* For states in which teachers are part of a larger public employee system, the liabilities were adjusted to reflect an estimate of the percentage of teachers in the system.

Teacher pension trends in the U.S.

Teacher pension system debt has reached a half trillion dollars.

Just seven states offer a fully or nearly fully portable primary pension plan for teachers.

Other indicators also reflect worrisome trends.

Number of states where pension funding ratios have decreased since 2008

Number of states that require excessive contributions of teachers, employers or both

Number of states that have increased teacher contribution rates since 2008

Number of states that have ten-year teacher vesting periods
