

Per past confirmation from the district, the half steps (e.g., 2.50) only apply to teachers who join the district mid-year or come in with a half-year credit. Given that the district's salary schedule has had half steps for years, we continue to assume that they apply to teachers who meet the criteria as outlined above. As a result, NCTQ's analysis is based only on the full steps (e.g., 2.00).
