

New Teacher Orientation

New Teacher Institute

An extension of New Employee Orientation includes strategies for "getting started" in the classroom, including classroom management and local/state curriculum information. It is developed in collaboration with administrators, instructional specialists, teachers and college staff members.

New Teacher and Mentor Teacher Program

Mentors, new teachers, career coaches, student teachers and college faculties meet during on-going monthly workshops. A new teacher liaison provides new teacher support at schools and works to promote new teacher success on a district wide basis.

State Licensure

For information regarding the status of state licensure, contact April Pleasants in the Human Resources Department at 804.780.7870.

"Do not go where the path may lead, go instead where there is no path and leave a trail." - Ralph Waldo Emerson
