QUALITY</u> Reinforcement is sometimes used; it rarely/never results in students understanding why they are successful and they are rarely/never able to repeat their effort and success.
Intensity and frequency of reinforcement are consistently monitored and adjusted to fit the level of the student performance and the needs of the students.	Intensity and frequency of reinforcement are appropriate to the student performance and the needs of the students.	Intensity and frequency of reinforcement are occasionally appropriate to the student performance and the needs of the students. Reinforcement is frequently contrived and artificial.	Intensity and frequency of reinforcement are rarely/never appropriate to the student performance and/or the needs of the students. Reinforcement is almost always/always contrived and artificial.
Reinforcement of high level, complex responses and performances is consistently specific to the student and to the response/performance.	Reinforcement of student performance is specific to the student and to the response/performance.	Reinforcement of student performance is occasionally specific to the student and to the response/performance.	Reinforcement of student performance is rarely/never specific to the student and to the response/performance.
Reinforcement consistently results in an increase in the frequency, level, and/or quality of student performances.	Reinforcement results in an increase in the frequency, level, and/or quality of student performances.	Reinforcement occasionally results in an increase in the frequency, level, and/or quality of student performances.	Reinforcement rarely/never results in an increase in the frequency, level, and/or quality of student performances.
Students consistently self-assess and provide feedback for themselves and/or their peers.	Teacher appropriately reinforces learning.	Teacher occasionally appropriately reinforces learning.	Teacher rarely/never appropriately reinforces learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Successful student learning is acknowledged/positively reinforced.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Successful student learning is acknowledged/positively reinforced.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Successful student learning is acknowledged/positively reinforced.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Successful student learning is acknowledged/positively reinforced.
Successful student learning is reinforced using a variety of verbal, nonverbal, and extrinsic strategies.	Successful student learning is reinforced using a variety of verbal, nonverbal, and extrinsic strategies.	Successful student learning is reinforced using a variety of verbal, nonverbal, and extrinsic strategies.	Successful student learning is reinforced using a variety of verbal, nonverbal, and extrinsic strategies.
Reinforcement communicates high expectations for learning and performance.	Reinforcement communicates high expectations for learning and performance.	Reinforcement communicates high expectations for learning and performance.	Reinforcement communicates high expectations for learning and performance.
Reinforcement techniques are research based and reflect current knowledge and practice within the content area.	Reinforcement techniques are research based and reflect current knowledge and practice within the content area.	Reinforcement techniques are research based and reflect current knowledge and practice within the content area.	Reinforcement techniques are research based and reflect current knowledge and practice within the content area.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain III: Evaluation and Feedback on Student Progress			
III-5. Students receive specific, constructive feedback.			
Things To Consider <ul style="list-style-type: none"> • Teacher gives specific and immediate feedback, when appropriate. • Feedback pinpoints needed corrections. • Feedback provides clarification of the content. • Feedback moves the student toward success with the learning objective. Quality: Feedback results in student engagement and success in the learning process. Look for strength, impact, variety, and alignment of the feedback with the learning objective. Quantity: Focus on the specific and timely feedback.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Feedback consistently results in students understanding why they are successful (so that they repeat/extend to a higher level their effort and success) and/or why they are unsuccessful (so that they correct their understanding/errors and are successful).	<u>QUALITY</u> Feedback results in students understanding why they are successful (so that they repeat their effort and success) and/or why they are unsuccessful (so that they correct their understanding/errors and are successful).	<u>QUALITY</u> Feedback is present but only occasionally results in students understanding why they are successful (so that they repeat their effort and success) and/or why they are unsuccessful (so that they correct their understanding/errors and are successful).	<u>QUALITY</u> Feedback is rarely/never present; when it is present, it rarely/never results in students understanding why they are successful (so that they repeat their effort and success) and/or why they are unsuccessful (so that they correct their understanding/errors and are successful).
Timely, specific feedback consistently results in a higher level/frequency of student commitment to the learning.	Timely, specific feedback results in a higher level/frequency of student commitment to the learning.	Feedback is occasionally timely and/or specific; when it is present it occasionally results in a higher level/frequency of student commitment to the learning.	Feedback is rarely/never timely and/or specific; when it is present it rarely/never results in a higher level/frequency of student commitment to the learning.
Teacher consistently utilizes creative, unique, and or innovative strategies to provide students with timely, specific feedback.	Teacher provides students with timely, specific feedback.	Teacher occasionally utilizes effective strategies to provide students with timely, specific feedback. Feedback is frequently non-specific/harsh/negative and/or results in students disengaging from the learning.	Teacher rarely/never utilizes effective strategies to provide students with timely, specific feedback. Feedback is always/almost always non-specific/harsh/negative and/or results in students disengaging from the learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> Students receive timely, specific, and constructive feedback on progress in learning.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> Students receive timely, specific, and constructive feedback on progress in learning.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> Students receive timely, specific, and constructive feedback on progress in learning.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> Students receive timely, specific, and constructive feedback on progress in learning.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain III: Evaluation and Feedback on Student Progress			
III-6. The teacher provides opportunities for relearning and re-evaluation of material.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher identifies content or skill, which needs to be re-taught or re-evaluated, as appropriate. • Teacher utilizes a variety of re-teach and re-evaluation techniques, as appropriate. • Techniques are research-based or reflect current knowledge and practice within the content area. Quality: Relearning opportunities result in student success. Look for strength, impact, variety, and alignment of the re-teach technique with the learning objective. Quantity: Focus on the impact of the re-teaching, not the number of times the teacher re-taught or re-evaluated material.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students are consistently successful as a result of a re-teach and/or have a higher/more complex understanding as a result of a re-evaluation of the learning.	<u>QUALITY</u> Students are successful as a result of a re-teach and/or have better understanding as a result of a re-evaluation of the learning.	<u>QUALITY</u> Students are occasionally successful as a result of a re-teach and/or have little additional understanding as a result of a re-evaluation of the learning.	<u>QUALITY</u> Students are rarely/never successful as a result of a re-teach and/or have little additional understanding as a result of a re-evaluation of the learning.
Teacher consistently uses creative, unique, and/or innovative strategies that result in a high level of student success and/or a higher, more complex understanding.	Teacher uses effective strategies that result in student success in learning.	Teacher occasionally uses effective strategies that result in student success in learning.	Teacher rarely/never uses effective strategies that result in student success in learning.
Teacher consistently uses strategies that fit the unique needs/characteristics of students.	Teacher uses strategies that fit the unique needs/characteristics of students.	Teacher occasionally utilizes strategies that fit the unique needs/characteristics of students.	Teacher rarely/never utilizes strategies that fit the unique needs/characteristics of students.
The teacher consistently monitors and adjusts instruction and reflects an understanding of students by quickly adjusting instruction for additional clarification or for extension of the learning.	The teacher monitors and adjusts instruction and reflects an understanding of students by adjusting instruction for additional clarification or for extension of the learning.	The teacher occasionally monitors and adjusts instruction and/or shows a lack of understanding of students by not adjusting instruction for additional clarification or for extension of the learning.	The teacher rarely/never monitors and adjusts instruction and/or shows a lack of understanding of students by not adjusting instruction for additional clarification or for extension of the learning.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher provides opportunities for relearning and re-evaluation of material, when appropriate.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher provides opportunities for relearning and re-evaluation of material, when appropriate.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher provides opportunities for relearning and re-evaluation of material, when appropriate.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher provides opportunities for relearning and re-evaluation of material, when appropriate.
Techniques for re-teaching and/or re-evaluation are researched-based and reflect current knowledge and practice within the content area.	Techniques for re-teaching and/or re-evaluation are researched-based and reflect current knowledge and practice within the correct area.	Techniques for re-teaching and/or re-evaluation are researched-based and reflect current knowledge and practice within the content area.	Techniques for re-teaching and/or re-evaluation are researched-based and reflect current knowledge and practice within the content area.
The teacher uses a variety of strategies to effectively re-teach and/or re-evaluate learning.	The teacher uses a variety of strategies to effectively re-teach and/or re-evaluate learning.	The teacher uses a variety of strategies to effectively re-teach and/or re-evaluate learning.	The teacher uses a variety of strategies to effectively re-teach and/or re-evaluate learning.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials			
IV-1. The teacher effectively implements the discipline management procedures approved by the campus. Any lack of effective implementation is rare, inadvertent, and does not seriously compromise the needs of students or the effective operation of the classroom or campus.			
Things To Consider <ul style="list-style-type: none"> • Campus-adopted discipline management process is in evidence in the teacher’s normal rules and routines of the classroom and school-related activities. • Lack of implementation is “rare, inadvertent, and does not seriously compromise” the needs of students or the effective operation of the classroom or campus. • [See NOTE (1) & (2).] Quality: Student behavior is appropriate. The classroom is safe. Teacher response to misbehavior is highly effective and sensitive to student’s individual needs. Look for strength, impact, variety, and alignment of the discipline management process with instructional goals and objectives. Look for uniformity and consistency in implementation.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY Student behavior is consistently appropriate.	QUALITY Student behavior is appropriate.	QUALITY Student behavior is occasionally appropriate.	QUALITY Student behavior is rarely/never appropriate.
Discipline management procedures are consistently implemented. Unique, creative, and/or innovative strategies are consistently used to implement the discipline management procedures.	Discipline management procedures are implemented.	Discipline management procedures are occasionally implemented. Any lack of effective implementation is rare, inadvertent, and does not seriously compromise the needs of students or the effective operation of the classroom or campus.	Discipline management procedures are rarely/never implemented. AND/OR Lack of implementation is repetitive and/or intentional and seriously compromises the needs of students or the effective operation of the classroom or campus.
Implementation of the discipline management plan consistently reflects an understanding of the unique needs/characteristics of students.	Implementation of the discipline management plan reflects an understanding of the unique needs/characteristics of students.	Implementation of the discipline management plan occasionally reflects an understanding of the unique needs/characteristics of students. The lack of understanding of the unique needs/characteristics of the students is repetitive and/or intentional but does not seriously compromise the needs of students.	Implementation of the discipline management plan rarely/never reflects an understanding of the unique needs/characteristics of students. AND/OR Lack of understanding of the unique needs/characteristics of students is repetitive and/or intentional and seriously compromises the needs of students or the effective operation of the classroom or campus.
Implementation of the discipline management plan consistently relies on high interest/relevant classroom instruction.	Implementation of the discipline management plan relies on high interest/relevant classroom instruction.	Implementation of the discipline management plan occasionally relies on high interest/relevant classroom instruction. Implementation frequently relies on the enforcement of rules/consequences.	Implementation of the discipline management plan rarely/never relies on high interest/relevant classroom instruction. Implementation almost always/always relies on the enforcement of rules/consequences.
Students are consistently engaged in appropriate self-direction/self-management.	Students are engaged in appropriate self-direction/self-management.	Students are occasionally engaged in appropriate self-direction/self-management.	Students are rarely/never engaged in appropriate self-direction/self-management.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. These criteria are to be evaluated in the context of student behavior as it impacts student success. The critical attributes of EACH criterion MUST be considered separately.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV-1 Continued

