HAWAII EARNS D+ GRADE FOR TEACHER POLICIES IN NEW EDITION OF NATIONAL YEARBOOK

STATE DEMONSTRATES NO PROGRESS IN STATE TEACHER POLICIES SINCE 2015

Washington, DC--Today, the National Council on Teacher Quality (NCTQ) released its bi-annual *2017 State Teacher Policy Yearbook*, finding that states' previous rapid progress to modernize their teacher policies has largely slowed. Hawaii's overall grade for its teaching policies has stagnated at a D+ grade since 2015. By comparison, the overall grade nationally stayed flat at a C- grade.

From 2007 until 2015, most states took aggressive steps to improve the teaching profession. However, since the last edition of the Yearbook in 2015, few states have initiated any new actions to improve their policies guiding how teachers are selected, prepared, evaluated, and retained. As a result, state grades have mostly stagnated, with more state grades decreasing than at any other time in the *Yearbook's* history.

This year, among all 50 states and the District of Columbia, 31 states earned a higher grade than Hawaii, 10 states performed as well as Hawaii, and nine states earned a lower grade. Florida and Louisiana each earned a B+, the highest grade in this year's *Yearbook*.

"States' teacher policies have an enormous impact on the quality of education in the state," said Elizabeth Ross, Managing Director of State Policy at NCTQ. "By highlighting opportunities for improvement, as well as strong policies, this Yearbook is designed to catalyze state action. We know the progress states are capable of making and urge them to do so. Teachers and students deserve nothing less."

Hawaii has several key opportunities for growth. In its 2017 *Yearbook*, NCTQ reported that the state earned F grades in Elementary Teacher Preparation, Special Education Teacher Preparation, and Alternate Route Teacher Preparation. It earned D- grades in General Teacher Preparation, including admissions policies, program reporting, and student teaching, and in Secondary Teacher Preparation.

Hawaii earned its highest grade, a B-, in the area of Teacher and Principal Evaluation. The state fully meets the goal of Linking Evaluation to Professional Growth and nearly meets the goals of Measures of Student Growth, Data Systems Needed for Evaluation, Principal Effectiveness, Performance, and Leadership Opportunities.

The Yearbook designated Hawaii as a "Best Practice" state in Tenure policies, because it requires tenure decisions to be based on measures of teacher effectiveness.

The full *2017 State Teacher Policy Yearbook* is available [here](#), with comprehensive information regarding each state's teacher policies available in NCTQ's [State Teacher Policy Database](#).

To compare Hawaii to other states across the country in eight key measures, including teacher pay, teacher diversity, and educator equity, please look [here](#).