Implementation of the discipline management plan consistently results in a positive, supportive, respectful classroom environment.	Implementation of the discipline management plan results in a positive, supportive, respectful classroom environment.	Implementation of the discipline management plan occasionally results in a positive, supportive, respectful classroom environment. Any lack of a positive, supportive, respectful classroom environment does not seriously compromise the needs of the students or the effective operation of the classroom or campus.	Implementation of the discipline management plan rarely/never relies on a positive, supportive, respectful classroom environment. AND/OR Lack of a positive, supportive, respectful classroom environment seriously compromises the needs of the students or the effective operation of the classroom or campus.
The teacher participates in the development of the discipline management procedures and offers suggestions for improvement.	Discipline management procedures are implemented.	Discipline management procedures are occasionally implemented.	Discipline management procedures are rarely/never implemented.
Any lack of effective implementation is rare/inadvertent and does not seriously compromise the needs of students or the effective operation of the classroom or campus.	Any lack of effective implementation is rare/inadvertent and does not seriously compromise the needs of students or the effective operation of the classroom or campus.	There are some elements of the plan that are not implemented but the lack of effective implementation is random/inadvertent and does not seriously compromise the needs of students or the effective operation of the classroom or campus.	Lack of implementation is repetitive and/or intentional and seriously compromises the needs of students or the effective operation of the classroom or campus.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. These criteria are to be evaluated in the context of student behavior as it impacts student success. The critical attributes of EACH criterion MUST be considered separately.

Professional Development and Appraisal System

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials			
IV-2. The teacher establishes a classroom environment that promotes and encourages self-discipline and self-directed learning.			
Things To Consider <ul style="list-style-type: none"> • Classroom procedures and routines result in student self-management of behavior. • Classroom procedures and routines result in student self-directed extensions and application of learning. • [See NOTE (2).] Quality: Student behavior is appropriate. Students are productively engaged. Teacher establishes high expectations for the learning and behavior of all students. Look for strength, impact, variety, and alignment of classroom routines with learning objectives. Quantity: Look for uniformity and consistency of behavior.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY Student behavior is consistently appropriate.	QUALITY Student behavior is appropriate.	QUALITY Student behavior is occasionally appropriate.	QUALITY Student behavior is rarely/never appropriate.
Students are consistently engaged in appropriate self-direction/self-management learning.	Students are engaged in appropriate self-direction/self-management learning.	Students are occasionally engaged in appropriate self-direction/self-management learning. Appropriate behavior is frequently the result of manipulation and/or enforcement of rules/consequences.	Students are rarely/never engaged in appropriate self-direction/self-management learning. Appropriate behavior is almost always/always the result of manipulation and/or enforcement of rules/consequences.
Unique, creative, and/or innovative strategies are consistently used to promote and encourage self-discipline and self-directed learning and reflect an understanding of the unique needs/characteristics of students.	Strategies to promote and encourage self-discipline and self-directed learning reflect an understanding of the unique needs/characteristics of students.	Strategies to promote and encourage self-discipline and self-directed learning occasionally reflect an understanding of the unique needs/characteristics of students.	Strategies to promote and encourage self-discipline and self-directed learning rarely/never reflect an understanding of the unique needs/characteristics of students.
The teacher consistently creates a safe, positive, supportive, respectful environment so that students take appropriate risks in the learning.	The teacher creates a safe, positive, supportive, respectful environment so that students take appropriate risks in the learning.	The teacher occasionally creates a safe, positive, supportive, respectful environment so that students take appropriate risks in the learning.	The teacher rarely/never creates a safe, positive, supportive, respectful environment so that students take appropriate risks in the learning.
High-interest/relevant classroom instructions consistently provide vehicles for self-management and self-directed learning.	High-interest/relevant classroom instructions provide vehicles for self-management and self-directed learning.	High-interest/relevant classroom instructions occasionally provide vehicles for self-management and self-directed learning.	High-interest/relevant classroom instruction rarely/never provide vehicles for self-management and self-directed learning.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. These criteria are to be evaluated in the context of student behavior as it impacts student success. The critical attributes of EACH criterion MUST be considered separately.

The teacher establishes a classroom environment that promotes and encourages self-discipline and self-directed learning.	The teacher establishes a classroom environment that promotes and encourages self-discipline and self-directed learning.	The teacher establishes a classroom environment that promotes and encourages self-discipline and self-directed learning.	The teacher establishes a classroom environment that promotes and encourages self-discipline and self-directed learning.
The teacher plans and implements instruction to provide opportunities for self-directed learning.	The teacher plans and implements instruction to provide opportunities for self-directed learning.	The teacher plans and implements instruction to provide opportunities for self-directed learning.	The teacher plans and implements instruction to provide opportunities for self-directed learning.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. These criteria are to be evaluated in the context of student behavior as it impacts student success. The critical attributes of EACH criterion MUST be considered separately.

Professional Development and Appraisal System

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials			
IV-3. The teacher interacts with students in an equitable manner, including fair application of rules.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher provides opportunities for all students to participate. • Teacher relates to students in an equitable and consistent manner. • Teacher is fair in the application of rules. • [See NOTE (1) & (2).] Quality: Teacher interactions are appropriate to developmental, cultural norms and varied characteristics of students. Teacher-student interactions demonstrate respect. Look for uniformity and consistency in interactions.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY All interactions (teacher/student and student/student) are consistently courteous and respectful.	QUALITY All interactions (teacher/student and student/student) are courteous and respectful.	QUALITY Interactions (teacher/student and student/student) are occasionally courteous and respectful. Interactions (teacher/student and student/student) frequently lack courtesy, but the interactions do not compromise the needs of students.	QUALITY Interactions (teacher/student and student/student) are rarely/never courteous and respectful. Interactions (teacher/student and student/student) almost always/always lack courtesy and/or the interactions seriously compromises the needs of students.
Rules are applied consistently and fairly to all students.	Rules are applied consistently and fairly to all students.	Rules are occasionally applied consistently and/or fairly to all students. Inconsistency and/or unfairness in the application of rules do not compromise the needs of students.	Rules are rarely/never-applied consistently/fairly to all students. AND/OR Inconsistency and/or unfairness in the application of rules seriously compromise the needs of students.
Interactions consistently reflect an awareness of the unique needs/characteristics of students.	Interactions reflect an awareness of the unique needs/characteristics of students.	Interactions occasionally reflect an awareness of the unique needs/characteristics of students. Lack of courteousness or respect does not seriously compromise the needs of the students.	Interactions rarely/never reflect an awareness of the unique needs/characteristics of students. AND/OR Lack of an awareness of the unique needs/characteristics of students seriously compromises the needs of the students.
Teacher is consistently courteous and respectful even when circumstances make it difficult to do so. Interactions are not only courteous/respectful but also serve to support, dignify, and encourage student efforts in learning.	Teacher is courteous and respectful even when circumstances make it difficult to do so.	Teacher is occasionally courteous and respectful even when circumstances make it difficult to do so. Lack of courteousness or respect does not seriously compromise the needs of the students.	Teacher is rarely/never courteous and respectful even when circumstances make it difficult to do so. AND/OR Lack of courteousness or respect seriously compromises the needs of the students.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials			
IV-4. The teacher specifies expectations for desired behavior.			
Things To Consider <ul style="list-style-type: none"> • Teacher explains expectations for behavior. • Teacher restates expectations when behavior is not appropriate. • [See NOTE (2).] Quality: Student behavior is appropriate. Teacher states reason for desired student behavior. Student behavior is consistent with stated expectations. Quantity: Focus on appropriate behavior, not the overt statement of expectations. Focus on the number of students behaving appropriately.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Students consistently understand and meet the expectations for desired behavior.	<u>QUALITY</u> Students understand and meet the expectations for desired behavior.	<u>QUALITY</u> Students occasionally understand and meet the expectations for desired behavior.	<u>QUALITY</u> Students rarely/never understand and meet the expectations for desired behavior.
Students are consistently engaged in appropriate self-direction/self-management and learning.	Students are engaged in appropriate self-direction/self-management and learning.	Students are occasionally engaged in appropriate self-direction/self-management and learning. Appropriate behavior is frequently the result of teacher manipulation and enforcement of rules/consequences rather than engagement in learning.	Students are rarely engaged in appropriate self-direction/self-management and learning. Appropriate behavior is almost always/ always the result of teacher manipulation and enforcement of rules/consequences rather than engagement in learning.
Unique, creative, and/or innovative strategies are consistently used to promote and encourage self-discipline and self-directed learning.	Students understand and meet the expectations for desired behavior.	Students occasionally understand and meet the expectations for desired behavior.	Students rarely/never understand and meet the expectations for desired behavior.
High-interest/relevant classroom instructions frequently and consistently provide vehicles for self-management and self-directed learning.	Students understand and meet the expectations for desired behavior.	Students occasionally understand and meet the expectations for desired behavior.	Students rarely/never understand and meet the expectations for desired behavior.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher specifies expectations for desired behavior.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher specifies expectations for desired behavior.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher specifies expectations for desired behavior.	<u>QUANTITY</u> <u>LESS OF THE TIME (0-49%)</u> The teacher specifies expectations for desired behavior.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. These criteria are to be evaluated in the context of student behavior as it impacts student success. The critical attributes of EACH criterion MUST be considered separately.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials			
IV-5. The teacher intervenes and re-directs off-task, inappropriate, or disruptive behavior.			
Things To Consider <ul style="list-style-type: none"> • Teacher identifies students engaged in activities other than the assigned task. • Teacher re-directs students in accordance with adopted campus discipline management policies. • [See inference opening statement for Domain IV] • [See Note (1) & (2).] Quality: Student behavior is appropriate. Monitoring is subtle and preventative. Look for strength, impact, variety, impact, and alignment of intervention with the behavior. Focus on appropriate behavior not the overt redirection of behavior. Look for uniformity and consistency of interventions.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY The off-task, inappropriate, or disruptive behavior stops.	QUALITY The off-task, inappropriate, or disruptive behavior stops.	QUALITY The off-task, inappropriate, or disruptive behavior occasionally stops after redirection.	QUALITY The off-task, inappropriate, or disruptive behavior rarely/never stops after redirection.
There is little or no need to stop/redirect behavior because students are consistently engaged in quality learning and behaving appropriately.	Students are engaged in learning and behaving appropriately.	Students are occasionally engaged in learning and behaving appropriately. The teacher frequently must redirect off-task, inappropriate or disruptive behavior because students show little interest/engagement in the learning.	Students are rarely/never engaged in learning and behaving appropriately. The teacher almost always/always must redirect off-task, inappropriate or disruptive behavior because students show little interest/engagement in the learning.
There is little or no need to stop/redirect behavior because the teacher has created a learning environment that is consistently safe, positive, supportive, and risk-free.	The teacher has created a learning environment that is safe, positive, supportive, and risk-free.	The teacher has created a learning environment that is occasionally safe, positive, supportive, and risk-free. Where the learning environment is frequently inappropriate, the needs of the students or effective operations of the campus/district have not been seriously compromised.	The teacher has created a learning environment that is rarely/never safe, positive, supportive, and risk-free. AND/OR Where the learning environment is inappropriate, the needs of the students or the effective operations of the campus/district are seriously compromised.
The teacher consistently plans instruction that is challenging and that permits students to be consistently successful.	The teacher plans instruction that is challenging and that permits students to be successful.	The teacher occasionally plans instruction that is challenging and that permits students to be successful. There is a need to frequently stop/redirect behavior.	The teacher rarely/never plans instruction that is challenging and that permits students to be successful. There is almost always/always a need to frequently stop/redirect behavior.
There is little or no need to stop/redirect behavior because the teacher patiently assists students who are frustrated and/or unsuccessful.	Students are engaged in learning and behaving appropriately.	Students are occasionally engaged in learning and behaving appropriately.	Students are rarely/never engaged in learning and behaving appropriately.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain IV: Management of Student Discipline, Instructional Strategies, Time, and Materials			
IV-6. The teacher reinforces desired behavior when appropriate.			
Things To Consider <ul style="list-style-type: none"> • Teacher offers accurate and specific feedback to individuals or the class. • Teacher does not reinforce inappropriate behavior. • [See NOTE (2).] Quality: Reinforcement results in desired change in behavior. Look for strength, impact, variety, and alignment of teacher response with the exhibited behavior. Quantity: Focus on the appropriateness of reinforcement, not the number of times behavior is reinforced. Look for uniformity and consistency of reinforcement.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
QUALITY Reinforcement results in desired behavior change or causes desired behavior to be repeated.	QUALITY Reinforcement results in desired behavior change or causes desired behavior to be repeated.	QUALITY Reinforcement occasionally results in desired behavior change or causes desired behavior to be repeated.	QUALITY Reinforcement rarely/never results in desired behavior change or causes desired behavior to be repeated.
Inappropriate behavior is rare because of the use of positive reinforcement of appropriate behavior.	Positive reinforcement of appropriate behavior is used as a method of encouraging/promoting and establishing models of appropriate behavior.	Positive reinforcement of appropriate behavior is occasionally used as a method of encouraging/promoting and establishing models of appropriate behavior.	Positive reinforcement of appropriate behavior is rarely/never used as a method of encouraging/promoting and establishing models of appropriate behavior.
Reinforcement of behavior is consistently used to encourage/promote appropriate behavior and not simply to redirect inappropriate behavior. Reinforcement is consistently specific to the student and specific to the behavior.	Reinforcement is specific to the student and specific to the behavior.	Reinforcement is occasionally specific to the student and specific to the behavior.	Reinforcement is rarely/never specific to the student and specific to the behavior.
Use of reinforcement of behavior consistently reflects an understanding of the unique needs/characteristics of students so that reinforcement has an appropriate level of intensity appropriate to the behavior.	Use of reinforcement of behavior reflects an understanding of the unique needs/characteristics of students so that reinforcement has an appropriate level of intensity appropriate to the behavior.	Use of reinforcement of behavior occasionally reflects an understanding of the unique needs/characteristics of students so that reinforcement has an appropriate level of intensity appropriate to the behavior.	Use of reinforcement of behavior rarely/never reflects an understanding of the unique needs/characteristics of students so that reinforcement has an appropriate level of intensity appropriate to the behavior.
Use of reinforcement of behavior consistently reflects an understanding of the unique needs/characteristics of students so that reinforcement has an appropriate frequency.	Use of reinforcement of behavior reflects an understanding of the unique needs/characteristics of students so that reinforcement has an appropriate frequency.	The use of reinforcement of behavior occasionally reflects an understanding of the unique needs/characteristics of students so that reinforcement has only a limited effect on the frequency of appropriate behavior.	The use of reinforcement of behavior rarely/never reflects an understanding of the unique needs/characteristics of students so that reinforcement has little/no effect on the frequency of appropriate behavior.

NOTE: (1) The “Proficient” Standard in this Domain is **HIGHER** due to needs for consistency and safety. Exceeds Expectations requires participation in the development of discipline and other management procedures.

NOTE: (2) The criteria in Domain IV relate to the **MANAGEMENT** of student discipline, instructional strategies, time, and materials which create an environment in which learning may take place. Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain V: Professional Communication			
V-2. The teacher uses appropriate and accurate verbal and non-verbal communication with students.			
Things To Consider			
<ul style="list-style-type: none"> • The teacher’s verbal and non-verbal communication establishes a learning climate that enhances student’s ability to learn. • Teacher’s verbal communication is without significant error in content or presentation. • Verbal and non-verbal errors are corrected. 			
Quality: Students are successful in the learning. Focus on the clarity of oral communication. Oral communication is audible. Classroom environment is conducive to learning. Look for strength, impact, variety, and alignment of the communication with the learning objective.			
Quantity: Focus on the extent to which oral communication supports learning.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> The teacher's verbal and non-verbal communication consistently establishes a positive learning climate that promotes student learning and student success.	<u>QUALITY</u> The teacher's verbal and non-verbal communication establishes a learning climate that is positive and conducive to learning.	<u>QUALITY</u> The teacher's verbal and non-verbal communication occasionally establishes a learning climate that is positive and conducive to learning. Errors are inadvertent and do not seriously compromise the needs of students or the effective and legal operation of campus/district.	<u>QUALITY</u> The teacher's verbal and non-verbal communication rarely/never establishes a learning climate that is positive and conducive to learning. AND/OR Errors seriously compromise the needs of students or the effective and legal operation of campus/ district.
The teacher's verbal and non-verbal communication is consistently clear and audible.	The teacher's verbal and non-verbal communication is clear and audible.	The teacher's verbal communication is occasionally clear and audible.	The teacher's verbal communication is rarely/never audible and clear.
The teacher's verbal and non-verbal communication consistently encourages students to take responsible risks in responding, extending, questioning, and/or producing products.	The teacher's verbal and non-verbal communication encourages students to take responsible risks in responding, extending, questioning, and/or producing products.	The teacher's verbal and non-verbal communication occasionally engages students in learning.	The teacher's verbal and non-verbal communication rarely/never engages students in learning.
The teacher's verbal and non-verbal communications consistently assist in the alignment of instruction with learning objectives.	The teacher's verbal and non-verbal communications assist in the alignment of instruction with learning objectives.	The teacher's verbal and non-verbal communications occasionally assist in the alignment of instruction with learning objectives.	The teacher's verbal and non-verbal communications rarely/never assist in the alignment of instruction with learning objectives.
The teacher's verbal and non-verbal communications consistently contribute to the successful learning of students.	The teacher's verbal and non-verbal communications contribute to the successful learning of students.	The teacher's verbal and non-verbal communications occasionally contribute to the successful learning of the students.	The teacher's verbal and non-verbal communications rarely/never contribute to the successful learning of the students.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher's oral communication and non-verbal communication supports a positive learning climate that promotes student success.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher's oral communication and non-verbal communication supports a positive learning climate that promotes student success.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher's oral communication and non-verbal communication supports a positive learning climate that promotes student success.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher's oral communication and non-verbal communication supports a positive learning climate that promotes student success.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain V: Professional Communication			
V-3. The teacher encourages and supports students who are reluctant and having difficulty.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher readily recognizes students who have difficulty in performance. • Teacher modifies and positively reinforces student-learning success. 			
Quality: Look for strength, impact, variety, and alignment of teacher support and student success. Focus on appropriateness of the modification. Encouragement and support results in student success.			
Quantity: Look for uniformity and consistency of encouragement.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> The teacher consistently identifies and assesses the needs of the students who are reluctant and having difficulty. The teacher consistently encourages and supports students who are reluctant and having difficulty.	<u>QUALITY</u> The teacher identifies and assesses the needs of the students who are reluctant and having difficulty. The teacher encourages and supports students who are reluctant and having difficulty.	<u>QUALITY</u> The teacher occasionally identifies and assesses the needs of the students who are reluctant and having difficulty. The teacher occasionally encourages and supports students who are reluctant and having difficulty.	<u>QUALITY</u> The teacher rarely/never identifies and assesses the needs of the students who are reluctant and having difficulty. The teacher rarely/never encourages and supports students who are reluctant and having difficulty.
The teacher consistently encourages and supports students who are reluctant and having difficulty.	The teacher encourages and supports students who are reluctant and having difficulty.	The teacher occasionally encourages and supports students who are reluctant and having difficulty.	The teacher rarely/never encourages and supports students who are reluctant and having difficulty.
The teacher consistently uses creative and unique ways to encourage and support students who are reluctant and having difficulty, which results in students taking reasonable risks, reduced frustration and willingness to continue engagement in learning.	The teacher uses strategies to encourage and support students who are reluctant and having difficulty.	The teacher occasionally uses strategies to encourage and support students who are reluctant and having difficulty. The teacher's communication / lack of communication with students who are reluctant and having difficulty frequently results in student frustration, unwillingness to take reasonable risks and/or disengagement.	The teacher rarely/never uses strategies to encourage and support students who are reluctant and having difficulty. The teacher's communication / lack of communication with students who are reluctant and having difficulty almost always/ always results in student frustration, unwillingness to take reasonable risks and/or disengagement.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher encourages and supports students who are reluctant or having difficulty.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher encourages and supports students who are reluctant or having difficulty.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher encourages and supports students who are reluctant or having difficulty.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher encourages and supports students who are reluctant or having difficulty.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain V: Professional Communication			
V-4. The teacher uses appropriate and accurate written communication with parents, staff, community members, and other professionals.			
Things To Consider			
<ul style="list-style-type: none"> • Teacher’s written communication is without significant error in content or presentation. • Written errors are corrected. • Written errors do not interfere with the intent of the communication to parents, staff, community members, and other professionals. • Communication reflects sensitivity to community standards. • [NOTE: The written responses on the <u>Teacher Self-Report</u> are NOT to be used in the evaluation of Domain V.] 			
Quality: Focus on the clarity of written communication. Written communications are legible. Communication serves a purpose. Communication serves the purpose for which it was written. Look for strength, impact, variety, and alignment of the communication with the intent.			
Quantity: Focus on the extent to which written communication is informative.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<p><u>QUALITY</u> The teacher consistently uses appropriate and accurate written communication with parents, staff, community members and professionals.</p>	<p><u>QUALITY</u> The teacher uses appropriate and accurate written communication with parents, staff, community members and professionals.</p>	<p><u>QUALITY</u> The teacher occasionally uses appropriate and accurate written communication with parents, staff, community members and professionals. TEKS/TAKS objectives are integrated in to regular subject matter and content.	TEKS/TAKS objectives are integrated in to regular subject matter and content.	TEKS/TAKS objectives are integrated in to regular subject matter and content.	TEKS/TAKS objectives are integrated in to regular subject matter and content.

SCORING CRITERIA GUIDE

Performance at the “Proficient” Level is based upon documentary evidence, as appropriate.

Documentary evidence may be collected over the entire appraisal period.

Performance at the “Proficient” Level **MAY** be inferred for a criterion if 80% of the criteria in the Domain **ARE** documented at the “Proficient” or Exceeds Expectation Level and **NO** criteria are documented at Below Expectations or Unsatisfactory.

Domain VIII: Improvement of Academic Performance for All Students on the Campus (Based on Indicators included in the AEIS)			
VIII.A-2. The teacher analyzes TAKS performance data relevant to all students in assigned classes prior to beginning instruction.			
Things To Consider			
<ul style="list-style-type: none"> • Instructional planning reflects an analysis of TAKS performance data. • TAKS performance data is analyzed prior to beginning instruction. 			
Quality: Individual student needs are addressed. Documentary evidence is used to support performance level.			
Quantity: TAKS performance data is relevant for all assigned students.			
Evaluation Criteria			
Exceeds Expectations	Proficient	Below Expectations	Unsatisfactory
<u>QUALITY</u> Instructional planning consistently reflects that TAKS performance data has been analyzed in collaboration with other professionals prior to the beginning of instruction.	<u>QUALITY</u> Instructional planning reflects that TAKS performance data has been analyzed prior to the beginning of instruction.	<u>QUALITY</u> Instructional planning occasionally reflects that TAKS performance data has been analyzed prior to the beginning of instruction.	<u>QUALITY</u> Instructional planning rarely/never reflects that TAKS performance data has been analyzed prior to the beginning of instruction.
The teacher provides formal/informal leadership in instructional planning which consistently shows evidence of addressing individual student needs as identified in the campus improvement plan.	Instructional planning shows evidence of addressing individual student needs as identified in the campus improvement plan.	Instructional planning shows occasional evidence of addressing individual student needs as identified in the campus improvement plan.	Instructional planning shows little or no evidence of addressing individual student needs as identified in the campus improvement plan.
<u>QUANTITY</u> <u>ALMOST ALL OF THE TIME (90-100%)</u> The teacher analyzes TAKS performance data relevant to all students in assigned classes prior to beginning instruction.	<u>QUANTITY</u> <u>MOST OF THE TIME (80-89%)</u> The teacher analyzes TAKS performance data relevant to all students in assigned classes prior to beginning instruction.	<u>QUANTITY</u> <u>SOME OF THE TIME (50-79%)</u> The teacher analyzes TAKS performance data relevant to all students in assigned classes prior to beginning instruction.	<u>QUANTITY</u> <u>LESS THAN HALF OF THE TIME (0-49%)</u> The teacher analyzes TAKS performance data relevant to all students in assigned classes prior to beginning instruction.
The teacher acts on the analyzed data by incorporating TEKS/TAKS objectives for remediation and/or reinforcement into all subject matter and content.	The teacher acts on the analyzed data by incorporating TEKS/TAKS objectives for remediation and/or reinforcement into all regular subject matter and content.	The teacher acts on the analyzed data by incorporating TEKS/TAKS objectives for remediation and/or reinforcement into all subject matter and content.	The teacher acts on the analyzed data by incorporating TEKS/TAKS objectives for remediation and/or reinforcement into all subject matter and content.

SECTION IV

**PDAS Teacher Manual
Appendix**

**CLASSROOM TEACHER - STANDARD CERTIFICATE RENEWAL
AND
CONTINUING PROFESSIONAL EDUCATOR REQUIREMENTS**

GENERAL PROVISIONS FOR CERTIFICATE RENEWAL

The renewal date of a Standard Certificate will be five years after the last day of the certificate holder's birth month. If a teacher holds multiple certificates, all can be renewed concurrently and all are subject to renewal during the certificate holder's birth month five years after the earliest certificate was issued. Teachers who fail to satisfy each of the requirements to renew their Standard Certificate(s) by the renewal date move to inactive status and are ineligible for employment in a Texas public school district in a position for which that certificate is required until all appropriate requirements are satisfied.

CERTIFICATE RENEWAL REQUIREMENTS

All classroom teachers are required to complete at least 150 clock hours of Continuing Professional Education (CPE) during each five-year renewal period. Teachers are encouraged to complete a minimum of 30 clock hours of CPE each year of the renewal period. **NOTE: Only those professional education activities from approved registered providers will be accepted for renewal purposes.**

ACCEPTABLE CONTINUING PROFESSIONAL EDUCATIONAL ACTIVITIES

Types of acceptable Continuing Professional Education (CPE) activities include:

1. participation in institutes, workshops, seminars, conferences, in-service or staff development which are related to or enhance the professional knowledge and skills of the educator;
2. completion of undergraduate courses in the content area knowledge and skills related to the certificate being renewed, graduate courses, or training programs which are taken through an accredited institution of higher education; (One semester hour of credit earned at an accredited institution of higher education is equivalent to 15 CPE clock hours.)
3. participation in interactive distance learning, video conferencing, or on-line activities or conferences;
4. independent study, not to exceed 20% of the required clock hours, which may include self-study of relevant professional materials (books, journals, periodicals, video/audio tapes, computer software, and on-line information) or authoring a published work;
5. development of curriculum or CPE training materials;
6. serving as an assessor (does not include the required annual evaluation of the principal) for the principal assessment process [TAC §241.35], not to exceed 10% of the required clock hours;
7. teaching or presenting a CPE activity, not to exceed 10% of the required clock hours; and/or
8. providing professional guidance as a mentor educator, not to exceed 30% of the required clock hours.

Acceptable Content Areas of Required Continuing Professional Education Hours

(b) One semester credit hour earned at an accredited institution of higher education is equivalent to 15 CPE clock hours.

(c) At least 80% of the CPE activities should be directly related to the certificate(s) being renewed and focus on the standards required for the initial issuance of the certificate(s), including:

- (1) content area knowledge and skills;
- (2) professional ethics and standards of conduct;
- (3) professional development, which should encompass topics such as the following:
 - (A) district and campus priorities and objectives;
 - (B) child development, including research on how children learn;
 - (C) discipline management;
 - (D) applicable federal and state laws;
 - (E) diversity and special needs of student populations;
 - (F) increasing and maintaining parental involvement;
 - (G) integration of technology into educational practices;

- (H) ensuring that students read on or above grade level;
- (I) diagnosing and removing obstacles to student achievement; and
- (J) instructional techniques.

(d) Educators are encouraged to identify CPE activities based on results of the annual appraisal required under TEC, Chapter 21, Subchapter H.

How to Renew Your Certificate:

1. Go to the SBEC web site www.sbec.state.tx.us
 2. Log onto the “SBEC on line for Educators” at the top of the page.
 - a. If you have already registered, log in with your user name and password.
 - b. If not, create a new user.
 3. On the left side of the page click on “Applications”
 4. Then Click on “Renew a Standard Certificate”
 5. You will check a box attesting to having completed the required CPE hours.
 - a. SBEC is not requiring that educators submit written evidence of completion of CPE, but rather keep that information available in a personal file in the event that they are ever audited.
- Certificates can be renewed up to 6 months prior to the expiration date.
 - For a list of providers, please see: <http://www.sbec.state.tx.us/SBECOnline/certinfo/regprov.asp>
 - The fee for certificate renewal is \$20 for most educators and \$10 for educational aides. Additional fees are assessed for late renewal and reactivation of an inactive certificate. Online payment of certification fees is available.
 - Any questions about the online application or use of the online system should be directed to the SBEC at 1-888-863-5880.

CLASSROOM TEACHER - STANDARD CERTIFICATE 5-YEAR RENEWAL WORKSHEET

DIRECTIONS

Written documentation and verification of the completion of all activities applied toward Continuing Professional Education (CPE) requirements for Standard Certificate renewal shall be maintained by each teacher. The Standard Certificate 5-Year renewal worksheet for the classroom teacher is provided to assist you in tracking your **150 CPE clock hours** and should be updated as soon as your continuing education requirements are completed. This certificate renewal worksheet (also available on the SBEC website at www.sbec.state.tx.us) is provided for your use only and does not have to be submitted to SBEC for renewal. *SBEC is not requiring that educators submit written evidence of completion of CPE, but rather keep that information available in a personal file in the event that they are ever audited.* The specific numbers of clock hours that may be applied toward fulfillment of the certificate renewal requirements are indicated in the CPE activity areas below. **It is the responsibility of the educator and the ISD to determine which workshops or trainings meet the requirements for standard certificate renewal. SBEC staff will not make these determinations. Please do not contact SBEC staff requesting verification of CPE activities. CPE applicability determinations must be documented and maintained locally.**

Name: Last	First	Middle Initial	Renewal Month/Year
------------	-------	----------------	--------------------

Certificate/Endorsement(s)	Certificate Number	Social Security Number

Area 5: Mentor Educator					
Area 6: Serving As An Assessor (Does not include the annual principal evaluation)					

CHECKLIST OF TEACHER ACTIONS

Professional Development and Appraisal System for Texas Teachers

ACTIVITY	TASK	TIME FRAME	COMPLETED
Participate in Teacher Orientation	Must be provided for teachers no later than the final day of the first three weeks of school and at least three weeks before the first observation.	No later than the final day of the first three weeks of school and at least three weeks before the first observation.	
Complete Teacher Self-Report	Complete Sections I, II, and III of the Teacher Self-Report	Section I: No later than the last day of the first three weeks of school. Sections II & III: No later than two weeks prior to the end of the period for summative annual conferences on the school district appraisal calendar.	
Participate in Observations	Participate in observations and walkthroughs based on district appraisal calendar. Advance notice may be given, but is not required.	According to the observation period on the school district calendar and no later than 15 working days before the last day of instruction for students.	
Participate in Summative Annual Conference	Prepare to discuss: <ul style="list-style-type: none"> • Teacher Self-Report • Observation Summary Form(s) • Cumulative Data 	No later than the end of the period for summative annual conferences on the school district appraisal calendar.

Professional Development and Appraisal System (PDAS)

Introduction

PDAS remains in place as the State's approved instrument for appraising its teachers and identifying areas that would benefit from staff development. Cornerstones of the process include a minimum of one 45-minute observation and completion of the Teacher Self-Report form. PDAS includes 51 criteria within eight domains reflecting the **Proficiencies for Learner-Centered Instruction** adopted in 1997 by the State Board for Educator Certification (SBEC). The domains are:

1. Active, Successful Student Participation in the Learning Process
2. Learner-centered Instruction
3. Evaluation and feedback on Student Progress
4. Management of Student Discipline, Instructional Strategies, Time/Materials
5. Professional Communication
6. Professional Development
7. Compliance with Policies, Operating Procedures and Requirements
8. Improvement of All Students' Academic Performance

Included in the appraisal system are Instructional Leadership Development (ILD) and Administrator Appraisal.

PDAS requires that new teachers and teachers new to a district receive an orientation. In addition, the **PDAS Teacher Manual** is to be given to ALL teachers (see **Letter to the PDAS Trainer Addressed**).

PDAS Teacher Orientation is now available online! Learn more about **Teacher Orientation Online**.

PROFESSIONAL DEVELOPMENT AND APPRAISAL SYSTEM
INTERVENTION PLAN FOR TEACHER IN NEED OF ASSISTANCE

1. Domain(s) in which the teacher is in need of assistance.

2. Professional-improvement activities and dates for completion.

3. Evidence that will be used to determine that professional-improvement activities have been completed.

4. Directives for changes in teacher behavior and time lines.

5. Evidence that will be used to determine if teacher behavior has changed.

Glossary for PDAS

academic learning time

That part of allocated time during which students are engaged and experiencing success.

active engagement

Reading, writing, thinking, talking, doing, manipulating, etc.

AEIS

Academic Excellence Indicator System

aligned

Mutually supportive and not in conflict. Curriculum may be aligned internally with elements supporting each other (vertically and horizontally). It may also be aligned externally, supportive of student needs, work and life applications, etc.

appropriate goals/objectives

As defined by state and district curriculum documents, such as the Texas Essential Knowledge and Skills (TEKS) and local frameworks and guides; includes developmental appropriateness.

appropriate inquiry techniques

Moving students to higher order thinking while maintaining an acceptable level of student success

appropriate pacing and sequencing of instruction

Delivery of instruction which is neither too fast nor too slow to establish and maintain student engagement and success

assessment of student performance (formative)

Assessment procedures and activities that continually assess the progress of student performance throughout a learning period. Assessment for learning

assessment of student performance (summative)

Assessment procedures, techniques, and activities that determine the extent to which each of the student learning objectives was met. Assessment of learning

at-risk

of dropping out of school. The state definition includes:

TEC § 29.081. Compensatory, Intensive, and Accelerated Instruction

- (d) For purposes of this section, "student at risk of dropping out of school" includes each student who is under 21 years of age and who:
- (1) was not advanced from one grade level to the next for one or more school years;
 - (2) if the student is in grade 7, 8, 9, 10, 11, or 12, did not maintain an average equivalent to 70 on a scale of 100 in two or more subjects in the foundation curriculum during a semester in the preceding or current school year or is not maintaining such an average in two or more subjects in the foundation curriculum in the current semester;
 - (3) did not perform satisfactorily on an assessment instrument administered to the student under Subchapter B, Chapter 39, and who has not in the previous or current school year subsequently performed on that instrument or another appropriate instrument at a level equal to at least 110 percent of the level of satisfactory performance on that instrument;
 - (4) if the student is in prekindergarten, kindergarten, or grade 1, 2, or 3, did not perform satisfactorily on a readiness test or assessment instrument administered during the current school year;
 - (5) is pregnant or is a parent;
 - (6) has been placed in an alternative education program in accordance with Section 37.006 during the preceding or current school year;
 - (7) has been expelled in accordance with Section 37.007 during the preceding or current school year;
 - (8) is currently on parole, probation, deferred prosecution, or other conditional release;
 - (9) was previously reported through the Public Education Information Management System (PEIMS) to have dropped out of school;
 - (10) is a student of limited English proficiency, as defined by Section 29.052;
 - (11) is in the custody or care of the Department of Protective and Regulatory Services or has, during the current school year, been referred to the department by a school official, officer of the juvenile court, or law enforcement official;
 - (12) is homeless, as defined by 42 U.S.C. Section 11302, and its subsequent amendments;
- or
- (13) resided in the preceding school year or resides in the current school year in a residential placement facility in the district, including a detention facility, substance abuse treatment facility, emergency shelter, psychiatric hospital, halfway house, or foster group home.

Note: Districts may also identify local criteria.

AYP

Adequate Yearly Progress, the evaluation indicator of the No Child Left Behind (NCLB) Act whereby districts, campuses and states must meet criteria in three measures: 1) Reading/Language Arts, 2) Mathematics and 3) Graduation Rate for high schools and districts or Attendance Rate for elementary and middle/junior high schools.

Below Expectations

PDAS domain rating – Students in a teacher’s classroom are “occasionally” successful in learning. (50-79% of the time)

comparable improvement

Operational decisions about comparable improvement are responsibilities of the Commissioner of Education and can be found in the State Accountability Manual.

Continuous Improvement Instructional Planning Process

A tool for teachers to link and align student needs with instruction, staff development, assessment and PDAS.

creative thinking

Alternative, divergent, cognitive processes which result in solving problems, making products, or posing questions which are initially novel or unconventional

criteria

Descriptions of behaviors evaluated within the Professional Development and Appraisal System.

critical attributes

Words and expressions used in each of the criteria in the appraisal framework which convey the central meaning of the criteria, i.e., that behavior which is to be evaluated.

critical thinking and problem solving

At the application level or higher of Bloom’s Taxonomy (application, analysis, synthesis, and evaluation)

curriculum - correlated assessment materials

Assessment materials that are provided as part of curriculum packages and are designed to align with the instructional material. Tests associated with textbooks are examples of this type of assessment.

depth and complexity

As described by Erickson (Concepts and Generalizations)

diagnostic observations

Formal or informal evaluation of student needs through analysis of student work and behavior in class.

disaggregated TAKS data

Analysis of TAKS test performance by grade level, subject area, or class group in order to identify TAKS objectives for which students show particular strengths or weaknesses; can include test item analysis also. Disaggregation of data can be done formally with software and in campus teams or groups, or can be done informally by campus groups or individual teachers.

documentation

For purposes of PDAS, documentation is data collected by a teacher's appraiser for use in the summative conference. Documentation is obtained from walkthroughs, the observation summary form (OSF), the Teacher Self-Report, verified third-party information and copies of written communications.

documentation for less than annual appraisals

Appraisers' use of cumulative data, such as gathered from the Teacher Self-Report, walkthroughs and verified third-party information, remains permissible for teachers on a less than annual appraisal schedule.

domain

One of eight broad categories of teaching practice in the Professional Development and Appraisal System which serve to organize the behaviors (criteria) evaluated within the system.

domain ratings

Exceeds Expectations; Proficient; Below Expectations; Unsatisfactory

Exceeds Expectations

PDAS domain rating – Students in a teacher's classroom are "consistently" engaged and successful in learning that has great depth and complexity. (90-100% of the time)

high cognitive level

At the application level or higher of Bloom's Taxonomy (application, analysis, synthesis, and evaluation).

learner centered

Focused on learning, the learning needs of students and the varied characteristics of students; contributing to student success.

locally defined

As established by local policies and/or operating procedures.

OSF

Observation Summary Form

management

Efficient and effective use of time and materials, e.g., uses of appropriate instructional technology, discipline management, and referrals, uses of appropriate strategies, materials, and expectations to produce long-term student success.

motivational strategies

Teacher behaviors which increase the probability that a student will actively and successfully participate in the learning. Elements include level of concern, level of difficulty, stimulus variation, rewards and feeling tone.

objective for student performance

Objectives/goals which contain at least the behavior or expected student performance and the level of performance considered successful for the developmental level of the students.

PDAS

Professional Development and Appraisal System, the Commissioner's Recommended Teacher Appraisal System

PDAS appraisal link

Connecting the attributes of the PDAS domains and criteria with the teacher skills needs to implement each of the components of the *Continuous Improvement Instructional Planning Model*.

Proficient

PDAS domain rating – Students in a teacher's classroom are engaged and successful in learning. (80-89% of the time)

self-directed/self-initiated

Learning which is initiated and/or monitored and adjusted by the learner. Opportunities for choice are implied in an environment which allows and/or fosters self-directed learning. Self-directed/self-initiated learning allows for and fosters students to assume responsibility for their own learning.

self-discipline

Monitoring and adjusting one's own behavior in accordance with a plan to fulfill one's needs.

student characteristics

Unique characteristics of individual students, e.g., learning styles, handicapping conditions, gender expectations, cultural backgrounds, potential for at-risk indicators, age appropriateness.

student academic content knowledge needs

Student learning needs that are supportive of the successful mastery of the knowledge and skills at the appropriate learning level that are designated in the TEKS.

student learning environment needs

Student learning needs that are related to the unique learning characteristics of individual students.

TAC

Texas Administrative Code.

TAKS

Texas Assessment of Knowledge and Skills.

TAKS-related objectives

Learning objectives which address TAKS targets and objectives or prerequisites or extensions of TAKS targets and objectives.

TEC

Texas Education Code.

technology

Equipment and resources such as calculators, computers, telecommunications, internet, cameras, multi-media, satellites and distance learning facilities, CD-ROMs, and scanners used for the purpose of instruction when available and appropriate. See Domain II, number 9, of Appraisal Framework & Scoring Criteria Guide.

TEKS

Texas Essential Knowledge and Skills is the state curriculum framework established by law. (TEC § 28, Subchapter A. Essential Knowledge and Skills; Curriculum)

TSR

Teacher Self Report

walkthroughs

Informal, unannounced, and unplanned classroom visits of limited duration.

work and life applications

Current and/or future settings in which students may use learning.
